# Mangalayatan University, Aligarh

Innovating Higher Education

**M**angalayatan University, Aligarh, is one of India's largest universities, with 3000+ students currently enrolled from India and abroad. It is the best place to learn, discover, innovate, express, and discourse. Students at Mangalayatan forge a new pathway in higher education, and each journey is as special as the student. The University's Work Integrated Learning Program (WILP) is a path breaking initiative that allows working professionals to seek higher education without sacrificing their jobs. 15+ programs are offered under WILP, all of which are technical continuing education programs aimed at developing a smarter workforce for the future-ready

organization. Since its inception in 2006, Mangalayatan University has consistently broken its own placement records year after year. Capgemini, Genpact, Google India, TCS – ION, HP, Infosys, Man Hattan, and Aon Hewitt are just a few brands that have recruited almost 80% of graduates every year on high salary packages. Mangalayatan attracts the best students because of its excellent education. Professors at the University are competent academics who are committed in continuously innovating effective teaching and learning technology, pedagogical approaches, and techniques that make studies more engaging and understandable.

## Usha Martin University

Creating methodology and collaboration to nurture young minds towards active intellect.

**U**sha Martin University, one of India's leading Universities, seeks to make the world a better place by providing world-class education in multiple disciplines making bold advances to break new ground. The institution is committed to excellence in teaching, learning, and research, as well as the development of global leaders of tomorrow. The weekly magazine 'Open' has ranked Usha Martin University 88th out of top 158 private universities in the country, while 4th in Jharkhand, and 3rd in Ranchi. UMU, a world-class institution in eastern India, raised the bar for learning by providing a holistic and multi-disciplinary education that has the potential of a profound long-term impact on our society's social and economic fabric. The University has provided 100% placement for two outgoing cohorts of MBA programmes. The University has collaborated with IBM to bring a revolutionary transformation in higher education by swiftly developing industry-ready software

competencies that various organizations require. With IBM's collaboration, UMU has introduced new specializations to its BBA, MBA, BCA, MCA, and B. Tech programmes, such as, Business Intelligence & Data Analytics, Banking, Finance, & Insurance, Artificial Intelligence & Machine Learning, Blockchain Technology, Graphics, & Gaming AR/VR, Mobile Computing. These professional programmes are aimed at providing the most up-to-date educational technologies to support customized learning, increase research capacity, and improve operational efficiency. In the last few years, UMU has incorporated neo-teaching methods such as projector learning, e-learning, field tours, industry visits, internships, etc., which are more activity-based with practical approach.

# TOWARDS STRONG FOUNDATION OF HIGHER EDUCATION INFRASTRUCTURE

**T**he storm of liberalisation and free-market that hit India in 1991 may be recalled in the form of unlimited expansion of Higher Education Institutions in the country. More than 750 Universities and over 30,000 Higher Education Institutions had come up during

the last decade of the 20th century and the first decade of the 21st century. But many of those institutions were not able to offer quality education. With the entry of private sector in education and also offers of better salary and allowances, many educationists, employees and planners from government institutions had started turning towards private sector. In the

Dental Council of India (DCI) and All India Council of Technical Education (AICTE) faced inquiries following disputes and scams. During that period, the changes in primary and secondary education had degraded education level there too. The adverse impact of all those happenings was seen on the recruitments done by various Selection Boards. During that period, we also witnessed many recruitment scams, irregularities and inquiries. Hence, it was the period of extreme dissatisfaction and disappointment among the youth of the country. We also saw the findings of many surveys and reports of inquiry committees which warned that most of the youth passing out from most of the educational institutions were unfit for the jobs and employment they were trained. They did not fulfill the requirements of their future employers. There was a full generation armed with fake or purchased degrees, and India had emerged as a country with a huge network of directionless and unproductive higher education institutions.

Meanwhile, various efforts and discussions began in the country for a radical change particularly for new education policy, reconstitution of regulatory agencies, curbing commercialisation of education, eradication of fake faculty, students as well as degrees, curbs on aimless expansion, connecting education with employment, skills, moral values and Bharatiya *samksars*. The present

Government led by Prime Minister Shri Narendra Modi constituted two committees, first under the chairmanship of Shri TSR Subramanian and second under the chairmanship of noted scientist Dr K Kasturirangan, to deeply study and suggest extensive changes in all stages of education. These committees sought suggestions from various stakeholders for formulating New Education Policy and worked on war footing. Compiling thousands of suggestions received by these

The need of the hour is that all higher education institutions of India move forward with original thinking, focus on research, industry-academia tie-up, innovation, international agreements, new inventions, patents, students exchange and promotion of employment opportunities.

transition phase, both the private and government institutions not only witnessed a kind of anarchy, irregularities and mismanagement but also newer kinds of loot, scams, uncontrolled expansion, inadequate infrastructure, shortage of quality faculty, lack of employees and students, cheating, sale of degrees and mindless westernisation.

Amidst this mindless race of greed, there was a period from 2010 to 2014, when even the regulatory agencies like University Grants Commission (UGC), Medical Council of India (MCI),

committees and outputs of various discussions and debates, the draft of New Education Policy has been prepared, which will be put before the countrymen after General Elections 2019. Before that, the Government of India has taken many constructive and concrete steps to improve the standard of primary, secondary and higher education in the country. The prime objective behind taking those steps was to create the basic infrastructure, which can support the new world-class educational institutions in the country.

Our surveys have revealed that the government introduced some decisive changes in education system even while facing various allegations and contradictions. And those changes have effectively impacted the education sector with better output.

The strong foundation of higher education is impossible without effective and quality primary and secondary education. Effective steps were taken in most of the states of India to curb the copying mafia, ban parallel books published by private publishers, strictly implement calendar system, curb proxy presence in examinations, connect the data of students, faculty and employees with Aadhar, introduce biometric attendance, bring impressive improvement in basic infrastructure with the help of private and government sector, promote huge investment in the infrastructure for imparting basic skills, skill development, labs, libraries, sports grounds etc for promotion of innovation, research & sports, digitisation of training and improved exam results, effective curb on fake faculty, etc. It is beyond any doubt that without these fundamental changes and reforms, the desired change in higher education sector is impossible. Howsoever good education policy we may formulate, it will remain in letters only without showing any good result on the ground.

This very same campaign was carried out in higher education sector, both private and public, also. As a result of all the positive steps taken in the primary and secondary education sector, intake of higher education institutions is improving consistently. The institutions having poor infrastructure or showing poor performance, are being closed down or being effectively monitored. The departments which are unproductive in these institutions are also being shut down. The government institutions are provided with more funds so that their basic infrastructure is improved, they can focus more on research, innovation and skill development and employment-oriented education is promoted. Instead of multi-regulatory agencies, the country is now moving ahead for single regulatory agency. The students' selection has also been started through an independent

agency. Hundreds of Engineering, Management, Medical and Dental Colleges as well as other institutions are either being closed down if they fail on the set parameters, or their recognition is being halted. The data of faculty and students has been made available online. Dozens of big and good private and government institutions in the country have been granted the status of Eminence and efforts are being made to provide them more funds to make world-class institutions. Amidst these changes in education, there is also focus on restoring the ancient glory of Bharat in education sector so that the newer lights of knowledge come out from different houses providing authentic answers to the various problems being faced by the world and ultimately Bharat again regains the glory of Vishwaguru, the world leader. Efforts have begun to understand the ancient Vedic and Upanishadic knowledge in newer perspectives and hence are being connected with modern needs as well as knowledge.

As a result of all these efforts, the trust of the countrymen in our own education system is gradually getting restored, and they are turning to entrepreneurship rather than jobs seeking, which is surely a major turning point. One more significant outcome of all these efforts is that the trust of the foreign students has also strengthened towards our education institutions and thousands of foreign students, during the last several years, have sought admissions in various Indian institutions. It is time to further strengthen this trust. The emphasis should be on opening the institutions where we can deeply study the culture, knowledge traditions, science, achievements, weaknesses, foreign policy, politics, natural and human resources of other countries in our own institutions. It is time for the development of 'Pen India' mindset with our age-old tradition of the welfare of the entire world.

We can say that if all these efforts continue with the same honesty for several more years, the education sector in Bharat will re-enter in the golden era. The need of the hour is that all the higher education institutions of the country make a start with original thinking focussing on research, industry-academia tie-up, innovation, international agreements, new inventions, patent, genuine research papers, students exchange and promotion of employment opportunities. They should be sufficiently honest, transparent and accountable to the level that the governments grant them autonomy without any hesitation and they genuinely emerge as the world-class power stations of knowledge.

Editor

# INTERNATIONALIZING INDIAN HIGHER EDUCATION

Despite obstacles, India has enormous potential to be a major player in international education.

● David Tobenkin

**I**ndia's role in

international education has traditionally been as a major importing country; according to Open Doors data, between the 2000–01 and 2019–20 academic years, there was a 253 percent increase in the number of Indian students studying in the United States. However, in recent years, the country has renewed its focus on becoming a destination country for international students and ramping up internationalization efforts on campuses across India.

The central government has recognized that the internationalization of India's higher education sector is crucial to the development of its overall higher education system. The country's National Education Policy 2020 (NEP 2020) formalized these efforts at the national, state, and institution levels.

This significant undertaking, which outlines areas of reform and steps needed to achieve its goals, is especially impressive for a country as large as India, given the size and scope of its higher education sector. The initiative is also intended to address some of the long-standing challenges to educational reform, which contribute to the push and pull of internationalization efforts in India.

## NEP 2020 and

## Internationalization

The NEP 2020 aims to internationalize Indian campuses in a variety of ways, focusing on both domestic and inbound students. For domestic students, the policy creates global immersion programs, encourages Indian universities to open branch campuses in other countries, and allows foreign universities to operate in India, facilitated through a new legislative framework.

To attract international students, the policy provides low-cost, quality education; simplifies visa and internship policies; allocates funding for Indian universities to develop courses designed for international students; and encourages international research partnerships and agreements for mutual recognition of degrees.

Two additional, notable actions by the Indian government to bring in more international students include support for short-term programs and memoranda of understanding (MOUs) with other governments. “They are short-term because few students from Europe or the United States would want to join for full-term courses,” says Eldho Mathews, deputy adviser at the National Institute of Educational Planning and Administration. “The government has identified certain countries under its Study in India program, and they are trying to focus on bringing in more students from them.” Study in India, launched in 2018, provides grants, valued at \$3,500 each per annum, for more than 2,000 students.

The government has signed MOUs with France and Morocco and is exploring MOUs with other countries related to its Study in India initiative. India and Australia recently announced their intention to form a new framework for mutual recognition of higher education qualifications, which aims to increase student mobility between

the two countries.

### Big Hopes and Big Obstacles: One Institution’s Story

The NEP has sparked new thinking at Indian private universities, says Adrian Mutton, chief executive of market entry consultancy Sannam S4’s Acumen education division.

*“I’m pleasantly, genuinely surprised that over the last 12 to 18 months, we’ve had approaches from 25 to 30 private Indian institutions,” says Mutton. “That is something that has never happened before—so many institutions have never been that proactive. The thought of them spending money on consultants like us was completely foreign.”*

One of those who approached Mutton was Prabhu Aggarwal, vice chancellor of Bennett University, a subsidiary of the Times of India Group media conglomerate based in

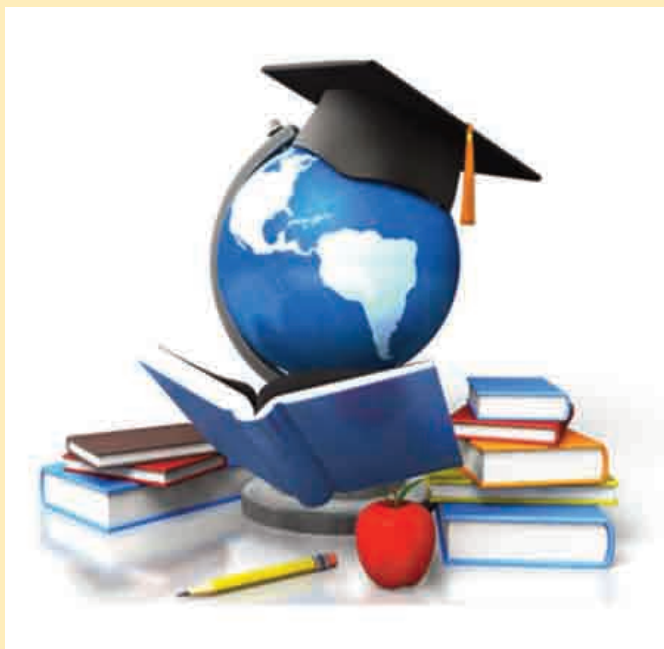

Greater Noida, Uttar Pradesh. Bennett retained Sannam S4 to find an international partner, and, in December 2021, Bennett established a collaboration with King’s University College at Western University in Ontario, Canada, through a MOU.

Under the arrangement, a student exchange program, under the responsibility of King’s International Office, will promote academic exchange, faculty and staff exchange, and collaboration on research and academic activities of mutual interest.

The relationship is part of Bennett’s strategy to build close connections with a handful of institutions abroad. With King’s, says Aggarwal, “we are primarily focused on their liberal arts program with the ultimate goal to offer a two-plus-two or a two-plus-one program, which we are not allowed to do under the rules as of today.”

Under existing central government rules, a true dual degree program under which a foreign institution could grant a degree concurrently with Bennett is not allowed, says Aggarwal. “So, instead, while we wait for the rules to change, I’ll aim to offer a program today.”

This workaround speaks about the solutions Bennett and other institutions in India are creating to meet their needs and pursue new opportunities while they wait for government

regulations to catch up.

As Mutton and Aggarwal note, the long-term aspiration is that the dual degrees would include credits that are transferable from one institution to another; a student could complete a three- or four-year course in one country and receive degrees in both.

India's University Grants Commission (UGC) issued draft regulations to govern academic collaborations between Indian and foreign institutions, addressing arrangements and practices related to credit recognition and transfer, twinning arrangements, joint-degree programs, and dual-degree programs. The regulations could make it easier for foreign institutions to establish a presence in India by requiring participating Indian institutions to have an office for international affairs that is responsible for carrying out collaboration activities, which the UGC has already recommended in a separate January 2021 decree to Indian universities.

Other Challenges and

#### Opportunities in Expanding Internationalization Efforts

Limitations on dual degrees are only one of the obstacles that impede internationalization efforts in India, Aggarwal says. "The NEP talks about internationalization and giving universities more freedom and choosing partners and so on, but they must still do so under the regulatory framework that exists," he says, though this issue is not unique to India. However, if a U.S. institution wanted to set up a campus in Delhi, charge tuition, and bring its faculty members to teach, says Aggarwal, "there would be no business model for them under existing regulations."

Some foreign institutions, including Columbia University, Harvard University, and the University of Chicago, do operate there with small offices and a handful of programs, Mathews notes. And an initiative out of Miami University of Ohio created a 12-person cohort of international education leaders from across India to develop partnerships and

collaborations between institutions in both countries.

Plans are also in motion to expand the Indian higher education sector's global networks, says Raghu Radhakrishnan, director of international relations at Manipal Academy of Higher Education (MAHE). Though currently "there is no forum or network to promote the internationalization of Indian higher education," he says, MAHE is working with the UGC, the Indian government, and the Association of Indian Universities to establish such a network, called the Indian Network for Internationalization of Education (INIHE).

*"The NEP talks about internationalization and giving universities more freedom and choosing partners and so on, but they must still do so under the regulatory framework that exists."*  
—Prabhu Aggarwal

Addressing regulatory barriers and creating an internationalization network among Indian institutions are steps in the right direction. But there are many other barriers to address, including market-related and cultural challenges, especially if India is to gain on China in the competition for internationally mobile students, as some in the field predict.

*"There are so many people that study in China for foreign degrees, there's the transnational education market (TNE), and there's progression programs onto foreign institutions for two-plus-one [and]*

*two-plus-two arrangements in significant numbers,” Mutton says. “But that market does not exist in India. Why hasn’t India begun to replicate China’s TNE or progression story?”*

The major reason, he says, is that historically, Indian employers are less likely to accept foreign degrees as credible qualification—but that is changing. “As India’s economy moves more toward the private sector, there’s much more of an entrepreneurial mindset there,” says Mutton. “It’s becoming much, much more acceptable now than it was even 5 to 10 years ago to go work for a startup venture or a nonbranded company.” Because of this, “the dynamics are shifting and an international experience is increasingly respected alongside the degree itself,” he says.

### Attracting Inbound Students

Most top sending or destination countries have a disparity in the ratio

of inbound and outbound students. In India, the flow of outbound students is a mighty river, while the flow of undergraduate and graduate students from foreign institutions into India is more of a stream.

The All India Survey on Higher Education 2019–20 (AISHE 2019–20) reported that 49,348 international students were enrolled in higher education in the country in the 2019–20 academic year, up slightly from 47,427 the previous year. That compares to 261,406 Indian students studying abroad in 2020, according to India’s Ministry of External Affairs. Still, Mathews notes that there is a marked increase from the 27,531 international students enrolled in Indian universities and colleges during the 2010–11 academic year.

India has successfully drawn students from neighboring Southeast Asian countries, including Nepal, which accounts for 28.1 percent of all international students studying in India. Other students come from 167

different countries, and the top 10 sending countries Nepal, Afghanistan, Bangladesh, Bhutan, Sudan, the United States, Nigeria, Yemen, Malaysia, and United Arab Emirates constitute 63.9 percent of the total international students enrolled.

Attracting students from other regions has been difficult for several reasons, from overarching obstacles like inadequate funding and bureaucratic challenges, to shortcomings related to campus life and postgraduation opportunities. Misallocation and delays in internationalization funding for public institutions are still a problem—and correcting this problem is a goal outlined in the NEP.

Past efforts to internationalize wide swaths of Indian higher education at a stroke have run into bureaucratic obstacles. William Brustein, interim director of the University of Pittsburgh’s Global Studies Center and formerly the vice provost for global strategies and international affairs at The Ohio State University from 2009 to 2016, says he experienced this bureaucracy first hand when Ohio State successfully instituted a dual-degree graduate program with Aligarh Muslim University to train STEM research teachers.

*“We then tried to expand it to other areas in India,” says Brustein, who established a number of U.S.-India mobility programs during his time at Ohio State. “Even though everyone agreed there was a dearth of faculty to teach STEM subjects, we could not advance the expansion proposal through the Department of*

short-term scholars. Under the program, they work as adjunct or visiting faculty for up to 3 months at Indian public-funded academic and research institutions.

Another program is the Scheme for Promotion of Academic and Research Collaboration (SPARC), which aims to improve the research ecosystem of India's higher education institutions by facilitating academic and research collaborations between Indian and foreign institutions.

Some Indian institutions are expanding abroad. Amity Education Group has established international campuses in Dubai, Mauritius, Singapore, and Uzbekistan according to C-BERT. In 2016, Amity acquired a campus from St. John's University in New York, and in 2021, Amity announced an agreement with Harrow School in the United Kingdom to establish four Harrow International Schools in India and one in New York. The Manipal Academy of Higher Education has also expanded internationally, through a private medical college established in neighboring Nepal in 1994 and a medical college in Malaysia in 1997. MAHE also has campuses in Antigua and Dubai.

*"The national government recently convened a meeting of the Indian institutes of technology (IITs) to discuss with them how they might open overseas campuses," says Ramaswamy Sudarshan, dean of the Jindal School of Government and Public Policy at O.P. Jindal Global University. Officials believe IITs would have success opening*

*campuses in the Middle East and other locations that have "generally been receptive to foreign universities," he says.*

Efforts to expand into additional Western locations also continue. In February, a meeting between higher education officials from the United Kingdom and IITs explored the idea of international IITs and other campuses in the United Kingdom, reported the Times of India.

Foreign institutions' branch campuses in India have not been a significant factor to date but are noted in the NEP 2020 as an area of potential for internationalization. A July 2021 survey of 43 highly ranked international higher education institutions by the National Institute of Educational Planning and Administration found that eight would consider establishing branch campuses in India to educate Indian students. A report based upon the survey found that many universities are awaiting

Indian central government rules and regulations that would govern such arrangements.

### **Moving Forward**

The survey results exemplify the promise and pitfalls of internationalization in Indian higher education. Though there are challenges, there is also a growing appetite for partnerships, student and scholar exchanges, and other internationalization activities both within India and among foreign institutions looking to partner with Indian institutions.

If the NEP can address these hurdles and reform the country's overall educational system, India stands to strengthen its stature in international education: boosting internationalization efforts on its campuses, expanding access to global opportunities for Indian students, and becoming an increasingly popular destination country for international students. ■

# NEP 2020 AND GLOBALISATION OF INDIAN HIGHER EDUCATION: SOME REFLECTIONS

● Bhagirathi Panda

**T**hese days the National Education Policy 2020 (NEP 2020) is being regularly discussed and analysed in academics, government and the larger society. One of the important objectives of the NEP 2020, particularly with respect to higher education, is to make it global. The question that arises is what does it mean to be global? In other words, what are the evolving critical characteristics or elements that make a higher education system global? The next important question is, why do we need to make our higher education system global? This question essentially relates to the rationale and desirability of making our higher education arrangement global. If we could answer both these questions with confidence and relevance (which we have tried to do here in subsequent analyses), then naturally the third question pertains to the challenges that we would face in undertaking this exercise. Having identified the multiple challenges and analysed them in their contexts, we could then suggest some ways forward. However, all these four exercises require a prelude in the form of understanding the current status of higher education in our country and

identified regions with respect to some fundamental indicators.

We start with the Gross Enrolment Ratio (GER) in higher education. As per the report of All India Survey on Higher Education, 2020 (AISHE 2020), the GER in higher education (regular mode of education only) stands at 27.1% for the whole country as against USA's 88%, Germany's 70% and China's 54.4%. Within the country, when it comes to the North Eastern Region (NER), out of the eight states, five states viz.

Assam, Meghalaya, Mizoram, Nagaland and Tripura are having GER lower than the national average. Another important indicator is Pupil-Teacher Ratio, which simply shows how many students are there per one teacher. Here, the Indian average is 29 as against USA's 12, Sweden's 12.1, Russia's 10.1 and China's 19.1. When it comes to the NER, again five states viz. Assam, Arunachal, Meghalaya, Tripura and Sikkim have pupil-teacher ratios that are worse than the national average. Accreditation is an important

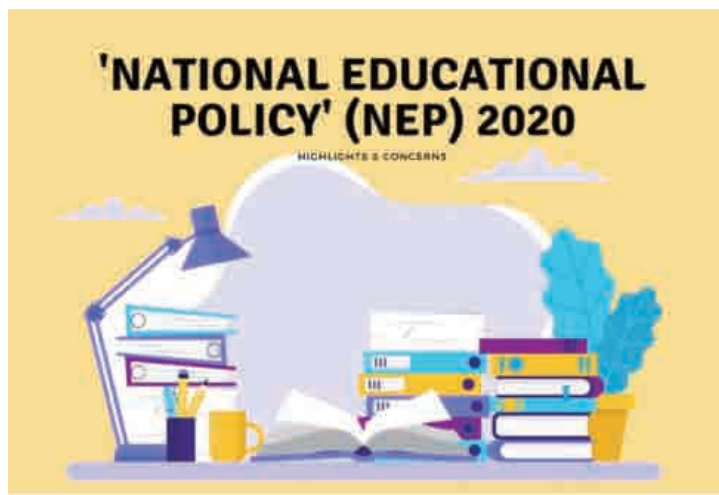

characteristic of global higher education. In our country less than 30% of our higher educational institutions are accredited, whereas in the USA more than 90% of the tertiary educational institutions are accredited. Total number of foreign students enrolled in Indian higher educational institutions in 2020 was only 49,348. Majority of these enrolled students and scholars come through bilateral exchange arrangements. Hardly 2-3% of them come spending their own money. Research is an important component of global higher education. In our country for the last two decades the allocation in R&D has been hovering around 0.6-0.7 % of GDP, against USA's 2.8%, China's 2.1%, Israel's 4.3% and South Korea's 4.2%. India has 216.2 researchers per 1 million inhabitants against 1,200 in China and 4,300 in the US. Total citations in the

year 2018 for Indian research papers were 4.27 million against 66.45 million for the USA and 19.35 million for China. During 2018, the number of research papers published by Indian scholars was 0.52 million, against 3.8 million for the USA and 2.06 million for China.

With this prelude in mind, let us examine the critical elements of the global higher educational system including the changing prototypes. Global education system in terms of its practice is marked by competition

among students, presence of global students and faculty, autonomy and accreditation, ranking, multi-disciplinary learning and research, collaboration with global institutions, public-private partnership, credit transfers and employability. In terms of its content and pedagogy, it provides for multidisciplinary learning and research, better connect between theory and empirics, peer to peer connect, curriculum linked to societal problem solving, experiential learning and continuous & comprehensive real-

time assessment. The changing prototypes include (i) the student and teacher being reinvented as learner and mentor, (ii) fixed time teaching being replaced by teaching on demand, (iii) provision of reading materials by the teacher being replaced by mapping learning outcomes, (iv) one time training being replaced by life long training through skill formation and (v) one time learning being replaced by lifelong opportunity. When we compare our present state of higher education with these bench-marked

characteristics, we do find some of them are non-existent and some of them are sub-optimal.

Let us now answer the question relating to the imperative and rationale of globalising our higher education. We could see broadly two rationales here- the rationale of remaining relevant in the context of emergence of crucial macro global driving forces such as the arrival of the knowledge economy, competition, revolution in technology and declining public investment in higher education. The second is the

powerful economic rationale of education as a service emerging as a key strategic reform and development agenda of many developed and emerging economies. When one looks at the global growth practice and strategy, one comes across a distinct pattern in the strategy of the developed countries and the same is also being adopted by emerging economies such as China.

Industrial revolution brought in huge economic gains to western Europe and the manufacturing sector contributed the lion's share of the GDPs of many of the European countries in the eighteenth and early and mid-twentieth century. Subsequently, the rise in labour cost of production in these economies led to a shift in the world manufacturing base from western Europe to countries and regions such as the USA, Japan, South East Asia including South Korea and China in that order. Europe and USA thus

started compensating their loss in manufacturing by exporting services such as finance and insurance, tourism and recently education. During the year 2019-20, USA 's economy received \$38.96 billion in exporting education services leading to creation of over 415,990 U.S. jobs. Of late, China has started aggressively exporting education services, once it realised that its competitiveness in manufacturing may not continue long. And in this direction it has undertaken a complete revamp of its higher education landscape trying to make it world class by benchmarking global practices and attributes. Recently (before Covid-19) there has been an increase in the number of Indian students going to China for higher education. Currently, more than 15,000 Indian students are pursuing tertiary education in China.

It is against the background of both the relevance and economic rationale that we need to prepare ourselves to become a global power in export of educational services. This

will not be possible unless we ensure the standard global practices and values in higher education. NEP 2020 therefore, very rightly mentions internationalisation of our higher education system as one of its prime objectives. However, to realise this objective, we have a number of challenges to overcome. None of the universities and institutions from India are in the list of top two hundred universities in the world. This results in graduates with low employability, a common feature of higher education in India. We have to create world class physical infrastructure. Faculty shortage is a big setback. Faculty shortages and the inability of the state educational system to attract and retain well-qualified teachers have been posing challenges to quality education for many decades.

The profile of our faculties and students needs to be global. We continue with outdated and rigid curriculum mainly focused on imparting theoretical knowledge bereft

of creativity. There exist huge gaps between industry requirements and what the higher educational institutions teach in terms of their curriculum. This needs to be taken care of. Pedagogy and assessment are focused on input and rote learning. We need to provide opportunities to students to develop a wider range of transversal skills, including critical thinking, analytical reasoning, problem-solving and collaborative working. The important tasks cut-out for us would be to promote global collaboration, ensure diversity and flexibility, establish peer to peer connect in teaching and research, encourage endowment culture, build in motivational and experiential learning, ensure increased public-private partnership and value proposition in our higher education.

The NEP 2020 stipulations on transforming the regulatory system of higher education by establishing four verticals having distinct functions of regulation, accreditation, funding, and academic standard setting; establishing a National Research Foundation (NRF) and creating more multidisciplinary universities and colleges are steps in the right direction. Globalisation of Indian higher education is fundamentally about benchmarking global quality, infrastructure, institutions and practices along with the unique Indianness in our higher education arrangement. This requires serious partnership with government, academia, market, community and civil society. Are we ready for it?

## PM'S SPEECH AT INAUGURATION OF AKHIL BHARTIYA SHIKSHA SAMAGAM

**A**khil Bhartiya Shiksha Samagam' is being organized on the holy land, where an important university of the country was established before independence. This congregation is taking place at a time when the country is celebrating the Amrit Mahotsav of its independence. The great responsibility of fulfilling the virtuous resolutions of the country during 'Amrit Kaal' lies on our education system, on our young generation. It is also written in the Upanishads विद्या अमृतम् अश्नुते i.e., knowledge leads to immortality and nectar. Kashi is also called the city of salvation because the only way of liberation is considered to be

knowledge. Therefore, when such a great churning of education and research, learning and understanding, happens in the important centre of knowledge in Kashi, the nectar emanating from it will surely give a new direction to the country. On this occasion, I bow at the feet of Mahamana (Madan Mohan) Malaviya ji and wish you all the best for this event. I am an MP from Kashi. Since you have come to Kashi, so in a way I am also your host. You are also my guests. I am sure that you will not have many problems as everyone must have tried his best to make better arrangements. But still if there is any shortcoming, then the fault will be mine. And being a host, I apologize in advance if there is

any inconvenience.

I have come here after attending an event. There was a centralized kitchen for mid-day meals there and I got an opportunity to interact with the children of 10-12 years of age of the government school in Kashi. I would like to share with you what I heard from them. I would also like to meet the teachers of the students whom I met today when I come here next time. You must be wondering why this thought came to my mind. I had just 10-15 minutes to spend with them, but it left a lasting impression on my mind because of the talent, confidence and diversity among the students of a government school who come from a very ordinary background. Such was

their talent that if your grandson also possessed such talent, you would also be bound to tell him to demonstrate that talent whenever any guests visit you. What I mean to say is that this potential and ability of the present generation will take them to the positions that you hold now. By then, you will not be there but the institutes that you create will welcome such talented children in the time to come. You have a bigger responsibility to ensure that they do not miss out on anything there. I am sure that the discussions over the next three days here will give an effective direction to the implementation of the National Education Policy.

As you are aware the basic premise of the National Education Policy is to take education out of narrow thinking and to integrate it with the modern ideas of the 21st century. There was never a dearth of intellect and talent in our country. But, unfortunately, we inherited a system where education meant only securing jobs. During their rule, the British provided this education system to prepare a servant class for themselves to meet their needs. Though there were minor changes in it after independence, much remained unchanged. The system created by the British was never part of Indian ethos and it can't be. If we look at the ancient times of our country, we had the concept of different arts in education. And Banaras is a living example of this. Banaras was the center of knowledge

not only because it had good Gurukuls and educational institutions. Banaras was the center of knowledge because knowledge and education here was multi-dimensional and multi-sector. This diversity in education should also be the source of inspiration for our education system. We should not only create degree-holder youth, but prepare an education system which should provide whatever human resources needed for the country to move forward. Our teachers and educational institutions should take a lead in this resolve. The faster our teachers imbibe this spirit, the more the youth and the students will benefit and so will be the

future of the country.

The creation of new systems, the inclusion of modern systems, is equally important for a new India. What has never happened before and the goals that the country did not even imagine to achieve are actually being realized in today's India. Now you see, not only did we recover rapidly from such a big pandemic of Corona, today India is one of the fastest growing economies of the world. Today we are the third

largest start-up ecosystem in the world. Areas such as space technology which were only the domain of the government earlier have been thrown open to the private players. Now a new world is being prepared for the youth and the whole space is within their reach, friends. Today the sectors, which were barred for daughters of the country earlier, are exemplifying their talent.

When the mood and the pace of the country is such then we also have to instill new energy in our youth so that it can give wings to their dreams. Until now, schools, colleges and books used to decide the direction of the children. But now the responsibility on the youth has increased even more after the National Education Policy. And with this, our responsibility too has increased to continuously encourage the dreams and flight of the youth and understand their mind and aspirations. Only then will we be able to prepare them. Gone are the days when the youths of the country were imposed anything without

recognizing their talent. We have to always keep this in mind that we have to prepare education, institutions and human resource development according to their needs. The focus of the new education policy is to make the children skilled according to their talents and choices. The education policy is preparing the ground so that our youth are skilled, confident, practical and calculative.

In the midst of rapid changes in

the country, I will give you an example of how important is the role of the education system and all the great people associated with it. I would like to share my experience during my initial years as Chief Minister of Gujarat. When I became Chief Minister, I had no experience of governance. This responsibility came all of a sudden. I mooted an idea. I told all my secretaries that they were the chief ministers of their respective departments. I told them to explain to me how and where they would take their departments in the next five years. What would be your achievement and how would it benefit the common people of Gujarat? I told them to give me a detailed presentation of their vision. I told this to the secretaries of all the departments and every day at five o'clock in the evening all the ministers of my council of ministers and the secretaries used to meet. One of the secretaries would give a detailed presentation of his department and that used to be debated. All the

secretaries used to be present in that meeting. There used to be debates and our ministers would also take part in it. I would hear them and try to learn. This program went on for about a month. It would begin at five o'clock in the evening and would continue till 10 p.m. It was a very intense program. Perhaps this must have happened for the first time in the history of India. So one day there was a presentation related to the industry. They were detailing everything regarding the industries and where they saw industrial development in the next few years. The moment the program ended, the education secretary came to me because he was to make the presentation the next day. He told me that he would not be able to make the presentation the next day. I asked him for the reason because he was asked to give his presentation a month ago and he was expressing his inability to make the presentation at the last moment. He said that he was prepared and could also make the presentation but he felt

that it was of no match after watching the presentation of industrial development. He said both the departments were going in opposite directions. He sought time to modify his presentation in the light of the presentation on industrial development and said only then could both academia and industry work in the direction of inclusive growth. We should also be aware of other universities of the world and in which direction they are moving. Where does our country figure? Where do our youths figure? How I am preparing the youth who would be in charge of India in the next 15-20 years. This is our enormous responsibility, friends. And on the same lines, all our educational institutions also need to ask themselves whether they are future ready. Is it only my duty to take exams and hold convocations or should I create such an institution whose students would be playing an important role in the completion of 100 years of the country's independence? All of you need to take care of the present. You have to carry forward the work of your predecessors. And those who are working today will have to think about the future and develop systems accordingly. As I said earlier, I met some of the students today and experienced their curiosities. You must also be experiencing the same thing at your home when your little grandchildren ask you questions. You also have to think a while to answer their questions. Sometimes, you may feel that he is pestering you. But he is not pestering you. In fact, you are unable to answer him. All of you must have experienced this in your homes.

Today's generation comes up with many questions after going through Google. They question your wisdom because they go by what Google offers. The child counters you. What would happen to you if these children come to your university after 10 years? We have to prepare ourselves from now on. You are experiencing mismatches with your children even at home. It would be a great injustice if we are not able to live up to the young generation which would be there in the schools and colleges with a new thinking. Therefore, it is necessary that we understand the future and develop systems accordingly. I went to see an exhibition in Gandhinagar a few days back under the Digital India campaign. There were children from government schools. There were children in the 10th, 11th and 12th class. I was impressed by the work of these

children looking at their projects and ideas. I was stunned to see their research potential and their innovations at such a young age. Many children were interested in biotech and genetics. At a time when they are taught the fundamentals of science in their class, they were talking about gene mapping, affinity chromatography and genetic library based tools. Now imagine how big the difference is. Looking at their work, I was wondering if our institutes will be prepared according to their modern thinking when they go for higher education. If we wait for these children to reach their higher education, by then the world will go a long way, friends. Therefore, we have to plan now to provide guidance and resources at this age when the children are motivated. We should work on creating such a system in our institutions.

The National Education Policy is going to complete two years at the end of this month, i.e., on July 29. And just now Dharmendra ji was telling us that this education policy was made after a lot of brainstorming. Kasturirangan ji provided very able leadership and it became possible due to him. The acceptance of the National Education Policy in such a diverse country is a great achievement in itself. It is a great accomplishment. But look at its specialty. There was a lot of brainstorming behind it. And as it happens with the governments, once a document is ready it is left at the mercy of time and some persons. The document adorns the table for a few days. Then a new document comes and replaces it. The matter ends there. You too must have the same experience of this culture. But we didn't let that happen.

education destination for the youth of the world, but also new opportunities can be created for our youth in other countries of the world. Therefore, we have to prepare our education system as per international standards. The country is also making continuous efforts in this direction. New guidelines have been issued to prepare higher education according to international standards. Special offices for international affairs have also been established in about 180 higher education institutions. I would like all of you not only to have necessary discussions in this direction, but also try to familiarize with the arrangements outside India. These new systems will also help in connecting India's education system with international experiences.

You will be discussing many important topics spread over different sessions in the next three days. I would like this discussion to pave the way for new avenues for the country in different fields and guide the younger generation. Many countries of the world owe their progress in different fields to universities. Universities constantly conduct research on socio-economic and scientific subjects, giving suggestions to the government. We need to develop the same culture and methodology here too. This gives the young generation an understanding of the country and the policies of the country and they also become aware of numerous possibilities. I have always believed that more and more new systems should be aligned with the innovative thinking and new ideas of the youth of the country. It leads to fresh talent and new ideas. I would like

all of you to discuss this also and prepare a roadmap. How universities can partner with the government in different areas can also be discussed. You have to decide your own expertise. You should conduct surveys and studies in your field and give suggestions to the government. What are the problems faced by the general public in the 50-100 km radius of your university? What are the solutions? What are resources? What can be done for those resources? What is the attitude of ordinary people there? Your students will get a project and there will be a great report in this regard. A better report can be made regarding any scheme of the government, its advantages, shortcomings, and possibilities of improvement. If all these things are taken seriously by the government, there can be unprecedented results. I remember when I was in Gujarat there was a program in Sardar Patel University. The officials of Sardar Patel University had prepared some books after doing a lot

of research in rural development. They gifted those books to me. I found them very interesting as I read those books. I gave a task to the department. I told the officials to find out the difference between what the children were saying and how the government was moving ahead as far as rural development is concerned. You will be surprised that there were many issues which really helped me in our projects for rural development. It was the task given to the students by the teachers. It is very difficult to make decisions while sitting in the air conditioned rooms. Our new generation which hits the ground gets very good results. For that matter, we have Agriculture University which conducts research in labs. No matter how good it works, it gets a certificate and its article is published in an international magazine. Even if it gets a degree, the entire research will remain in the lab. We should also have a roadmap for 'lab to land'. What is there in the lab should be implemented in the land. Similarly, those who hit the

## HECI TO BECOME A REALITY SOON

The HECI (Higher Education Council of India) as proposed in the National Education Policy (NEP) 2020, might soon become a reality. In the NEP 2020, HECI is proposed to be a single regulatory body for Higher Education.

Union Education and Skill Development Minister Dharmendra Pradhan recently held an extensive consultation on taking further steps for the formulation of Higher Education Commission of India (HECI).

During the meeting, Pradhan said that HECI should ensure employability, job creation and a global outlook. It should ensure global academic standards and provide more academic autonomy to higher education institutions.

He further said that this important recommendation of NEP-2020 will be one of the many steps in the direction of decolonization of the education system of the country.

The NEP 2020 proposed that HECI may be an overarching umbrella for the guidance of all the higher education institutions in the country.

### What is HECI?

According to the draft of the NEP 2020, the regulatory system of higher education will ensure that the distinct functions of regulation, accreditation, funding, and academic standard setting will be performed by distinct, independent, and empowered bodies.

This is considered essential to create checks and balances in the system, minimize conflicts of interest, and eliminate concentrations of power. To ensure that the four institutional structures carrying out these four essential functions work independently as well as in synergy towards common goals. These four structures will be set up as four independent verticals within one umbrella institution, the Higher Education Commission of India (HECI).

For the purpose of the regulation, the NEP 2020 proposes the National Higher Education Regulatory Council (NHERC). It will function as the common, single point regulator for the higher education sector including teacher education and excluding medical and legal

education, thus eliminating the duplication and disjunction of regulatory efforts by the multiple regulatory agencies that exist at the current time.

For the purpose of accreditation, NEP 2020 proposes the second vertical of HECI called National Accreditation Council (NAC). Accreditation of institutions will be based primarily on basic norms, public self-disclosure, good governance, and outcomes, and it will be carried out by an independent ecosystem of accrediting institutions supervised and overseen by NAC.

According to the NEP 2020, third vertical of HECI will be the Higher Education Grants Council (HEGC), which will carry out funding and financing of higher education based on transparent criteria. HEGC will be entrusted with the disbursement of scholarships and developmental funds for launching new focus areas and expanding quality programme offerings at HEIs across disciplines and fields.

The fourth vertical of HECI as proposed in the NEP 2020 will be the General Education Council (GEC), which will frame expected learning outcomes for higher education programmes, also referred as 'graduate attributes.' A National Higher Education Qualification Framework (NHEQF) will be formulated by the GEC and it shall be in sync with the National Skills Qualifications Framework (NSQF) to ease the integration of vocational

**Higher Education  
Commission of India  
(HECI) – Repeal of UGC**

education into higher education. Higher education qualifications leading to a degree/diploma/certificate shall be described by the NHEQF in terms of such learning outcomes. In addition, the GEC shall set up facilitative norms for issues, such as credit transfer, equivalence, etc., through the NHEQF.

The GEC will be mandated to identify specific skills that students must acquire during their academic programmes, with the aim of preparing well-rounded learners with 21st-century skills.

world, even the richest of the rich countries are troubled by the fact that the age of the people is increasing there. Aging is the problem and the younger generation is almost missing. The elders form a huge bulk of the population. They are unable to run the countries. Now this cycle is such that everyone has to face it. Today our country is young, but our country will also have to face the problem of aging when there will be less number of young people and the number of elderly people will be more. Those days will come. Is there

ground have great experience. The experience of the ground realities should also be used in the labs. We can consider steps on how to enrich research and the traditional experience. Similarly, it is with the knowledge of traditional medicine i.e., Ayurveda. Neither you nor I will challenge it. But there are many countries of the world which are ahead of us in traditional medicine. This is because in today's time both results and proof are needed. For example, if we say that this herb is very useful and we get the desired results. We get the results but there is no proof, and therefore, we must have proofs along with results. We must have a database. We should have a complete record of it, from where and how the change took place. We cannot change the world based on emotions. It cannot be presented as a model before the world. Therefore, despite the results, the need for proof is very important in

today's world. Therefore, our universities which are familiar with the results but lack proofs need to make mechanisms and develop systems and traditions in this regard. And it is not possible without your help. Our universities can do research on evidence-based traditional medicine very well.

Our demographic dividend is our biggest strength. We also discuss it, but is there any university which has studied this demographic dividend? What kinds of steps were taken by the world when such an opportunity of demographic dividend arose? How did the universities in those countries react to it and how did they benefit? Though we keep repeating it, why should we not work on the possibilities of demographic dividend? How can we use this potential for the country for the coming 20-25-30 years? Look at the condition of the countries of the

anyone in the world who has found ways to solve the problems of old age? How are they solving problems in the absence of youth? Which mechanism has been developed so that things are moving forward very smoothly? All these issues should be the innate nature of our universities. I believe there is a good scope for research and work in this regard for universities. If these projects are given to children, they develop a vision. They also get the opportunity to understand new things. Now there is such a huge discussion about climate change. We have unlimited possibilities in the field of climate change. Now there is a scheme called CDRI in our country. In the event of climate change, our infrastructure should be such that it can withstand the vagaries of climate and should be resilient. Now how can we move forward without research on it? Earlier such systems were developed so

that there were neither so much flood, nor so much rain. Nature also supported us and we also supported Nature. Now we are doing just the opposite. Therefore, we need to make arrangements on how to live in the face of this new crisis. Today the entire world is moving towards solar power. India is fortunate that it is bestowed with a blazing sun. How will we utilize the sun? How do we make this power a part of our life system? Solar power has been given so much importance in the policies of the Government. But we need to do a lot of work to use this energy through new research. Similarly, the Swachh Bharat Abhiyan has been embodied by everybody. There should not be any compromise regarding Swachh Bharat. But things don't end there. Unless we make plans towards Waste to Wealth, what can be the circular economy of this waste which is generated, what can be its best product, no progress can be made. Universities can research it. The new generation can make experiments on how to make the best out of the waste?

How do we strengthen the circular economy? There are many areas which are open for our students today, especially at the local level, in this regard. Today the country is also making new achievements in the field of sports with new confidence. New sports universities are being developed. But our universities should not have this feeling that their students have nothing to do with sports since there are special sports universities. The grounds of our universities should be buzzing with students in the evening. Such an environment should be created in the universities so that the children find it difficult to rush to their homes immediately after the classes. Our universities can set these targets. Every university can set targets for the gold medals for its students. Why should these not be the targets of our universities? How to prepare the students in the universities in the field of sports so that they can play in other countries? They will get the necessary exposure. Friends, I am sharing these stray thoughts with you because there

are immense opportunities in the new National Education Policy. What we didn't have in previous years has now been presented due to the National Education Policy. It is our job to take it forward.

We all have to remember that the leadership of the National Education Policy is in your hands to build the future of the country. I am sure that the elixir of your brainstorming and your suggestions in the Akhil Bharatiya Shiksha Samagam will give a new direction to the country. You have to prepare the youth with whom you spend your time, not for the present, but for tomorrow. If you want to prepare them for tomorrow, you have to prepare for the year ahead. If you are ready for the coming year, then you have to prepare the institute for the next 100 years. Only then you can achieve this task. With this spirit you are on this holy land of Kashi and on the banks of the Mother Ganga.

The cultural tradition gives us new consciousness and inspiration. Some nectar points from that tradition will come in your destinies too which will help the young boys and girls of your universities in shaping the bright future of India in the 'Amrit Kaal'. I once again thank the department for this program. You all have participated in it with enthusiasm and zeal. I am sure you will not get tired in the next three days. I was watching the program while seated. I have no idea what will happen to you after three days. But since you belong to the academic world, you will definitely take it forward. I wish you all the best.

*Thanks a lot!*

# TALENT DEMAND AND SUPPLY IN INDIA

• Ajay Singh “Ekal”

**E**mployment of youth is a big challenge for India. There are several reasons for it but two are notable. Due to high population of youth demand-supply is the one issue, while lack of skills required for the job is another issue. Time to time Government and other organization like CII, FICCI, UNDP, NASSCOM, Planning Commission etc. do conduct survey and try to know the status and do the gap analysis. “India Skill report 2021” is one such survey which has been published recently. The insights of survey offer students, corporations, academia and policymakers, a consolidated view of the impact of various forces like demographics, globalization, political environment and new emerging technologies on the workforce of tomorrow. The survey was done in post covid era in coordination with AICTE as academic Partner, Association of Indian University as research partner, UNDP Impact partner, CII was India Partner and well-known HR Company People strong has been the knowledge partner to the survey. The survey was conducted by Wheebox Talent Assessment Platform. The participants

of the survey were 65000 Youth and 150 Corporates across 15 industries who participated in the India Hiring Intent survey. The theme of the survey was “Talent Demand and supply in India in post covid Era”. Some interesting conclusion which came out the survey are as under:

The trend of youth employability: Out of the data collected during the Employability test for aspiring professionals, it was revealed that

45.9% of the youth were considered highly employable resources. The other interesting fact is that among the employable talent, 41.25% women were found employable than men who were 38.91%. A noteworthy statistic shows 36% of the total workforce were women, compared to the 64% consisting of men employed in all industries. The reason behind is that Pharma & Healthcare and software and IT industries hire more women as

compared to other industries. Highest number of male employees were from the automotive domain with 79%, followed by the logistics sector with 75% and then the Core & Energy sector with 72% .

Overall Employability of India's youth has decreased to 45.9% from 46%. Highest employable talent available in the age group of 18-21 years old, at 40%. The employable resources between the age of 22-25 is at second with 38.46% employable talent. The least employable talent was found in the age group of 26-29 with 37% being highly employable. The pattern of employment over the last year shows that availability of resources in the age group of 26-29 is due to the lack of opportunities in the formal sector during 2020. These age wise statistics are an indication of the skilled workforce adapting to the latest industry demands. This urges the need for reformative measures at the roots of education to equip younger students with skills necessary for in-demand career opportunities in various industries. B.Tech and MBA holders have taken over the position as the

highest employable populace with an employability score of 47%. In the previous year, that position was held by MBA holders by a mentionable marginal difference at 54%. MBA, B.Com, BA and B.Pharma candidates were considered among the next set of highly employable resources, indicating that the coming years will witness increased hiring across all business sectors of industries and healthcare industries. The skill gap in the IT sector requires practical exposure to the latest technologies that gained popularity in the last 5 years. In the coming years, industries and the governments should focus on making the existing talent pool more employable and aligned to the evolving industry demands.

Furthermore, Maharashtra, Tamil Nadu, Uttar Pradesh and Karnataka are the regions with a large majority of employable talent. While Hyderabad, Bangalore and Pune were the cities with most employable talent. Mumbai is the city with the most employable resources with 70% of the test takers scoring above 60%. Hyderabad is the second city with 67% scoring above 60% on the employability test.

Ghaziabad is the city with the most employable youth between the ages of 22-25 with over 64%, followed by Pune with 58% of employable talent. Candidates with 1-5 years of experience continue to remain in maximum demand and a growth of 13% demand for qualified resources is noted in non-tier 1 & 2 cities across the nation. States of Maharashtra and Karnataka hired the most number of employees last year as well, while companies in Telangana and Andhra Pradesh have also increased their hiring compared to other states.

Cloud computing, data science and natural language processing are in high demand, owing to large skill gaps in these areas. The evolving IT industry will have to find qualified professionals to fill the roles of data scientists, analysts, AI experts and more in the next 5 years. Although only 45.9% overall are employable resources, the WNET data shows that 48.27% of the test takers from the IT domain are employable, followed by second in the highest percentage of employable talent domain wise being 39.9% of Electrical engineering graduates. With

38.34% of Computer science graduates are employable in India, they are at third in terms of employability rankings in 2021. Meanwhile, Popularity of online courses and skill enhancement courses are an added qualification for many aspiring professionals. The available talent is

**Employability Skills:  
Leadership**

www.nationalskillsnetwork.in

a strong determinant of the growth of IT and business in the coming years. The overall trend is a positive indication of the available talent resources in various industries. This is because more technical students are employable, matching up to the demands of many industries. However, having a job-ready talent pool of 45.9% requires the opportunities to furnish this country's economy. The unemployment rate in India was estimated at 6.5% in January 2021, with 8.1% of urban India unemployed and 5.7% of rural India unemployed. This can be attributed to the less job opportunities available in the formal sector of many states in India. While a majority of India's workforce resides in the informal sector, the trained resources available are not offered the same opportunities in their localities as opposed to the rapid urbanization demands in cities. Educated students with a high employability score are not employed in the formal or informal sector due to the lack of awareness and opportunity in their areas.

The Survey also assessed the geographical aptitude of India's employability landscape. Rajasthan and Madhya Pradesh were among the top states to have available skills in English as a second language. Rajasthan topped the list for states with available skills in critical thinking and computer skills. Yet, students from these states did not have a higher employability rate as opposed to states like Maharashtra, Tamil Nadu, Uttar Pradesh, Karnataka and Andhra Pradesh sealing top 5 spots for youth employability. This can be attributed to the rising efforts in skill development by the government and academic institutions. The employability rate is also a direct result of the available opportunities in each area. However, there is still a lot of work required to equip the talent pool of India's youth with skills of the 21st century. A holistic approach to the employability landscape states that a mix of technological familiarity and in-depth subject knowledge are two factors that influence the employability of an individual. While access to

technology has made India one of the largest smartphone markets in the world, the requisites for technical education is much higher than ever before. Therefore, more youth are required to be trained and be job-ready, else the industry demand will not be met, but the competition is severe in India's saturated talent pool. Software and hardware knowledge is becoming a growing demand in industries ranging from travel & tourism to energy & manufacturing. The decline in employability among students is witnessed for the second year in a row, after a jump in employability witnessed between 2016-2018. Notably, the highest employable percentage was found in the age group between 18-21 at 40%, indicating the structural changes at the core of the employability landscape of India. Although, Kerala has the highest employability for ages 26-29 who are lacking in job opportunities for aspiring professionals. The lack of corporate infrastructure and job opportunities in the state of Kerala and Rajasthan is evident, owing to the poor representation within the states to offer employment for its urban and suburban residents. Meanwhile, Hyderabad, Bangalore, Pune and Delhi continue to serve as the preferred destinations for employment, considering the opportunities available in these cities.

# RANKING IN INDIA

## NAAC, Graded Autonomy

University Grants Commission (Categorization of Universities (only) for Grant of Graded Autonomy) Regulations, 2018: Categorization of Universities

The regulation suggests three categories of universities where category I university will be recognised if it has been accredited by NAAC with a score of 3.51 or above; or it has received a corresponding accreditation grade/score from a reputed accreditation agency empanelled by the UGC; or it has been ranked among top 500 of reputed world rankings, such as Times Higher Education or QS.

A university will be called category II university, if it has been accredited by NAAC with a score of 3.26 and above, upto 3.50; or it has received a

corresponding accreditation grade/score from a reputed accreditation agency empanelled by the UGC.

A University shall be in Category III if it does not come either under Category-I or Category-II.

## National Assessment and Accreditation Council (NAAC)

The National Assessment and Accreditation Council (NAAC) is an autonomous body established by the University Grants Commission (UGC) of India to assess and accredit institutions of higher education in the country. It is an outcome of the recommendations of the National Policy in Education (1986) which laid special emphasis on upholding the quality of higher education in India. To address the issues of quality, the National Policy on Education (1986) and the Plan of Action (POA-1992) advocated the establishment of an independent national accreditation body. Consequently, the NAAC was established in 1994 with its

headquarters at Bangalore.

## National Institutional Ranking Framework (NIRF)

The National Institutional Ranking Framework (NIRF) was approved by the MHRD and launched by Minister of Human Resource Development on 29th September 2015.

This framework outlines a methodology to rank institutions across the country. The methodology draws from the overall recommendations broad understanding arrived at by a Core Committee set up by MHRD, to identify the broad parameters for ranking various universities and institutions. The parameters broadly cover "Teaching, Learning and Resources", "Research and Professional Practices", "Graduation Outcomes", "Outreach and Inclusivity" and "Perception".

For India Rankings-2017, the main ranking parameters remain the same. However, there are a few significant changes in a few sub-parameters. Also, this year every large institution will be given a common overall rank as well as a discipline specific rank as applicable. ■

## The Ranking Patterns in India

# IN PURSUIT OF THE BEST INSTITUTIONS

already more than four dozen ranking agencies in our own country, the students and parents are still in search of a credible brand, which can present a clear picture of the educational institutions before them. The ranking/grading initiative of 'Dialogue India' achieved a highly respectable place in Northern states. From last three years this initiative has been extended to national level. An in-depth analysis of the existing national and international ranking system and how parameters adopted by 'Dialogue India' in ranking/grading are different from other agencies:

- Anuj Agrawal

This is a fact that Indian higher education institutions hardly find a place in the international ranking. Blaming that the parameters of international ranking agencies are not in accordance with the Indian institutions, the Government of India created National Institutional Ranking Framework to rank Indian institutions. Although, there are

**A**s the process of expansion and privatisation of higher education got momentum in the 1990s, India

witnessed a flood of higher education institutions across the country. Even after huge expansion, the number of higher education institutions, both in government and private sector, is still

low compare to the developed countries including the US, Europe and China. When we see our burgeoning population and the number of aspirants for higher education, we find

## Parameters (For Non-Medical Institution)

### A Infrastructure, Promoter, Head of Academics (20 Marks)

1. Overall Infrastructure, ultra-modern and advance facilities
2. Economic capacity of promoters, experience and vision, merit and ability
3. Vice Chancellor/Director/Dean and their experience and vision
4. Availability of land, future plans and expansion strategy
5. Standard of labs, classes, library, IT level and network, research environment
6. Establishment year, annual budget, variety of courses and their standard
7. General reputation of the organisation, awards and honours received
8. Approach towards environment, social cohesiveness and inclusiveness, gender equality, support to deprived and physically challenged

### B Faculty and Staff (30 Marks)

1. Standard background and qualification of the faculties
2. Facilities, allowances, Services and salary of the staff and faculty, availability of residential accommodation
3. Association/loyalty of the staff and facilities with the organisation
4. Visiting faculties, guest lecturers
5. Participation of faculties in seminars, research papers, projects and innovative work, patent registration
6. Faculty-student-staff ratio as per standard
7. Teaching methodology of the faculty, test, assignment and exposé
8. Competent and specialised staff and Faculties
9. Competitive/research/entrepreneur /innovation and job oriented environment created by the faculties
10. Behaviour of faculties and staff with the students
11. Quality control method of teaching,

- rational assessment method
12. Approach for staff skill development, academia-industry connect
  13. Add on courses, camps for excellence and personality development.

### C Students and Services (20 Marks)

1. Admission procedure and parameter for admission
2. Fee and its justification
3. Reputation among students/parents /faculty/staff and masses
4. Interpersonal relation of students
5. Internal activities, exposure
6. Result and its neutrality, rationality and standard of examination
7. Focus on soft skill, skill development, innovation, research and entrepreneurship
8. Job placement in government /private/PSUs, placement cell and its services, types of package, selection in various competitions
9. Variety and standard of services
10. Academia-industry connect courses, add on courses
11. Updated syllabus and interdisciplinary approach of teaching
12. Foreign tie-ups and exchange of students, diversity of students
13. Updated library facility and easy availability of books, CD, journals, magazines
14. In campus sports, cultural and extra-curricular facilities and their infrastructure, participation in inter university, state, national and international events and achievements
15. Industry visits and tie ups, study trips, externally funded projects
16. Facility of Psychologist, personality trainer, health/medical/transport and career counseling , mess and hotel
17. Resource and Centre of Excellence
18. Facility and standard of internship, project work and its authenticity

### D Placement, Affiliation, Tie-ups and worth of achievement

### claims (30 Marks)

1. Placement: (In last three year)
  - Reality and Myth of campus placement
  - Average percentage of top 10% students
  - Average package of rest 90% students
  - Selection in MNCs
  - Selection in Domestic corporate
  - Selection in Government/PSU jobs
  - Selection in Competitive exams
  - Selection in GATE/NET/PG courses/Ph.D. courses
  - No of PG and Ph.D. awarded yearly
  - Actual performance of students in job in last 3 years
2. Working of the organisation as per the norms and standards of UGC/AICTE/MCI/OCI or any other affiliating/regulatory body
3. NBA/NAAC Accreditation and Ranking
4. Any International/national renowned ranking, outlook
5. Earning from projects and tie ups
6. Alumni base and their association with the institution.

### E. Violation of laws/norms/standard (- 20 Marks)

1. Unauthorised courses/fake claims/excess admission/high fees
2. Charging of undue fine, capitation fee/series of complaints/fake appointment letter/placement/ghost facilities/staff and insufficient infrastructure
3. Unusual admission in various courses,
4. Use of black money, unusual UG/PG or Ph.D. degree awarded, any inquiry, negative report by govt. bodies
5. Availability of alcohol, tobacco products, drugs, vulgar content within the campus
6. Any suspicious activity, unethical means to increase attendance and marks, doubtful admission with the help of management committee quota/consultants.

all these institutions short of capacity. Another big question is that even after having around 44,000 institutions hardly any of them find a place in the ranking/grading conducted on international parameters. Why is it so? Are these parameters not in accordance with the Indian standards and needs? Will the new national institutional ranking system started by the Government of India do justice to the Indian institutions? These are some of the questions which nag many minds today. Today the quality of higher education institutions is ranked by three global agencies at world level.

1. QS Global Ranking (From British Quacquarelli Symonds)
2. Time Higher Education and Thomson Reuter, USA
3. Academic Ranking of World University (From Shanghai Jiao Tong University, Government of China)

The rankings by these global agencies based in United Kingdom, USA and China are regarded highly credible. The agencies mostly rank the institutions on the following parameters:

1. International outlook
2. Research Volume, Income, Reputation
3. Citations, Research influence
4. Industry income: Innovation
5. Teaching: The learning environment

The three leading economies of Europe (England), US and Asia (China) have 19, 29 and 31 per cent share in the world's intellectual property respectively. The educational institutions in these

countries are associated with leading industries. Hence, they have sufficient funds or project sponsors for research. Apart from it, these countries allow admission at global level and talented students from world over try to seek admission in there. Besides the institutions of these three giants, the institutions from Brazil, Russia, South Africa, Australia and Japan also get high rank in these international rankings. But the condition of India is very poor.

### Where does India stand in the global ranking?

Hardly 8-10 Universities or institutions of India find place in the lists of these three global rankings. One of the prime reasons of this poor situation is the policies of the Government of India enacted, implemented and followed during the last 70 years. Our higher education is trapped in such a vicious circle that the talented students of majority institutions prefer the multinational companies and they conduct research for them in their respective countries once their education is over. The Indian institutions which teach them get no credit. Another major reason is that the government prefers to import the technology from developed countries. Basically, the students and faculty members of our institutions waste their time in studying that borrowed technology and hardly anyone tries to focus on new and exclusive research. On the poor ranking by world agencies, the Government of India normally argues that these global rankings are incomplete and do not match with

the Indian parameters. Hence, despite being good the Indian institutes are seen nowhere at the global level. The Union HRD Ministry started 'National Institutional Ranking Framework' to rank the Indian institutions. According to Prof. Surendra Prasad, Head of the National Board of Accreditation, the ranking is conducted on the following parameters:

1. Resources for Teaching and Learning (30%)
2. Research and Collaborative Efforts (30%)
3. Graduation Outcome (15%)
4. Outreach and Inclusivity (15%)
5. Peer and Stakeholder Perception (10%)

These five aspects are measured on the basis of 20 parameters, which, apart from global parameters, additionally include Outreach and Inclusivity too. The Engineering, Management institutes and Universities are separately ranked through the proposed India-centric new ranking system. The parameters for ranking included inclusiveness, outreach, regional and international diversity, education to disadvantaged sections, gender equality and support to physically challenged.

### The Ranking is done in two categories

**Category A:** Autonomous Institutes (focus or record of national performance)

**Category B :** Affiliated Universities & Colleges and Autonomous Institutions (focus on academics)

The prime objective behind the proposed new ranking system is to give global exposure to the institutions,

which promote research and innovation and also to strengthen their tie-ups with the big industries or the companies so that brain drain is effectively curbed. Another objective is to develop healthy competition among these institutions and also to reduce country's import. In fact, even 10 per cent of the total institutes are not small number for research. What is direly needed today are the institutions focusing on innovations according to the needs of the industry and the market. This is also a fact that many of our govt. autonomous & private institutions can do a wonder in this regard.

Today, there are around 60 organisations, research institutions or publications in the country which rank/grade/rate various types of Indian institutions. Almost all the

leading newspapers, news channels, political newspapers/magazines, magazines related to education, management, research or competition today do it annually. Out of them, hardly 8-10 are credible and are taken seriously by the students or their parents. See the box for a list of various agencies/institutions involved in ranking.

Normally, the ranking done out by a university confines to mostly its affiliated institutions. The ranking by private business institutions also remains in the news. But needless to mention that the ranking methods of majority of these agencies are not all-inclusive and impartial. They send survey forms to different institutions and whosoever (10 to 20 per cent) of them send them back are ranked. Secondly most of these surveys are

conducted for a particular region or subject discipline. They fail to paint clear picture of the institutions. Following various malpractices some institutions even managed rankings which ultimately snatch the right of the students to have unbiased, impartial and holistic ranking of the institution. These rankings and surveys are conducted on the feedback of very limited people and hardly remain fair because of hidden allurements. Hence, neither there is correct evaluation of the institutions nor a healthy competition is developed among the institutions. As a result, the institutions do not get the results and direction which are expected with the passage of time. This is the reason the Indian private educational institutions are lagging behind in international competitions.

## 'Dialogue India' National Ranking-2022

(For Private Higher Education Institution in India)

The ranking survey conducted by 'Dialogue India' since ten years has earned a credibility, especially in northern states. From 2016, its coverage has been extended to the national level. The annual survey was conducted on international parameters at national, zonal, state and division level and in all the 12 main disciplines. The characteristics of this survey are:

1. Measuring the institutions/universities at the 51 parameters (See Box)
2. Survey in following 12 disciplines:
  - I. Art
  - II. Science
  - III. Commerce
  - IV. Engineering
  - V. Medical
  - VI. Law
  - VII. BBA/MBA
  - VIII. BCA/MCA
  - IX. Mass Com & Journalism
  - X. Fashion
  - XI. Fine Arts
  - XII. Hotel Management
3. Ranking of Best and emerging institutions at Division, State, Zonal (North, South, East, West & Central) and National Level
4. Special online survey among 5-6 lakh present and old students with the help of special software. Impartial analyses by the professional research team.
5. Survey forms were sent to all the private institutions of the country. Final ranking was done after studying the opinion of the faculty, HR Professionals, regulatory bodies, websites of the institutions, surveys by other agencies and also the media reports.
6. The Surveys were conducted between January 1, 2019 and March 30, 2019.
7. 'Dialogue India' is going to felicitate the best institutions at the special functions being held in Dubai, UAE. A conclave is also being held on the occasion. We are hopeful that this survey, conclave and Award Function

## THE METHODOLOGY

It is our tenth year of conducting surveys on higher education institutions. We can say that during this period we have acquainted ourselves with the reality of almost all the government and private institutions. We, through our bureau offices, have contacts in almost all the departments, and while conducting the surveys in these years, our research and data collection teams too got mature. That is why we have increased the scope of our research to private higher education institutions at national level. It includes all private, deemed universities, engineering, management, medical, and dental colleges. The development in the field of higher education is astonishing. All prominent medical engineering colleges are fast converting into the private universities and many hidden talents are getting the opportunity to flourish. This year we have made our research multi-dimensional. Our teams searched the websites of all institutions. We also evaluated the claims made by them. We focused on the news carried out by different print, electronic media groups regarding these institutions. Proper attention was paid on different publications and news portals, which are working on higher education in those states. Our teams also interacted with students. This year we sent the printed

Performa to six lakh students too. We tried to know their heart and mind through informal discussion, without letting them know anything about us. The same formula was adopted with the college staff and faculty members. The objective was to grab the reality and know the truth. We had good relations with many of the institutions. Therefore, we discussed with them the condition of other institutions and also vice a versa. We studied different study reports of Government of India, UGC and Human Resource Development Ministry related to higher education. Adequate attention was paid to the future planning made by these bodies. We met the HR managers of different companies and also discussed with the owners of different placement agencies. A discussion was made with those who run placement cells of different institutions. During the survey we also tried to meet the consultancy agencies, which sought admissions for commission. We also understood the views of different bureaucrats and policymakers. Our teams also visited the government offices dealing with granting affiliation, evaluation, inspection or recognition and tried to know the practicality of relation between college owners and the employees of those government offices. At the same time, we monitored the rising percentage

### Parameters for Ranking/ Grading of Private Medical / Dental Colleges

1. Experience, Merit & Ability of Directors
2. Inter-Personal Relation among the students
3. Teaching Faculties
4. Clinical Exposure
5. Infrastructure, Hostel & Library Facilities
6. Performance in Pre-PG Entrance Examinations
7. Views of Students
8. Fee Structure & Services
9. IT, Internet & Other communications
10. Research work environment, publication & Seminar.
11. Student Satisfaction & Feedback
12. Competent and sufficient staff/faculty, position of research paper published
13. Working of the organisation as per norms of MCI/DCI.

### Parameters for Ranking / Grading of Medical Colleges Hospitals

1. Overall patients' Feedback & Satisfaction
2. Infrastructure
3. Total Number of Beds
4. Pharmacy
5. Specialists & Their Experience, Individual / Team of Professionals
6. Facilities- Parking, Canteen, Ramps, Drinking Water, Lifts, TV, Generator etc.
7. Clinical Services- Emergency, OPD, IPD, ICU & Operation Theatres
8. INSURANCE/TPA Authorization
9. Equipments
10. Charges/ Rates
11. Diagnostic & Lab Facilities
12. Certification / Accreditation - JCI, NABH, ISO

and decreasing quality of 12th standard results in different Education Boards. An eye was kept on the unexpectedly long admission process, lack of transparency, irregularities and a burning desire to grant admission for money. We also saw how different vital requirements are fulfilled with the help of other colleges to complete the formalities of inspection and also how the staff and faculty members were shown as employees by collecting their biodatas through advertisements. The overall outcome of the survey is that about two third of the institutions do not deserve recognition. Not only this, it also came to our notice that around 80 per cent of the students are mentally and physically unfit for the courses they have opted for. Courses are not updated regularly and there is overall lack of qualified faculties. Barring some institutions, a lack of depth towards research, innovation and intellectual property was evident everywhere. Unprecedented admissions in many private universities can astonish anyone. In some institutions, students visible in campus were much less than total enrolled students. Majority of the students complained for higher fees, lack of facilities promised at the time of admission, good placement, career counselling, lack of better hostel facilities, shortage of books and good faculty, etc. The attraction towards management and MCA courses has drastically reduced due to shortage of jobs in this sector. At the same time, 40-60 per cent

seats lying vacant in different colleges indicate the nexus between the owners of the intuitions and also the agencies, which grant affiliation or recognition. However, we shouldn't underestimate the financial condition of these institutions. Some big institutions are expanding regularly, as they have become the medium of converting black money into white. Majority of the courses have no match with the jobs. The institutions normally adopt the following tricks to attract the students for admission: (1) Rebate in fees, (2) offer of laptop or tablet, (3) fake claims of placement, (4) fictitious awards conferred to the institution. The situation in the good institutions was totally reverse—no rebate in fees. Rather the admission was granted after getting 2 to 10 lakhd under the table. No claim of free laptop is made. They talk about better infrastructure, facilities, laboratory, library, faculty, practical, exposor and placement. They discuss only that record before the new students, which is good and impressive. They show the international awards or grading/rating with dignity. They adopt tough criteria for admission. And no compromise is made with the rules. They always try to ensure disciplined hard work, good result and better placement. Such institutions definitely impressed us and got good grading and rating from us. They really deserve awards and felicitations.

will be established as the most credible survey in the country. Many government and private institutions, corporate hoses and also the media institutes are joining hands with the Dialogue India in this endeavour.

### **The Survey and Ranking have the following objectives:**

1. Building 'Dialogue India' as a trusted brand for credible and holistic ranking of the country's private higher education institutions
2. Evaluating the developing higher education institutions on the basis of international parameters and screen them in a way that a clear framework for their improvement can be designed so that they first develop themselves to the level of government and autonomous institutions, and then finally achieve international standards. In this process, enabling the institutions to get good packages for their students by connecting them with good companies, earn money by strengthening the academia-industry connect, impart quality education to the students at low fees, attract the foreign students to seek admission so that they would be able to effectively curb the brain drain.
3. Curbing fake ranking agencies so that the students and their parents get a clear and real picture of the institutions they want to seek admission
4. Bringing revolutionary change in the country's entire education sector so that both the GDP and employment level see satisfactory growth. It will strengthen both the market economy and also the welfare democracy in real sense. ■

# UPCOMING ENTRANCE EXAMS IN 2022 ENGINEERING, MBA, LAW, MEDICAL

In India, there are so many examinations organized for admission into the engineering, management, law, medical & other trending courses. All these courses have vast career scope all over the country.

Students can appear for these examinations after completing 12th class or graduation degree.

In this article, we are providing complete details about Upcoming Entrance Exams 2022 including national, state & universities level examinations.

## ENGINEERING ENTRANCE EXAMS

### JEE Main 2022

JEE Main examinations are conducted by the NTA (National Testing Agency). Through this examination, students are eligible to get admission to the B.Tech & B.Arch courses. This exam is organized twice every year at the national level. On the basis of JEE Main score, students can get into the various NITs, CFTIs, IITs and other institutions of India.

### JEE Advanced 2022

JEE Advanced exam is conducted to offer admission into bachelor's, Integrated master's & dual degree courses in all the IITs. These courses are

offered in the area of engineering, sciences & architecture. It is regulated by the IITs on a rotation basis. Candidates can apply for this exam on a national level. Every year, the examination is organized in the month of May via online mode.

### GATE 2022

GATE (Graduate Aptitude Test in Engineering) is a national level examination. This exam is organized for admission to the masters & doctoral degree courses in engineering, technology, architecture & science. It is conducted jointly by the Indian Institute of Science (IISc) & the seven Indian Institutes of Technology (IITs).

### IIT JAM 2022

IIT JAM examination is organized by the Indian

Institutes of Technology (IITs) on a rotation basis. It is a national level entrance test. Through this exam, candidates may get admission to the 2 years M.Sc, Joint M.Sc – Ph.D, M.Sc – Ph.D. dual degree & other post-bachelor degree courses.

### **UPSEE 2022**

UPSEE examination is conducted for admission to the 1st year of pharmacy, architecture, management, etc courses. Through this exam, candidates will also get admission to the 2nd year of engineering, pharmacy & computer application. It is managed by the Dr. APJ Abdul Kalam Technical University (AKTU), Uttar Pradesh.

### **BCECE 2022**

BCECE (Bihar Combined Entrance Competitive Examination) is regulated by the BCECEB board. BCECE examination is not conducted for engineering & medical courses. Admissions will be done through JEE Mains & NEET UG examinations. However, BCECE entrance exam is conducted for agriculture and pharmacy admission.

### **Assam CEE 2022**

Assam CEE is a state level examination. It is conducted by the Assam Science & Technology University (ASTU). Students may get admission to the various engineering courses in Assam state on the basis of exam scores.. Assam CEE (Assam Common Entrance Exam) is organized once in a year.

### **KEAM 2022**

KEAM exam is conducted for those candidates, who seek admission to the engineering courses in Kerala state. It is managed by the Commissioner of Entrance Examination (CEE), Kerala. This exam is a state level entrance test. The authority will also release application for medical & architecture courses.

### **WBJEE 2022**

WBJEE (West Bengal Joint Entrance Examination) is organized by the West Bengal Joint Entrance Examination Board (WBJEEB). This exam is a state level entrance test. It is conducted for admission to the various UG courses in the area of engineering, pharmacy, technology & architecture.

### **COMEDK UGET 2022**

COMEDK UGET examination is conducted by the COMEDK (Consortium of Medical, Engineering and Dental of Karnataka). It is organized for candidates seeking admission to the engineering courses in Karnataka state. This exam is a state level examination. The authority also invites application for architecture courses on the basis of NATA score.

### **TS EAMCET 2022**

TS EAMCET examination is organized for admission to the engineering, pharmacy & agriculture courses in Telangana state. It is a state level admission test. This test is managed by the Jawaharlal Nehru Technological University (JNTU), Hyderabad.

### **CUCET 2022**

CUCET (Central Universities Common Entrance Test) is a national

level examination. This exam will be organized by the 11 central universities of India on a rotation basis. Through this exam, students may get admission to the various UG, PG & Ph.D courses.

### **AP EAPCET 2022**

AP EAPCET (Andhra Pradesh Engineering, Agriculture & Pharmacy Common Entrance Test) is regulated by the JNTU, Kakinada on the behalf of APSCHE. This exam is conducted to offer admission into various engineering, agriculture and pharmacy courses. It is a state level entrance test of AP state.

### **OJEE 2022**

OJEE is a state level entrance test organized by the Odisha state government. Odisha Joint Entrance Examination (OJEE) is conducted for admission to the undergraduate/postgraduate level professional courses. These courses will be offered in the field of engineering, technology, pharmacy, management, etc. The admission into 1st year of UG engineering courses will be done through JEE Main score.

### **LPU NEST 2022**

LPU NEST (Lovely Professional University National Entrance and Scholarship Test) is a university level admission test. It is held for providing admission to the various engineering programmes offered by the university. This test is administrated by the Lovely Professional University (LPU), Punjab.

### **KCET 2022**

KCET (Karnataka Common Entrance Test) is also known as Karnataka CET

(KCET/Kar CET). It is a state level entrance test. This test is organized by the Karnataka Examinations Authority (KEA). Through this exam, students would get admission to the various engineering, pharmacy & architecture courses.

### **JKCET 2022**

JKCET is regulated by the Jammu & Kashmir Board of Professional Entrance Examinations (JKBOPEE). This exam is state level entrance test of Jammu & Kashmir state. It will be organized for providing admission to the engineering (B.Tech/BE only) courses.

### **CG PET 2022**

CG PET examination is organized to offer admission into engineering and its branches (Dairy Technology and Agriculture Engineering) courses. It is a state level examination of Chhattisgarh state. This exam is managed by the Chhattisgarh Professional Examination Board (CPEB).

### **CUSAT 2022**

CUSAT exam is regulated by the Cochin University of Science and Technology (CUSAT), Kerala. It is conducted for providing admission to the various UG & PG courses in the field of engineering, law, science, computer application, etc. This exam is a university level admission test.

### **GUJCET 2022**

GUJCET examination is conducted to offer admission into various engineering & diploma/degree

pharmacy programmes in Gujarat state. This exam is managed by the Gujarat Secondary and Higher Secondary Education Board (GSEB). It is a state level entrance test.

### **GCET 2022**

GCET (Goa Common Entrance Test) is administrated by the Directorate of Technical Education, Goa. It is a state level examination of Goa state. This exam is managed for providing admission to the engineering & pharmacy courses. The authority also invites application for medical & architecture courses on the basis of NEET & NATA score respectively.

### **UKSEE 2022**

UKSEE exam is a state level entrance examination of Uttar Pradesh state. It is organized to offer admission into various bachelor's & master's degree programmes. These courses are offered in the field of engineering, pharmacy, computer application, etc. This exam is conducted by the Uttarakhand Technical University (UTU).

### **IISC 2022**

IISC Admission Procedure is regulated by the Indian Institute of Science (IISc), Bengaluru. The university offers under graduate, post-graduate, Ph.D & research courses in the field of engineering, technology, science, etc. No examination is organized by the university. The admission into these courses is given on the basis of national level examinations, such as JEE Main, JEE Advanced, GATE, NEET, etc.

### **IIST 2022**

IIST (Indian Institute of Space Science

and Technology) is a deemed university which runs various UG, PG, doctoral and post-doctoral level programmes. The university regulates a national level admission procedure for providing admission to these courses. The admissions to these courses are done through JEE Advanced, GATE, JEST, UGC NET, etc.

### **IISER 2022**

IISER Admission is done on the basis of KVPY, JEE Advanced & IISER Aptitude Test. It is organized by the Indian Institutes of Science Education and Research (IISER). The Institution only conducts examination for SCB (State and Central Boards) channel candidate. This process is a national level admission procedure.

### **TANCET 2022**

TANCET (Tamil Nadu Common Entrance Test) is held to offer admission into PG courses, i.e. ME/M.Tech/M.Arch/M.Plan, MCA & MBA. This exam is managed by the Anna University, Chennai. It is a state level examination of Tamil Nadu state.

### **TNEA 2022**

TNEA (Tamil Nadu Engineering Admissions) is an admission procedure to provide admission into UG engineering courses in Tamil Nadu. This process is regulated by the Anna University, Chennai. The admission to these courses is done through 10+2 examination percentage.

### **AP ECET 2022**

AP ECET (Andhra Pradesh Engineering Common Entrance Test) is managed by the Jawaharlal Nehru Technological University (JNTU), Anantapur. This exam is a state level examination. Candidates may get admission to the various engineering & pharmacy courses on the basis of this exam score. The admission is only open for diploma holders & B.Sc graduates.

### **TS ECET 2022**

TS ECET examination is administered by Jawaharlal Nehru Technological University (JNTU), Hyderabad. It is a state level entrance test. Through this test, candidates may get admission to the 2nd year of engineering & pharmacy courses. Only Diploma holders & B.Sc graduate candidates can apply for this exam.

### **AEEE 2022**

AEEE exam is a university level entrance test. This test is managed by Amrita Vishwa Vidyapeetham (Amrita University). Amrita Engineering Entrance Examination (AEEE) is held to offer admission to the 4 years duration engineering course, i.e. B.Tech. This course is offered by the university & its three campuses located in Amritapuri, Bengaluru, Ettimadai, and Vengal.

## **MEDICAL ENTRANCE EXAMS**

### **NEET 2022**

NEET (National Eligibility Cum Entrance Test) is a national level medical examination. This entrance test is managed by NTA (National Testing

Agency). On the basis of this exam, candidates get admission into MBBS & BDS courses all over the country. No state or university level medical examinations will be regulated by the state authorities.

### **AIIMS 2022**

From the year 2020, AIIMS examination has been scrapped by NEET UG examination. Admission to the MBBS programme in AIIMS Institutions will be done on the basis of NEET UG scores. Through this exam, the admission is offered in the following AIIMS Institutions, i.e. Bhopal, Guntur, Rishikesh, New Delhi, Nagpur, Patna, Jodhpur, Raipur & Bhubaneshwar.

### **JIPMER 2022**

From 2020 year onwards, JIPMER exam has been replaced by the NEET UG exam. Admission into MBBS courses in the JIPMER university & its affiliated campuses will be given through NEET UG scores. It is necessary to appear in the NEET UG exam to get admission in JIPMER institutions.

## **MBA ENTRANCE EXAMS**

### **CAT 2021-22**

CAT (Common Admission Test) is conducted for admission to the PG management course all over the country. It is regulated by the Indian Institutes of Management (IIMs). This test is a national level admission test. It is compulsory to qualify this exam for admission to the IIMs & other reputed management institutions.

### **MAT 2022**

MAT examination is managed by All India Management Association (AIMA). Through this aptitude test, students can get admission to the MBA/PGDM courses all over India. It is a national level management aptitude test. This exam is organized four times in a year.

### **XAT 2022**

XAT (Xavier Aptitude Test) is a national level entrance test. This test is conducted by the Xavier Labour Relations Institute (XLRI). It is held for providing admission to the various management programmes. XAT score card is accepted by the more than 150 B-Schools of the country.

### **CMAT 2022**

CMAT examination is organized to offer admission into various management courses, i.e. MBA, PGDM, PGCM, Executive PGDM, etc. Common Management Admission Test (CMAT) is organised by National Testing Agency (NTA).

### **GMAT 2022**

GMAT exam is regulated by the Graduate Management Admission Council (GMAC) throughout the year. It is an international level examination. Through this exam, the admission is offered into MBA programmes in foreign countries' institutions. In India, various institutions also accept GMAT scores.

### **NMAT 2022**

NMAT (NMIMS Management Aptitude Test) is a university level examination. It is organized by the

Graduate Management Admission Council (GMAC). This exam is held to offer admission into various management courses. On the basis of this exam score, candidates can get admission to the B-schools & other management colleges in India.

### **ATMA 2022**

ATMA examination is conducted for the selection of candidates to MBA, PGDM, PGDBA, MCA & other PG management courses. It is a national level single window admission test. ATMA (AIMS Test for Management Admissions) is administered by the Association of Indian Management Schools (AIMS).

### **IBSAT 2022**

IBSAT (ICFAI Business School Aptitude Test) is managed by ICFAI Foundation for Higher Education, Hyderabad. This test is organized for providing admission to the PG management courses, i.e. MBA/PGPM. It is a university level examination which offered admission to the various ICFAI business schools.

### **SNAP 2021-22**

Symbiosis National Aptitude Online Test (SNAP) is a university level exam regulated by Symbiosis International University. Candidates interested to join programmes like MBA, M.Sc (CA) & M.Sc (SS) etc. offered by various Symbiosis Institutions. After qualifying the test, shortlisted candidates will need to attend the GE-PIWAT process.

### **IIFT 2022**

IIFT exam is a university level

admission test. Through this test, candidates can get admission into MBA programme in International Business (IB) at the university. It is regulated by the Indian Institute of Foreign Trade (IIFT). Every year, the examination is organized in the month of December.

### **KMAT Kerala 2022**

KMAT Kerala examination is held to offer admission into MBA programmes in Kerala state. Kerala Management Admission Test (KMAT) is organized by the Mahatma Gandhi University (MGU), Kerala. It is a state level admission test through which candidates can get admission in various governments /private colleges of Kerala.

### **KMAT Karnataka 2022**

KMAT (Karnataka Management Aptitude Test) is conducted by the Karnataka Private Post Graduate Colleges Association (KPPGCA). This exam is organized for providing admission to the MBA/PGDM programme. It is a national level examination which is open for all candidates from India & abroad.

## **LAW ENTRANCE EXAMS**

### **CLAT 2022**

CLAT examination is conducted for admission to the integrated LLB & LLM courses all over the country. This exam is regulated by the Consortium of National Law Universities (NLU) on a rotation basis. CLAT (Common Law Admission Test) is a national level

entrance test. CLAT score card is accepted by all law institutions located in India.

### **AILET 2022**

AILET (All India Law Entrance Test) is managed by the National Law University (NLU), New Delhi. It is organized to provide admission into various undergraduate & postgraduate law programmes, i.e. BA LLB (Hons.), LLM & Ph.D. This exam is an all India level examination held one time in a year.

### **AIBE 2022**

AIBE examination is a national level admission test. It is organized by the Bar Council of India (BCI). This exam is conducted to examine an advocate's capability to practice the profession of law in India. AIBE (All India Bar Examination) is held through offline mode. After qualifying this exam, candidates get "Certificate of Practice" for the legal profession.

### **LSAT 2022**

LSAT exam is conducted for providing admission to the various law institutions of India & foreign countries. It is an international level examination. This test is administered by the Law School Admission Council (LSAC), USA. LSAT (Law School Admission Test) is organized only one time in a year.

### **AP LAW CET 2022**

AP LAW CET (Andhra Pradesh Common Law Entrance Test) is regulated by the Sri Krishnadevaraya University, Anantapur. It is a state level examination. Through this exam, the

admission is offered into a 3 & 5 years law programme in Andhra Pradesh state. AP Lawcet score card is accepted by the top law colleges/institutions.

### **TS LAW CET 2022**

TS LAW CET is a state level entrance test. This test is organized for providing admission to the various law courses, i.e. 3 years LLB & 5 years LLB course. Telangana State Law common Entrance Test (TS LAW CET) is conducted by the Osmania University, Hyderabad on behalf of TSCHE.

### **MH CET Law 2022**

MH CET Law examination is held to offer admission to the 3 years LLB & 5 years' integrated LLB programme in Maharashtra state. This exam is a state level examination. It is managed by State Common Entrance Test Cell, Maharashtra. It is also known as Maharashtra Law CET.

## **UNIVERSITY LEVEL ENTRANCE EXAMS**

### **BITSAT 2022**

BITSAT examination is organized by the Birla Institute of Technology and Science (BITS), Pilani. This exam is

conducted at a university level. Candidates have to apply for this exam to get admission into integrated first degree courses of BITS campuses. BITSAT (Birla Institute of Technology & Science Admission Test) is a computer based online test.

### **SRMJEE 2022**

SRMJEE (SRM Joint Engineering Entrance Examination) is held for candidates, those seeking admission to the B.Tech programmes. It is a university level entrance test. This test is administered by SRM University. After qualifying this exam, candidates can get admission to the university & its other campuses.

### **UPESEAT 2022**

UPESEAT exam is regulated by the University of Petroleum and Energy Studies (UPES), Dehradun. On the basis of this exam score, candidates can get admission to B.Tech course in various disciplines. UPESEAT (University of Petroleum and Energy Studies Engineering Aptitude Test) is a university level examination. The admission into B.Tech course is also done through JEE Main & board merit.

### **VITEEE 2022**

VITEEE (VIT Engineering Entrance Examination) is a university level examination. This exam is conducted by the VIT University. It is held for providing admission to the B.Tech course in the university & its campuses. Candidates can appear in this exam only through online mode.

### **Manipal MET 2022**

Manipal MET examination is organized by the Manipal University. Through this examination, candidates can get admission into various UG & PG courses offered by the university. It is considered as a university level aptitude test. Candidates can study these courses in the field of engineering, management, applied science, etc.

### **PTU Admission 2022**

PTU (Punjab Technical University) organizes a university level examination. This exam is only for admission to the MBA, M.Sc (Physics, Chemistry, Mathematics, Food Science & Technology) and MA Journalism & Technology) and MA Journalism courses. The admission into other courses is done through national level examination. For the B.Tech course, candidates have to qualify the JEE Main examination.

### **BVP CET 2022**

BVP CET exam is conducted to offer admission into various bachelor's & master's degree courses. This exam is managed by the Bharati Vidyapeeth University. The university provides these courses in the field of engineering, management, law,

## **Top Competitive Exams**

### **After 12th**

pharmacy, etc. It is a university level examination.

### **Symbiosis SET 2022**

Symbiosis International University conducts separate exams for engineering, law, design & other courses. For engineering, candidates have to qualify SIT Engineering Entrance Exam (SITEEE) examination. It is a university level examination. For UG courses admission, the SET General exam is organized by the university.

### **SAAT 2022**

SAAT (Siksha 'O' Anusandhan University Admission Test) is managed by the Siksha 'O' Anusandhan University. The university offers various UG & PG courses in the field of engineering, management, law, pharmacy, etc. It is a national level admission test.

### **KIITEE 2022**

KIITEE examination is a university level examination. This exam is conducted by the Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar. On the basis of this exam, candidates can get admission to the various undergraduate & postgraduate courses. These courses are offered in the area of engineering, law, management, etc.

### **AMU 2022**

AMU (Aligarh Muslim University) runs a various UG & PG courses in different fields such as engineering, law, science, management, etc. The university organizes a university level

examination for admission into these courses. Only Indian & NRI candidates can apply for this exam.

### **PESSAT 2022**

PESSAT exam is conducted to offer admission into various undergraduate & postgraduate courses in the field of engineering, management, computer application, etc. This exam is administrated by the PES University. Candidates can apply for the PESSAT (PES Scholastic Aptitude Test) exam in a national level.

### **IPU CET 2022**

IPU CET exam is regulated by the Guru Gobind Singh Indraprastha University. It is a university level entrance test conducted for admission into various UG & PG courses in various fields. However, admission into engineering courses is given through JEE Main Scores while for MBA admission, CAT Scores are considered. Indraprastha University Common Entrance Test (IPU CET) is organized once in a year.

### **Delhi University 2022**

Delhi University (University of Delhi) is one of the famous universities of India. The university runs various bachelors, masters & doctoral level courses. The admission into these courses is done through entrance test or merit based. For admission to the B.Tech course, candidates have to pass the JEE Main examination.

### **Lucknow University 2022**

Lucknow University organizes a university level admission test to offer admission into various UG, PG &

MBA courses. These courses are offered in the field of science, commerce, arts, law, etc. The university also runs B.Tech programmes in various specializations. The admission into B.Tech course is done through UPSEE examination score.

### **JNU Admission 2022**

JNU (Jawaharlal Nehru University) is a premier institution which regulates various UG, PG & doctoral degree courses in various fields. JNUEE (Jawaharlal Nehru University Entrance Examination) is conducted by NTA to enroll candidates in various UG / PG courses. For admission into Biotechnology Programmes, JNU CEEB is conducted.

### **BHU 2022**

Banaras Hindu University (BHU) conducts a separate examination for admission to the UG, PG and other courses. The university organizes Undergraduate Entrance Test (UET) for UG and Postgraduate Entrance Test (PET) for PG courses admission. It is a university level examination. Through this entrance exam, candidates can get admission to the university & its affiliated colleges.

### **Allahabad University 2022**

Allahabad University regulates its own admission test to offer admission into various bachelor & masters degree courses. Candidates can pursue these courses in the field of science, arts, commerce, arts, etc. This test is a

university level entrance exam. The university organizes separate admission tests for UG & PG courses.

## **Alliance University 2022 Admission**

Alliance University organizes a university level examination for admission to the UG, PG & doctoral level programmes. These courses are provided in the field of engineering, law, management, etc. For B.Tech courses, it conducts Alliance University Engineering Entrance Test (AUEET). It is a private university formed in the year 2010.

## **Banasthali University 2022 Admission**

Banasthali University is a women's university founded in 1935. The university runs various undergraduate, postgraduate & doctorate level courses in the field of engineering, pharmacy, management, arts, science, etc. No entrance test is managed by the university. The admission is done through a qualifying exam merit & aptitude test.

## **PHARMACY ENTRANCE EXAMS**

### **GPAT 2022**

GPAT (Graduate Pharmacy Aptitude Test) exam is organized by the National Testing Agency (NTA). It is organized to offer admission into the M.Pharm course. This exam is a national level entrance test. It is a computer based online test held in the month of January every year.

### **MH CET 2022**

MH CET examination is conducted for admission to the various pharmacy, engineering & technology courses. It is organized by the Government of Maharashtra, State Common Entrance Test Cell. Maharashtra Common Entrance Test (MH CET) is a state level entrance test of Maharashtra state.

### **PUCET 2022**

PUCET examination is organized for providing admission to the B.Pharmacy and B.Sc (Hons.) courses. It is a university level examination. PUCET (Panjab University Common Entrance Test) is managed by Panjab University. After qualifying this exam, admission is offered in the university & its affiliated colleges.

## **AGRICULTURE ENTRANCE EXAMS**

### **ICAR AIEEA 2022**

ICAR AIEEA (All India Entrance Exam) is conducted by National Testing Agency (NTA). This exam is organized to offer admission into UG & PG courses in agriculture & allied science courses. It is a national level examination. The authority organizes separate tests for UG & PG programmes, i.e. AIEEA UG & AIEEA PG.

### **OUAT 2022**

OUAT examination is a university level examination of Odisha state. It is conducted for providing admission to the UG agriculture courses, i.e.

B.Tech (Agriculture Engineering), B.Sc (Hons.) (Agriculture/Horticulture/ Forestry/Community Science), etc. This exam is regulated by the Orissa University of Agriculture and Technology, Bhubaneswar.

### **MP PAT 2022**

MP PAT exam is organized for providing admission to the UG agriculture courses, i.e. B.Tech (Agriculture Engineering) & B.Sc (Agriculture/Forestry/Horticulture). It is a state level examination. This exam is conducted by the Madhya Pradesh Professional Examination Board or MP Vyapam.

### **JET Agriculture 2022**

JET Agriculture (Joint Entrance Test) is organized by the Maharana Pratap University of Agriculture and Technology, Udaipur. This exam is held to offer admission into B.Tech (Food Technology/Dairy Technology) & B.Sc. Agriculture / Horticulture / Forestry (Honours) courses. It is a state level agriculture exam of Rajasthan state.

### **JCECE 2022**

JCECE examination is conducted for admission to the B.Sc (Hons.) Agriculture/Forestry, B.F.Sc (Fisheries Science), B.V.Sc. & A.H. & Homeopathy degree programme. This exam is a state level examination of Jharkhand state. It is regulated by the Jharkhand Combined Entrance Competitive Examination Board (JCECEB). ■

# Study Plan for CLAT 2022

**C** LAT 2022 is a national level entrance exam for admissions to undergraduate (UG) and postgraduate (PG) law courses offered at 22 NLUs and several other colleges/universities.

CLAT is held by the Consortium of National Law Universities headed by NLSIU. Being the leader in Law entrance preparation, Career Launcher experts will bring to you live updates on CLAT 2022 Exam.

Note : According to the latest updates CLAT will be held twice in the year 2022. This will be the first time that the exam will be conducted twice in a year. A press release issued by the Consortium of National Law Universities read, "The CLAT-2022 will be held on 19 June, 2022. The consortium has resolved that CLAT- 2023 will be held on December 18, 2022. Hence, in 2022, two CLAT examinations will be held in one year."

## Crack CLAT with our Study Plan curated by NLU Alumnus

- I'll appear for CLAT in 2023/2024/2025
- I'm interested in Classroom Coaching/Online Coaching

Test Series Study Material Not Decided

## CLAT 2022: Exam Highlights

Start of CLAT 2022 online application form	January 1, 2022	TBA
Last date to submit application form	May 9, 2022	TBA
Release of admit card	1st week of June, 2022	TBA
CLAT 2022 exam date	June 19, 2022	December 18, 2022
Release of final answer key	2nd week of May, 2022`	TBA
Declaration of results	2nd week of May, 2022	TBA
Commencement of counselling	TBA	TBA

CLAT Exam Mode	Offline
CLAT Exam Duration	120 Minutes
CLAT Exam Language	English
CLAT Exam Purpose	Admissions to BA LLB, BCom LLB, BSc LLB, BBA LLB, BSW LLB, LLM courses

(ST) categories

*Note: Candidates appearing for their Class 12th examination in March/ April 2022 are also eligible for CLAT 2022 Exam. Such candidates need to give evidence of passing their Class 12th exam at the time of admission. Candidates who fail to fulfill this will lose their right for admission through the CLAT exam. CLAT 2022 Age Limit: There is no upper age limit to apply for CLAT 2022 Exam.*

## CLAT 2022: Exam Pattern

The CLAT exam is a test of one's aptitude and reasoning abilities. It comprises five sections namely:

- Verbal Ability
- Quantitative Aptitude
- Logical Reasoning
- General Knowledge
- Legal Aptitude

Each question carries 1 mark and for every incorrect attempt, 0.25 marks will be deducted.

Subject/Section	Topic
English Language	28-32 (20% of the paper)
Quantitative Aptitude	13-17 (10% of the paper)
Logical Reasoning	28-32 (20% of the paper)
General Awareness	35-39 (25% of the paper)
Legal Aptitude	35-39 (25% of the paper)
Total Marks	150
Total Time (min)	120
Negative Marking	0.25 marks for each wrong answer

## CLAT 2022: Eligibility Criteria

The eligibility criteria for CLAT 2022 are primarily based on two factors:

- Educational Qualification
- Age Limit

CLAT 2022 Educational Qualification: Any candidate who has completed 10+2 or equivalent examination is eligible to apply for CLAT 2022 Exam.

Minimum marks required for different categories are listed below:

- 45% marks for General/ Other Backward Class (OBC)/ Specially abled persons categories
- 40% marks for Scheduled Class (SC)/ Scheduled Tribe

- Online registration
- Filling out the application form
- Uploading of documents
- Application fee payment

## CLAT 2022: Application Process

Candidates seeking admission to undergraduate law courses offered by the participating NLUs can now fill the application form of CLAT 2022 on the official CLAT website. The last date to apply for CLAT 2022 is 9th May 2022.

## Documents required

## NEET 2022 Eligibility Criteria

**Eligibility for appearing in NEET (UG) is as follows:-**

- The students must have completed the age of 17 years at the time of admission or will complete the minimum age requirement on or before 31 December of the year of their admission to the first year UG Medical Courses).
- This year onwards, there will be no upper age limit for appearing for the NEET Exam.

**Qualified candidates must fulfill the following criteria:**

- The candidate must have passed in Physics, Chemistry, Zoology and English separately and must have obtained minimum of 50% marks together in Physics, Chemistry and Biology/Bio-technology at the qualifying examination
- In addition, they must have got a rank in the merit list of NEET (UG) - 2022 for admission to Undergraduate Medical Courses.
- In respect of the candidates belonging to Scheduled Castes, Scheduled Tribes or Other Backward Classes (NCL) s, the minimum marks obtained in Physics, Chemistry and Biology/Biotechnology together in qualifying examination shall be 40% marks instead of 50% marks for Unreserved and General-EWS Candidates.
- In respect of PwD candidates as per NMC,

CCIM and BoGCCH guidelines the minimum marks in the qualifying examination in Physics, Chemistry and Biology (or Botany & Zoology) / Biotechnology together shall be 45% instead of 50%.

- Provided further that the students who have received education abroad and wish to seek admission into medical colleges in India must have passed in Physics, Chemistry, Biology/Biotechnology and English with 50% marks in class 12 and their equivalency determined by Association of Indian Universities (AIU) as per regulations of the Medical Council of India and the concerned University.
- The criteria for minimum qualifying marks to be eligible for admission to MBBS courses shall also be applicable to concerned INIs.

## NEET 2022 Exam Pattern (New)

NTA has released the revised exam pattern for NEET (UG) along with the detailed previous year notification.

**Important points**

- As per the new exam pattern, there will be 2 sections in each subject consisting of 35 questions in Section A and 15 questions in Section B (out of which 10 are optional).
- There will be 200 Multiple Choice Questions (out of which 20 are optional). Each correct question carries 4

NEET UG 2022 Exam Pattern (Revised)					
SNo	Subjects	Sections	No. of Questions	Marks	Duration of Exam
1	Physics	Section A	35	140	3 hours 20 minutes (200 minutes)
		Section B	15	40	
2	Chemistry	Section A	35	140	
		Section B	15	40	
3	Botany	Section A	35	140	
		Section B	15	40	
4	Zoology	Section A	35	140	
		Section B	15	40	
<b>Total</b>			<b>200 (20 optional)</b>	<b>720</b>	

marks.

- NEET (UG) – 2022 is a Pen & Paper-based Test, to be answered on the specially designed machine gradable OMR sheet using Ball Point Pen
- There will be a negative marking of minus one (-1) mark for each incorrect answer.
- The total duration of the NEET 2022 Exam is 3 hours 20 minutes (200 minutes)

## NEET 2022 Syllabus

The National Medical Commission of India (NMC) recommends the following syllabus for National Eligibility-cum-Entrance Test NEET(UG) for admission to MBBS/BDS/BAMS/BSMS/BUMS/BHMS courses across the Country after review of various State syllabi as well as syllabi prepared by CBSE, NCERT and COBSE. This is to establish a uniformity across the country keeping in view the relevance of different areas in medical education.

### Physics syllabus of class 11th

- 1 Physical world and measurement
- 2 Kinematics
- 3 Laws of Motion
- 4 Work, Energy and Power
- 5 Motion of System of Particles and Rigid Body
- 6 Gravitation
- 7 Properties of Bulk Matter
- 8 Thermodynamics
- 9 Behaviour of Perfect Gas and Kinetic Theory
- 10 Oscillations and Waves

### Physics syllabus of Class 12th

- 1 Electrostatics
- 2 Current Electricity
- 3 Magnetic Effects of Current and Magnetism
- 4 Electromagnetic Induction and Alternating Currents
- 5 Electromagnetic Waves
- 6 Optics
- 7 Dual Nature of Matter and Radiation
- 8 Atoms and Nuclei
- 9 Electronic Devices

### Chemistry syllabus of class 11th

- 1 Some Basic Concepts of Chemistry

- 2 Structure of Atom
- 3 Classification of Elements and Periodicity in Properties
- 4 Chemical Bonding and Molecular Structure
- 5 States of Matter: Gases and Liquids
- 6 Thermodynamics
- 7 Equilibrium
- 8 Redox Reactions
- 9 Hydrogen
- 10 s-Block Element (Alkali and Alkaline earth metals)
- 11 Some p-Block Elements
- 12 Organic Chemistry- Some Basic Principles and Techniques
- 13 Hydrocarbons
- 14 Environmental Chemistry

### Chemistry syllabus of class 12th

- 1 Solid State
- 2 Solutions
- 3 Electrochemistry
- 4 Chemical Kinetics
- 5 Surface Chemistry
- 6 General Principles and Processes of Isolation of Elements
- 7 p- Block Elements
- 8 d and f Block Elements
- 9 Coordination Compounds
- 10 Haloalkanes and Haloarenes
- 11 Alcohols, Phenols and Ethers
- 12 Aldehydes, Ketones and Carboxylic Acids
- 13 Organic Compounds Containing Nitrogen
- 14 Biomolecules
- 15 Polymers
- 16 Chemistry in Everyday Life

### Biology syllabus of class 11th

- 1 Diversity in Living World
- 2 Structural Organisation in Animals and Plants
- 3 Cell Structure and Function
- 4 Plant Physiology
- 5 Human physiology

### Biology syllabus of class 12th

- 1 Reproduction
- 2 Genetics and Evolution
- 3 Biology and Human Welfare
- 4 Biotechnology and Its Applications
- 5 Ecology and environment

## NEET 2022 Admit Card

Once the examination forms are duly filled and submitted the students may download their Admit Cards on the NTA website on the scheduled date. The NEET Admit Cards might be available three days before the exam date. The admit card of NEET 2022 will be available in online mode only.

Candidates are advised to regularly visit the NTA website and also check their e-mails/SMS for the Latest Updates regarding the release of NEET Admit Card.

Candidates shall appear at their own cost at the Examination Centre on the Date and Timing indicated on their Admit Card issued by the NTA.

Any request to change the Examination Centre, Date and Time provided on the Admit Card shall not be considered under any circumstances.

Candidates are advised to take 6-8 Passport size and 4-6 Post Card size (4"X6") colored photographs with white background.

The photographs are to be used for uploading on the Online Application Form, for examination and also for Counselling/Admission.

**Candidates will have to follow the steps given below to download the Admit Card:**

1. Go to the official website of NTA NEET or click on the relevant link when the admit card releases on the official website

2. Enter the application number, date of birth and the security pin.
3. Click on "Submit".
4. Admit card of NEET will appear on the screen.
5. Check the details mentioned on the admit card.
6. Download the NEET UG admit card 2022.

## NEET 2022 Result

The NEET (UG) Result 2022 will be uploaded on the official website [ntaneet.nic.in](http://ntaneet.nic.in) after the successful conduct of the exam. The candidates must keep an eye on the official website to get notified when the result is announced officially.

### **Government MBBS seats through NEET**

According to the National Medical Council (NMC), there are a total of 554 medical colleges offering a total of 83,075 MBBS seats offered through NEET. Candidates will be allotted seats based on meeting the NEET cutoff and other eligibility and admission criteria of the individual Government Medical colleges. The All India Quota (AIQ) category will allow 15 per cent of the total seats in every participating medical college and the rest 85 per cent seats are reserved for the state medical colleges for the candidates belonging to the respective states.

# BDS

# ADMISSION

# 2022

**D**entistry involves interference and treatment of all health issues moving the mouth, teeth, gums and alternative laborious and soft tissues of the rima oris. General dentists' job involves interference and repair of infected teeth through improvement and filling and makes referrals for any special condition. The specialists during this profession are Orthodontists, Periodontists, Oral Surgeons, Pedodontists, Prosthodontists, and Endodontists.

There is a rising demand for dental medicine graduates in areas like pharmaceutical corporations, dental clinics, hospital, analysis institutes, non-public follow, dental product makers, academic institutes and dental instrumentality manufacturers. It's the

foremost course in the medical stream after MBBS. Career opportunities when BDS embrace clinical follow as a medical practitioner, teaching i.e. following MDS, teaching or analysis or government doctor. There's a huge scope for dental surgeons in the Republic of India and abroad.

### Details Regarding BDS

Bachelor of Dental Surgery or BDS

because it is often glorious is one among the medical courses sought-after out when MBBS. Students, whereas aspiring for a medical career at the high school level and on the far side, explore for info that tells all of them concerning BDS. The course is four years in length followed by one year of paid rotating billet. In India, BDS is regulated by the Dental Council of the Republic of India wherever all dentists have to register to be able to follow when the completion of their study. The National Eligibility e ejaculate Entrance takes a look at (NEET-UG) is that the national level examination to use for BDS admissions. A complete of twenty-six,620 seats are on the market as per the Dental Council of Republic of India records across 313 schools comprehensive of Govt, non-public schools additionally as central and deemed universities. Candidates wish to grasp all concerning BDS ought to know the eligibility criteria, exam to put in writing, admission norms, schools to use to and fee

structure to be armed with data to use for admissions.

### Duration

As per the Dental Council of the Republic of India, BDS course shall be of four tutorial years with 240 teaching days in every school year, and one year paid rotating billet in an exceedingly recognized dental school. All candidates are going to be needed to endure one year paid rotating billet when passing the ultimate BDS examination. The billet is obligatory and BDS Degree shall be granted when completion of 1 year paid billet and spending of BDS examination.

### Eligibility

The students, World Health Organization have passed the 10+2 examination with science stream and have Physics, Chemistry and Biology and English in the twelfth stream and could opt for the BDS course.

It is the course which is able to be having hands-on coaching within the field of odontology for the length of 5 years. The scholars can get the prospect to move with the patient and can get sensible data of the diseases.

The students got to score a minimum of five hundredth marks (40% within the case of reserved category) and 2 associates got to appear for an entrance exam conducted by the individual authorities.

### Age Limit

Candidates should have completed seventeen (17) years at the time of

admission or before the day of the year of admission.

The higher ordinance criteria have been removed subject to the judgment unfinished within the Supreme Court.

### Who should Opt?

Students of the World Health Organization aim to serve the society and will fulfill their dream by following a BDS degree. The candidates having sensible physical stamina are suitable for this course. All aspirants having associate interest in creating a career in odontology are created for this course. This course needs the sort of scholars World Health Organization have a robust mind and might deal with the offensive smell and sight throughout the physical examination. Having patience and a calm mind are minimum necessities for somebody to be trained as a MD.

### Admission Procedure

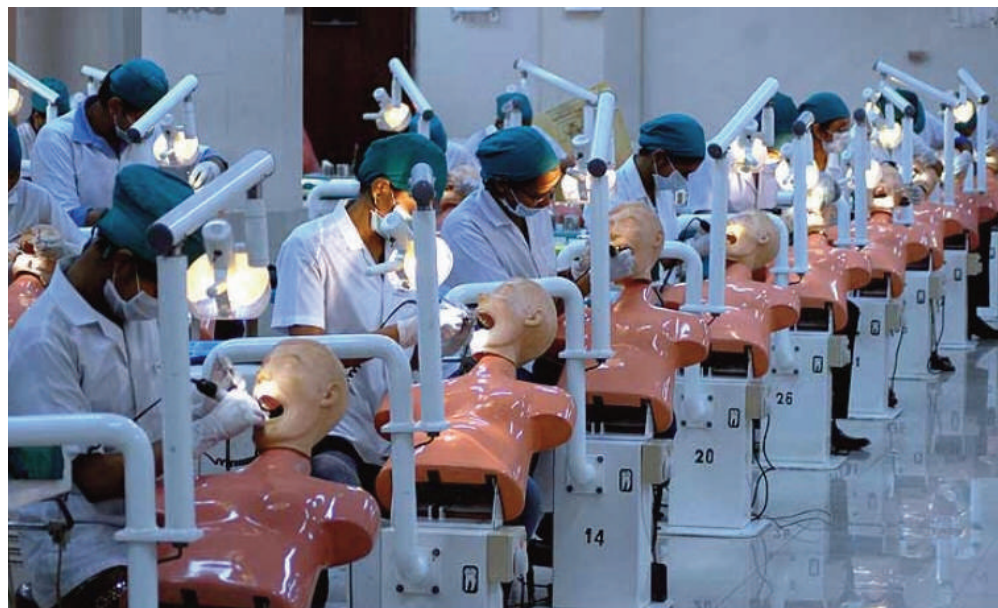

Admissions into BDS programmes are going to be done through an entrance exam. Students will appear in the exam

organized at national or university level examinations. NEET 2022 (National Eligibility ejacluate Entrance Test) is usually thought of for providing admission to BDS courses.

After clearing the doorway examination, students got to participate in the admission method organized by the individual authority. Seats are going to be assigned to candidates on the premise of rank, stuffed decisions and availableness of seats.

## **D.A.V (C) DENTAL COLLEGE & HOSPITAL**

The college started in 1987 was the first in the private sector in Northern India established without being attached to a medical college, having its own 100 bedded hospital right from inception. It is run by DAV trust which is the largest non government agency in the field of education providing value-based education running 720 educational institutions . It is affiliated to the Pt B D Sharma University of Health Sciences Rohtak and recognized for BDS,MDS and Dental mechanic courses. The college has the best student teacher ratio. Has separate Boys and Girls Hostels in the campus with all modern facilities. The air conditioned library is well equipped with books and journals.

The Dental Hospital has state of art treatment facilities and also provides emergency care round the clock.

DAV has been making a significant contribution to the society through spreading value-based education keeping the ancient Vedic heritage in mind. In fact, it is the only organization which has set high standards in education while maintaining a balance between Vedic wisdom and modernity.

Much is happening in the campus both from infrastructure and academic point of view and in a very short period the college has grown in leaps and bounds gaining recognition nationally as well as internationally. The college is known for producing high quality professionals who have spread throughout different colleges in the country.

## STATE-WISE LIST OF REPUTATED GOVERNMENT **DENTAL COLLEGES**

### **WEST BENGAL**

- Burdwan Dental College, Burdwan District
- North Bengal Dental College, Darjeeling District
- Dr. R. Ahmed Dental College & Hospital

### **MADHYA PRADESH**

- College of Dentistry, Indore

### **KERALA**

- Dental College, Kozhikode
- Government Dental College, Trivandrum
- Government Dental College, Kottayam

### **ODISHA**

- Dental Wing of SCB Medical College, Cuttack

### **UTTAR PRADESH**

- Dr. Ziauddin Ahmad Dental College, Aligarh
- Faculty of Dental Sciences, Institute of Medical Sciences, Varanasi
- Faculty of Dental Sciences, Lucknow

### **NEW DELHI**

- ESIC Dental College, Rohini
- Faculty of Dentistry, Jamia Millia Islamia
- Maulana Azad Dental College & Hospital

### **CHANDIGARH**

- Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector 25

### **ANDHRA PRADESH**

- Government Dental College & Hospital, RIMS Kadapa
- Government Dental College & Hospital, Vijayawada
- Govt. Dental College & Hospital, Afzalganj

### **KARNATAKA**

- Government Dental College & Research Institute, Bellary
- Govt. Dental College, Bangalore

### **HARYANA**

- Govt. Dental College, Medical Campus, Rohtak

### **RAJASTHAN**

- Govt. Dental College & Hospital, Jaipur

### **HIMACHAL PRADESH**

- H.P. Government Dental College & Hospital, Shimla

## **JAMMU & KASHMIR**

- Indira Gandhi Government Dental College, Jammu

## **PUDUCHERRY**

- Mahatma Gandhi Post Graduate Institute of Dental Sciences, Gorimedu

## **GOA**

- Goa Dental College & Hospital

## **TAMIL NADU**

- Faculty of Dentistry, Rajah Muthiah Dental College & Hospital, Annamalai Nagar
- Tamil Nadu Government Dental College & Hospital, Chennai

## **ASSAM**

- Regional Dental College, Guwahati

## **BIHAR**

- Patna Dental College & Hospital, Patna

## **CHHATTISGARH**

- Govt. Dental College, Raipur, Chhattisgarh

## **TELANGANA**

- Govt. Dental College & Hospital, Afzalganj Telangana

## **GUJARAT**

- AMC Dental College, Ahmedabad
- Govt. Dental College & Hospital, Ahmedabad

- Govt. Dental College Hospital, Jamnagar
- Siddhpur Dental College, Patan

## **JHARKHAND**

- Dental Institute Rajendra Institute of Medical Sciences, Ranchi

## **KERALA**

- Govt. Dental College, Alappuzha
- Govt. Dental College, Kottayam
- Govt. Dental College, Kozhikode
- Govt. Dental College, Thrissur
- Govt. Dental College, Trivandrum

## **MAHARASHTRA**

- Govt. Dental College & Hospital, Aurangabad
- Govt. Dental College & Hospital, Mumbai

# REVIVAL OF CAREER PROSPECTS IN ENGINEERING

With the diversification of careers in Engineering, the sector is expected to grow rapidly. Engineering education must, therefore, innovate to ensure students are ready.

**E**ngineering is a sought-after educational option because of the lucrative career options available after graduation. Over the years, India has established itself as a top destination for Engineering education. The demand for engineering-related courses was sparked by the IT and software boom and the rapid development of the private sector in the early 2000s led to a demand for more engineers. More and more students began enrolling in engineering programmes leading to the establishment of newer colleges.

But, over time, the number of new institutions became directly proportional to the number of unemployed graduates, resulting in stagnant career prospects, and rampant unemployment. From a time when engineers were recruited mostly for public sector jobs to the evolution of industrialisation leading to mass recruitment in the private sector, the scope of careers in engineering has diversified.

At a time of employment stagnation, the stream demands more innovations in terms of job creation, customised role creation for specific fields, and curation of specific courses and skillset training to hone the skills of the students even further.

## Newer options

At present, the scenario is fast-changing, and start-ups and other entrepreneurial-driven companies have started a trend of revitalising engineering-related occupations. We are now witnessing the emergence of new job titles such as Product Engineers and Data Scientists, among others. Contrary to popular belief, the stream is evolving faster than ever in

response to current trends and demands.

Courses such as Food Process Engineering, Medical Electronic Engineering, Mechatronics Engineering, Agricultural Engineering, and Solar Engineering are just a few examples of streams being curated to suit careers in very specific yet in-demand career roles. Medical Electronics is a new course that was created in view of the ongoing healthcare crisis. The scarcity of resources in the face of a massive healthcare crisis was evident, leading to pharmaceutical businesses and hospitals modernising facilities and expanding the spectrum of job options in the medical engineering field, making Medical Electronics a growing specialisation.

Despite the negative impact of the pandemic, engineering as a career option is making a comeback as the economy slowly regains momentum. With the demand for automation and increased interconnectivity growing rapidly, students need to be aware of current technological developments such as AI, ML, Data Sciences, and the Internet of Things (IoT) that are going to be the primary driving force in the education, healthcare, manufacturing, and the construction sectors, in the coming years.

The 3M's State of Science Index 2021 recently revealed that the pandemic has revived interest in STEM fields among Indians, who have also become more ecologically sensitive. Also, with the fast-paced development of start-ups and similar small-business driven organisations, Engineering is expected to pick up its pace positively and see massive growth levels in the next few years.

The writer is Chairman of SRM Group, Chancellor of SRM University Delhi NCR, and Pro-Chancellor of SRM University Chennai

# DIFFERENT ENGINEERING DEGREES

**E**ngineering is a broad term that covers a wide range of applications and industries. Combining mathematics, science and technology, engineers produce creative solutions to real world problems. As a result there are many different types of engineering degrees available. Earlier, Engineering was divided into four major branches—Mechanical, Chemical, Civil and Electrical—with sub branches of each discipline. But now the number of such degrees has increased dramatically. There are now six major branches—Mechanical, Chemical, Civil, Electrical, Management and Geotechnical, and literally hundreds of different subcategories under each branch. Following are the most popular engineering degrees sorted by branch of engineering :

- Computer Engineering Degrees
- Electrical Engineering Degrees
- Mechanical Engineering Degrees
- Civil Engineering Degrees
- Environmental Engineering Degrees
- Geotechnical Engineering Degrees
- Online Engineering Degree
- Engineering Management Degrees
- Architectural Engineering Degrees
- Biomedical Engineering Degrees

- Project Management Degrees
- Chemical Engineering Degrees

## **Types of Mechanical Engineering Degrees**

- Mechanical Engineering Degree
- Aerospace Engineering Degree
- Biomedical Engineering Degree
- Biomechanical Engineering Degree
- Automotive Engineering Degree

## **Types of Civil Engineering Degrees**

- Civil Engineering Degree
- Structural Engineering Degree
- Architectural Engineering Degree

## **Types of ELECTRICAL Engineering Degrees**

- Electrical Engineering Degree
- Computer Engineering Degree
- Electronics Engineering Degree
- Mechatronics Engineering Degree
- Robotics Engineering Degree
- Microelectronic Engineering Degree

## **Types of Chemical Engineering Degrees**

- Chemical Engineering Degree
- Environmental Engineering Degree
- Materials Science Engineering

Degree

- Agricultural Engineering Degree
- Paper Engineering Degree
- Sustainability Design Degree

## **Types of Engineering MANAGEMENT Degrees**

- Engineering Management Degree
- MBA in Engineering Degree
- Industrial Engineering Degree
- Systems Engineering Degree
- Manufacturing Engineering Degree

## **Types of GEOTECHNICAL ENGINEERING Degrees**

- Petroleum Engineering Degree
- Geological Engineering Degree
- Nuclear Engineering Degree
- Marine Engineering Degree
- Engineering Physics
- Photonics Engineering Degree
- Nanotechnology Engineering
- Mining Engineering Degree
- Ceramics Engineering Degree
- Metallurgical Engineering Degree
- Geomatics Engineering Degree
- Project Management Degree
- Engineering Degrees by Degree Level
- Undergraduate Engineering Degrees
- Graduate Engineering Degrees ■

**E**very year, a new trend in India's education system arises. There was a period not long ago when medical and engineering courses were the most popular among students. Those days, however, are long gone, and a transition has occurred in which an increasing number of students are eager to explore sectors that highlight their skills, talents, and interests. Despite this, engineering as a course has not lost its lustre over the years, and a huge number of students continue to enrol as a result of emerging technologies. Many universities and colleges are increasingly using new and improved teaching methods, such as modern learning labs and technology-enhanced curricula. In order to keep up with worldwide standards, many universities have likewise updated their programmes. The MIT Academy of engineering has been rated as one of the top engineering colleges in pune due to its flexible curriculum and diversity in the style of learning.

## The 4 Emerging Trends

A number of technical institutes such as MITAOE have been built across the country in response to the growing number of students interested in engineering. There are other obstacles or issues that fail to provide the appropriate platform for students in the workforce. India, on the other hand, is doing everything it can to reinvent the technical education system in terms of quality and opportunities. For engineering seats at top institutions or colleges, millions of students take

# ENGINEERING EDUCATION IN INDIA : 4 EMERGING TRENDS

competitive exams like JEE, JEE Main, AIEEE, CET, and others. To cope up with the updated technology and meet the market standards MIT, Pune has inculcated a mix of both core courses and interdisciplinary courses in their syllabus. One needs to have all the skills required to face the challenges of the outside world.

## Experiential learning

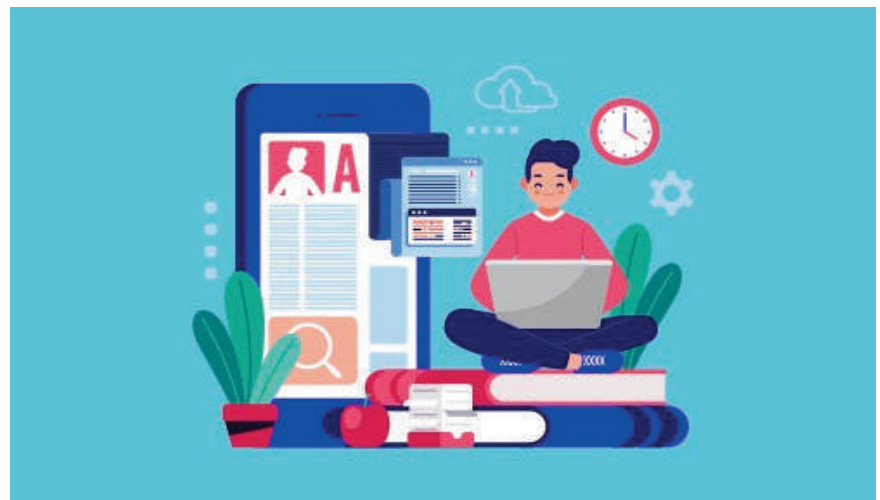

There is currently a combination of hands-on instruction and traditional lecture learning. Hands-on learning programmes enable students to apply classroom materials in real-world settings such as 3D printing labs and cutting-edge research labs, enhancing their skills and ideas. Students learn

more quickly, comprehend information better, and can handle key problems in a real-world setting.

## Industry-specific Programs

Many universities and institutes, such as Industry Partner Summit, have included industry-specific engineering curriculum into their classes. In such programmes, industry executives and lecturers address innovation, cutting-edge technologies and discoveries, tools, and trends in the engineering sector. The courses are then updated on a regular basis to ensure that students have access to the most up-to-date engineering information.

## Non-technical Skills Enrollment

Furthermore, in addition to the primary curriculum, engineering students must learn non-technical skills. Universities and colleges are encouraging students to participate in soft-skill courses such as public speaking, professional writing, and job preparation as a result of this. This aids in the development of their leadership, teamwork, and communication skills. Entrepreneurship and Innovation.

### **Entrepreneurship and Innovation**

With the help of the participating industry and institute, incubators, warehouses, and fabrication centres are being built. Initially, industry councils can help and guide the institution until it is self-sufficient. Every engineering school should have a mission to promote entrepreneurship and innovation. This can be accomplished by focusing on specific goals and providing students with new and challenging possibilities.

With the world's rising globalisation, we must consider how best to provide the finest opportunity for future generations.

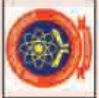

### **Engineering Education in India's Future**

With the world's rising globalisation, we must consider how best to provide the finest opportunity for future generations.

1. Engineers can help improve urbanisation and overcome obstacles in the fields of healthcare, medicine, infrastructure, education, tourism, economy, energy, and defence,

- among other things.
2. It is critical that students work on their work-related skills, transdisciplinary programmes, and problem-solving abilities.
  3. Engineers that are highly adept at their jobs are in high demand all over the world.
  4. Engineers are needed not only in software firms, but also in other areas such as education, banks, healthcare, defence, railways, manufacturing, and research.
  5. Upgrade your knowledge of cutting-edge technology in order to improve your creations and the country's development.
  6. Infrastructure, skill-based curriculum, enough resources, practical based learning, employment possibilities, on-the-job training, equal access to education and training, and industry-based material should all be priorities in engineering education.
  7. Experts from these industries should be asked to speak and discuss innovation, discoveries, technology, applications, tools, and current trends in the following subjects at industry-related programmes for students.
  8. The syllabus and curriculum should be updated on a regular basis to reflect current developments.
  9. They should be given opportunities to improve their abilities by participating in brainstorming sessions, presentations, and lectures using technology.
  10. Soft skills, as well as technical knowledge, should be developed in order to improve their speaking, writing, and listening abilities.

<b>State Technical Universities at a Glance (We rated)</b>

# ZONE AND STATE WISE LIST OF TOP PRIVATE ENGINEERING COLLEGES

## EAST & NORTH EAST ZONE - BEST ENGINEERING COLLEGES

- Haldia Institute of Technology (HIT) Haldia - Management
- Narula Institute of Technology
- Asansol Engineering College
- Bengal Institute of Technology, Kolkata
- Guru Nanak Institute of Technology
- Heritage Institute of Technology
- IEM Kolkata - Institute of Engineering and Management
- JIS College of Engineering, Nadia
- MCKV Institute of Engineering, Howrah
- Silicon Institute of Technology, Bhubaneswar
- C. V. Raman College of Engineering, Bhubaneswar
- Gandhi Institute of Technological Advancement, Bhubaneswar

### BIHAR

#### VERY GOOD

- 1 KK University, Nalanda
- 2 JP Institute of Technology, Nalanda
- 3 Satyam International Institute of Technology, Patna
- 4 Amity University, Patna

#### GOOD

- 1 BIT Gaya - Buddha Institute of Technology
- 2 Vidya Vihar Institute of Technology, Purnea
- 3 Exalt College of Engineering and Technology,

### Hajipur

- 4 Dr CV Raman University, Vaishali

#### UPCOMING

- 1 Moti Babu Institute of Technology, Patna
- 2 AMIT Banka - Adwaita Mission Institute of Technology
- 3 Patna Sahib Technical Campus, Vaishali
- 4 Dr APJ Abdul Kalam Women's Institute of Technology, Darbhanga
- 5 Sandip University, Sijoul
- 6 Azmet College of Engineering and Technology, Kishanganj

- 7 Azmet Institute of Technology, Kishanganj
- 8 Siwan Engineering and Technical Institute, Siwan
- 9 Mother's Institute of Technology, Patna
- 10 Kishanganj College of Engineering and Technology, Kishanganj
- 11 Vidyadaan Institute of Technology and Management, Buxar

## **JHARKHAND**

### **VERY GOOD**

- 1 Usha Martin University, Ranchi
- 2 Sai Nath University, Ranchi
- 3 Jharkhand Rai University, Ranchi

### **GOOD**

- 1 YBN University, Ranchi
- 2 Chaibasa Engineering College, Chaibasa
- 3 Netaji Subhas University, Jamshedpur
- 4 Sarla Birla University, Ranchi
- 5 Capital University, Koderma
- 6 Amity University, Ranchi
- 7 ICFAI University, Jharkhand
- 8 KK College of Engineering and Management, Dhanbad
- 9 Ram Krishana Dharmarth Foundation University, Ranchi
- 10 Maryland Institute of Technology and Management, Galudih

## **WEST BENGAL**

### **EXCELLENT**

- 1 Haldia Institute of Technology (HIT) Haldia -
- 2 Narula Institute of Technology
- 3 Asansol Engineering College
- 4 Bengal Institute of Technology, Kolkata
- 5 Guru Nanak Institute of Technology
- 6 Heritage Institute of Technology

- 7 IEM Kolkata - Institute of Engineering and Management
- 8 JIS College of Engineering, Nadia
- 9 MCKV Institute of Engineering, Howrah

### **VERY GOOD**

- 1 Abacus Institute of Engineering and Management, Hooghly
- 2 BP Poddar Institute of Management and Technology, Kolkata
- 3 Bengal College of Engineering and Technology, Durgapur
- 4 Dr BC Roy Engineering College, Durgapur
- 5 Dr Sudhir Chandra Sur Degree Engineering College, Kolkata
- 6 GKCEM Baruipur
- 7 NSEC Kolkata - Netaji Subhash Engineering College
- 8 SVIST Kolkata - Swami Vivekananda Institute of Science and Technology

### **GOOD**

- 1 Bengal College of Engineering, Durgapur
- 2 BBIT Kolkata - Budge Budge Institute of Technology
- 3 Dream Institute of Technology, South 24 Parganas
- 4 MSIT Kolkata
- 5 Techno International Batanagar, South 24 Parganas
- 6 Techno International New Town, Kolkata

## **ASSAM**

### **GOOD**

- 1 Girijananda Chowdhury Institute of Management & Technology, Dibrugarh
- 2 NETES Institute of Technology & Science, Mirza
- 3 KU School of Engineering Technology & Management Dorhat

**ODISHA**

**EXCELLENT**

- 1 Silicon Institute of Technology, Bhubaneswar
- 1 C. V. Raman College of Engineering, Bhubaneswar
- 2 Gandhi Institute of Technological Advancement, Bhubaneswar

**VERY GOOD**

- 3 Dhaneshwar Rath Institute of Engineering & Management Science, Cuttack
- 4 National Institute of Science & Technology.
- 5 Synergy Institute of Engineering And Technology, Dhenkanal
- 6 Trident Academy of Technology, Bhubaneswar
- 7 Silicon Institute of Technology, Sambalpur
- 8 Institute of Technical Education & Research

**GOOD**

- 9 Padmanava College of Engineering, Rourkela
- 10 Eastern Academy of Science & Technology, Phulnakhra
- 11 College of Engineering, Bhubaneswar
- 12 Krupajala Engineering College, Bhubaneswar
- 13 Rajdhani Engineering College, Bhubaneswar
- 14 Bhubaneswar Engineering College, Bhubaneswar
- 15 Gandhi Institute for Education & Technology, Bhubaneswar
- 16 Konark Institute of Science & Technology, Bhubaneswar
- 17 Nm Institute of Engineering & Technology, Bhubaneswar
- 18 Orissa Engineering College, Bhubaneswar
- 19 Balasore College of Engineering And Technology, Balasore

**NORTH ZONE - BEST ENGINEERING COLLEGES**

- Ajay Kumar Garg Engineering College
- Krishna Institute of Engg. & Technology
- J.S.S Academy of Technical Education
- Galgotia College of Engg. & Technology
- Academy of Business & Engineering Sciences
- G.L Bajaj Institute of Tech & Mgmt. G. Noida
- Meerut Institute of Engg. & Technolgy
- JECRC, Jaipur
- SKIT & Gramothan, Jaipur
- Global Institute of Technology, Jaipur
- Aravali Institute of Technical Studies
- Geetanjali Institute of Technical Studies
- Arya College of Engineering & IT, Jaipur
- Poornima Instiute of Engineering & Technology
- Maharaja Surajmal Institute of Technology, Delhi
- Bhagwan Parshuram Institute of Technology
- Delhi
- Bharti Vidyapeeth's College of Engineering, Delhi
- Maharaga Agrasen Institute of Technology, Delhi
- Dronacharya College of Engineering, Gurgaon
- GITAM Kablana - Ganga Institute of Technology and Management
- GEC Panipat - Geeta Engineering College
- PIET Panipat - Panipat Institute of Engineering and Technology
- WCTM Gurgaon - World College of Technology and Management
- CEC Landran - Chandigarh Engineering College, Landran Campus
- GGI Ludhiana - Gulzar Group of Institutes
- Universal Institute of Engineering and Technology, Mohali

## **RAJASTHAN**

### **EXCELLENT**

- 1 JECRC, Jaipur
- 1 SKIT & Gramothan, Jaipur
- 2 Global Institute of Technology, Jaipur
- 2 Aravali Institute of Technical Studies
- 2 Geetanjali Institute of Technical Studies
- 3 Arya College of Engineering & IT, Jaipur
- 3 Poornima Instiute of Engineering & Technology

### **VERY GOOD**

- 4 Institute of Engineering & Technology
- 5 Biyani Institute of Engineering & Technology (G), Jaipur
- 5 Maharishi Arvind Institute of Sci & Mgt, Jaipur
- 6 Poornima College of Engineering, Jaipur
- 7 Rajasthan College of Engineering (W), Jaipur
- 8 B. K. Birla Institute of Engineering & Technology, Jhunjhunu
- 9 JIET School of Engineering & Technology (G), Jodhpur
- 10 Jodhpur Institute of Engineering & Technology, Jodhpur
- 11 Shekhawati Institute of Engineering & Technology, Shekhawati

### **GOOD**

- 12 Apex Institute of Engineering & Technology, Jaipur
- 13 Arya College of Engineering and Research Centre, Jaipur
- 14 Global College of Technology, Jaipur
- 15 Jaipur Engineering College, Jaipur
- 16 Kautilya Institute of Technology & Engineering & School of Mgt, Sitapura
- 17 Pinkcity Engineering College and Research Centre, Sanganer
- 18 Poornima Group of Institute - Faculty of

Engineering & Faculty of Management, Sitapura

- 19 Vivekananda Institute of Technology, Jaipur
- 20 Mody Institute of Technology, Kota
- 21 Techno India NJR Institute of Technology, Udaipur

### **UPCOMING**

- Ajmer Institute of Technology
- Aryan College of Technology
- Alwar Institute of Engineering & Technology
- Institute of Engineering & Technology
- Laxmi Devi Institute of Engineering & Technology
- Vedant College of Engineering & Technology
- Anand International College of Engineering
- Apex Group of Institutions
- Apex Institute of Management & Science
- Arya Institute of Engineering Technology & Management
- Arya Institute of Engineering & Technology
- Baldev Ram Mirdha Institute of Technology (Main Campus)
- Baldev Ram Mirdha Institute of Technology (East Campus)
- Dr. Radhakrishnan Institute of Technology
- Maharishi Arvind College of Engineering & Research Centre
- Maharishi Arvind Institute of Science and Management
- Shankara Institute of Technology
- Stani Memorial College of Engineering & Technology
- Vivekanand Institute of Technology(East) (Former VCE)
- Yagyavalkya Institute of Technology
- Shekhawati Engineering College
- Marwar Engineering College & Research Centre

- Marwar Institute of Technology
- Vyas College of Engineering & Technology (Former Vyas Engineering College for Girls )
- Vyas Institute of Engineering & Technology
- Gurukul Institute of Engineering & Technology
- Maharishi Arvind International Institute of Technology
- Tagore Engineering College
- Shrinathji Institute of Technology & Engineering
- Bharatiya Institute of Engineering & Technology
- Shekhawati Institute of Technology
- Chartered Institute of Technology

## **DELHI**

### **EXCELLENT**

- 1 Maharaja Surajmal Institute of Technology, Delhi
- 1 Bhagwan Parshuram Institute of Technology Delhi
- 2 Bharti Vidyapeeth's College of Engineering, Delhi
- 2 Maharaga Agrasen Institute of Technology, Delhi

### **VERY GOOD**

- 3 Guru Teg bahadur Institute of Technology, Delhi
- 4 Dr. Akhilesh Das (Northern India) Engineering College Delhi
- 5 Delhi Technical Campus, Grater Noida
- 6 Amity School of Engineering & Technology, Delhi

### **GOOD**

- 7 HMR Institute of Technology and Management
- 8 Mahaveer Swami Institute of Technology , Sonipat

- 9 JIMS Management of Technology Campus, Noida

## **HARYANA**

### **EXCELLENT**

- 1 Dronacharya College of Engineering, Gurgaon
- 1 GITAM Kablana - Ganga Institute of Technology and Management
- 2 GEC Panipat - Geeta Engineering College
- 2 PIET Panipat - Panipat Institute of Engineering and Technology
- 2 WCTM Gurgaon - World College of Technology and Management

### **VERY GOOD**

- 3 Technology Institute of Textile & Sciences, Bhiwani
- 4 Vaish College of Engineering, Rohtak
- 5 Seth Jai Parkash Mukand Lal Institute of Engineering & Technology, Yamuna Nagar
- 6 PDM College of Technology and Management
- 7 B.S. Anangpuria Institute of Technology & Management Alampur, Faridabad Good -

### **GOOD**

- 8 Advanced College of Technology & Management, Faridabad.
- 9 Ambala College of Engineering & Applied Research, Ambala.
- 10 Bhagwan Mahavir Institute of Engineering & Technology Sonapat
- 11 Bhagwan Parshuram Engineering College, Gohana, Sonapat
- 12 Hindu College of Engineering, Sonapat.
- 13 Bharat Institute of Technology, Sonapat.
- 14 BRCM College of Engineering & Technology, Distt. Bhiwani
- 15 CBS Group of Institutions. Jhajjar.
- 16 Darsh Institute of Engineering & Technology, Sonapat

- 17 DAV College of Engineering & Technology, Kanina, Mahendargarh
- 18 Delhi Engineering College, Village Ladlyapur, Tehsil Ballabgarh, Distt. Faridabad.
- 19 E-max School of Engineering & Applied Research. Ambala
- 20 Geeta Institute of Management and Technology Kurukshetra
- 21 GITM Institute of Technology, Bilaspur-Tauru Road, Gurgaon
- 22 Global Institute of Technology & Management Gurgaon
- 23 Gurgaon Institute of Technology and Management,
- 24 Guru Nanak Institute of Technology,. Ambala
- 25 Haryana College of Technology & Management, Kaithal
- 26 Haryana Engineering College, Yamuna Nagar
- 27 International Institute of Technology & Management, Sonapat
- 28 International Institute of Technology and Business, Sonipat.
- 29 Jan Nayak Ch. Devi Dayal College of Engineering, Sirsa.
- 30 Jan Nayak Ch. Devi Dayal College of Engineering, Sirsa.
- 31 Jind Institute of Engineering & Technology, Jind
- 32 Kalpi Institute of Technology Ambala.
- 33 KIIT College of Engineering, Sohna Bhondsi Road, Gurgaon
- 34 Kurukshetra Institute of Technology & Management, Kurukshetra
- 35 P.D. Memorial College of Engineering, Jhajjar
- 36 R.N. College of Engineering & Management, Rohtak.
- 37 R.N. College of Engineering & Technology, Panipat.
- 38 Rattan Institute of Technology & Management, Faridabad.
- 39 Tek Chand Mann College of Engineering,

- 40 Sonapat
- Yamuna Institute for Engineering & Technology, Yamuna Nagar

### UPCOMING

- Aravali College of Engineering & Management, Faridabad
- Asia Pacific Institute of Information Technology SD India, Panipat
- Bhiwani Institute of Technology & Sciences, Bhiwani
- Delhi College of Technology & Management Faridabad.
- Delhi Institute of Technology & Management, Baraut, Ganaur, Sonapat
- D.P.G. Institute of Technology & Management, Gurgaon.
- Doon Valley Institute of Engineering and Technology, Karnal
- Gateway Institute of Engineering & Technology, Sonapat
- International Institute of Engineering & Technology, Kurukshetra.
- Maharana Partap Institute of Technology & Management, Mohindergarh.
- Maharishi Ved Vyas Engineering, Jagadhri
- Manav Institute of Technology & Management,
- Mata Raj Kaur Institute of Engineering & Technology, Rewari.
- Matu Ram Institute of Engineering & Management, Rohtak
- Rawal Institute of Engineering & Technology, Faridabad.
- Rukmini Devi College of Engineering & Allied Sciences, Sonapat.
- Satyug Darshan Institute of Engineering & Technology, Faridabad.
- Shivalik Institute of Engineering & Technology, Ambala

- Shree Ram College of Engineering and Management, Faridabad
- Somany (P.G.) Institute of Technology & Management, Rewari
- South Point Institute of Technology & Management, Sonapat
- Suraj College of Engineering & Technology, Mahenderguruh
- Swami Devi Dayal Institute of Engineering & Technology Barwala
- Swami Devi Dyal Institute Engineering, Panchkula
- Technology Education & Research Institute, Kurukshetra
- World Institute of Technology, Gurgaon

## **HIMACHAL PRADESH**

### **GOOD**

- 1 IITT College of Engineering, Kala Amb
- 2 IIIT Una - Indian Institute of Information Technology, Una.
- 3 Shiva Institute of Engineering and Technology, Bilaspur
- 4 Himalayan Institute of Engineering and Technology, Kala Amb
- 5 Vaishno College of Engineering, Kangra
- 6 Himachal Institute of Engineering and Technology, Shahpur
- 7 Dev Bhumi Institute of Engineering and Technology, Una
- 8 Bells Institute of Management and Technology, Shimla
- 9 Akal College of Engineering and Technology, Sirmour
- 10 Maharaja Agrasen Institute of Technology, Solan
- 11 MIT College of Engineering and Management, Hamirpur

- 12 Abhilashi Group of Institutions School of Pharmacy and Engineering and Technology, Mandi
- 13 TR Abhilashi Memorial Institute of Engineering and Technology, Mandi
- 14 Green Hills Engineering College, Kumarhatti
- 15 KC Institute of Technology, Pandoga

## **JAMMU & KASHMIR**

### **VERY GOOD**

- 1 Model Institute of Engineering and Technology, Jammu
- 1 Mahant Vaslmits Singh College of Engineering & Technology.
- 2 SSM College of Engineering , Baramulla

### **AVERAGE**

- Bhargov College of Engineering & Technology, Langth.
- Yogananda College of Engineering and Technology, Jammu

## **PUNJAB**

### **EXCELLENT**

- 1 CEC Landran - Chandigarh Engineering College, Landran Campus
- 2 GGI Ludhiana - Gulzar Group of Institutes
- 3 Universal Institute of Engineering and Technology, Mohali

### **VERY GOOD**

- 4 ACET Amritsar - Amritsar College of Engineering and Technology
- 5 BBSBEC Fatehgarh Sahib - Baba Banda Singh Bahadur Engineering College
- 6 Regional Institute of Management and Technology, Gobindgarh
- 7 G.G.S College of Modern Technology
- 8 Indo Global College of Engineering

- 9 Beant College of Engineering And Technology
- 10 CGC Technical Campus
- 11 Ludhiana College of Engg. & Tech.
- 12 Punjab College of Engg. & Tech Patiala

**GOOD**

- 13 Rayat Bahra Institute of Engg & Nano Technology
- 14 Rayat Institute of Engineering & Information Technology

**UPCOMING**

- Anand College of Engineering & Management
- Doaba Khalsa Trust Group of Institutions
- Guru Nanak Institute of Engineering And Management
- Shivshankar Institute of Engg. & Tech

**UTTAR PRADESH**

**EXCELLENT**

- 1 Ajay Kumar Garg Engineering College
- 1 Krishna Institute of Engg. & Technology
- 1 J.S.S Academy of Technical Education
- 1 Galgotia College of Engg. & Technology
- 1 Academy of Business & Engineering Sciences
- 1 G.L Bajaj Institute of Tech & Mgmt. G. Noida
- 1 Meerut Institute of Engg. & Technolgy

**VERY GOOD**

- 2 Noida Institute of Engg. & Technology
- 2 B.B.D National Institute of Tech & Management
- 2 United Collage of Engg. & Research, Prayagraj
- 2 SRSM College of Engg. & Management, Lucknow
- 2 PSIT, Kanpur
- 3 IMS Engineering Collage
- 3 Shri Rammurti Smarak College of Engg. & Tech.

- 4 IEC Collage of Engg. & Technolgy
- 5 Hindustan Callage of Science & Technology
- 7 S.D College of Engg. & Technolgy
- 8 Saroj Institute of Technology & Management
- 9 IIMT College of Engg., Greater Noida
- 10 G.L Bajaj Institute of Engg. & Tech., Mathura
- 11 Sunderdeep Engineering Research
- 12 Maharana Pratap Engineering College
- 13 Anand Engineering Collage
- 14 K.N Modi Institute of Engg. & Technology
- 15 Raj Kumar Goel Institute of Technolgy
- 16 Accurate Institute of Management & Technology
- 17 ABES Institute of Technology
- 18 ILMCE & T, Greater Noida

**GOOD**

- 19 AXIS institute of technology, Kanpur
- 20 I T S Engineering Callage, Greater Noida
- 21 Greater Noida Institute of Technology
- 22 Bharat Institute of Technology
- 23 Indraprastha Institute of Engg. & Tech.
- 24 Northan Indian Engineering College
- 25 Kanpur Institute of Technology
- 26 B.B.S. College of Engg. & Tech.
- 27 DIT School of Engineering
- 28 Moradabad Institute of Technology
- 29 Krishna Engineering College
- 30 R.R. Institute of Modern Technology
- 31 United College of Engg. & Research, Greater Noida
- 32 Ambalika Institute of Technolgy
- 33 Institute of Technology & Mgmt., Gorakhpur
- 34 Skyline Institute of Engg. & Technolgy
- 35 J.P. Institute of Engg. & Technology
- 36 R.D. Engineering College, Duhai
- 37 College of Engineering & Technology, IILM Academy for Higher Learning

- 38 Sachdeva Institute of Technology
- 39 Deewan V.S. Institute of Engineering & Technology
- 40 Ashoka Institute of Technology & Management
- 41 Bhaba Institute of Engineering Technology

**UPCOMING**

- Shivadan Singh Institute of Technology and Management
- Aligarh College of Engineering & Technology
- LDC Institute of Technical Studies
- United Institute of Technology
- United College of Engineering & Management
- B.B.S. Institute of Management & Technology
- Kali Charan Nigam Institute of Technology
- Shri Ram Murti Smarak College of Engineering & Technology, Lucknow
- Shri Ram Murti Smarak Women College of Engineering & Technology
- Shri Siddhi Vinayak Institute of Technology
- Veera College of Engineering
- Marathwada Institute of Technology
- Vishveshwarya Institute of Engg. and Tech.
- Sunder Deep College of Engineering & Technology, Dasna
- Kipm-College of Engineering & Technology
- Greater Noida Institute of Technology
- I.T.S. Engineering College
- Dronacharya College of Engineering
- DIT School of Engineering
- KCC Institute of Technology and Management
- Greater Noida College of Technology
- Prasad Institute OF Technology
- Goel Institute of Technology & Management
- Himalayan Institute of Technology & Management
- S.R. Institute of Management & Technology
- B.S.A. College of Engineering & Technology

- Vidya College of Engineering
- Mahatma Gandhi Mission College of Engineering & Technology
- Dev Bhoomi Groups of Institutions
- Shamli Institute of Engineering & Technology, Shamli-Karnal Road, Jhinhana
- Kashi Institute of Technology
- Bhabha Institute of Technology, Kanpur, Dehat
- Dr. Rizvi College of Engineering, Karari

**UTTARAKHAND**

**VERY GOOD**

- 1 COER Roorkee - College of Engineering Roorkee
- 2 Quantum School of Technology, Roorkee
- 3 RCE Roorkee - Roorkee College of Engineering
- 4 UIT Dehradun - Uttaranchal Institute of Technology

**GOOD**

- 5 JBIT Dehradun - JB Institute of Technology
- 6 Tula's Institute Dehradun - Tula's Institute
- 6 Birla Institute of Applied Sciences, Bhimtal
- 7 Dev Bhoomi Institute of Technology and Engineering, Manduwala, Dehradun.
- 8 Roorkee Institute of Technology, Roorkee

**UPCOMING**

- 9 Amrapali Institute of Technology and Science, Haldwani
- 10 Doon College of Engg. & Technology
- 11 Doon Institute of Engineering & Technology
- 12 Institute of Technology Roorkee
- 13 Phonics School of Engineering & Business Administration

## WEST & CENTRAL ZONE - BEST ENGINEERING COLLEGES

- MPSTME Mumbai - Mukesh Patel School of Technology Management and Engineering
- Bhili Institute of Technology, Durg.
- LNCT Bhopal - Lakshmi Narain College of Technology
- GGITS Jabalpur - Gyan Ganga Institute of Technology and Sciences
- IES College of Technology, Bhopal
- JLU School of Engineering and Technology, Bhopal
- Sagar Institute of Research and Technology, Bhopal
- SGSITS Indore - Shri Govindram Seksaria Institute of Technology and Science
- TIT Bhopal - Technocrats Institute of Technology
- IPS Academy Indore - Institute of Engineering and Science IPS Academy
- Lakshmi Narain College of Technology Excellence, Bhopal
- LNCTS Bhopal - Lakshmi Narain College of Technology and Science
- OIST Bhopal - Oriental Institute of Science and Technology
- SISTEC Bhopal - Sagar Institute of Science and Technology
- AIT Pune - Army Institute of Technology
- BVUCOE Pune - Bharati Vidyapeeth Deemed University College of Engineering
- DJSCE Mumbai - Dwarkadas J Sanghvi College of Engineering
- GHRCE Nagpur - GH Rasoni College of Engineering
- KJ Somaiya College of Engineering, Mumbai
- MKSSS's Cummins College of Engineering for Women, Pune
- JSPM's Rajarshi Shahu College of Engineering Tathawade - Rajarshi Shahu College of Engineering
- SPIT Mumbai - Sardar Patel Institute of Technology
- RCOEM Nagpur - Shri Ramdeobaba College of Engineering and Management
- SIT Pune - Symbiosis Institute of Technology
- VIIT Pune - Vishwakarma Institute of Information Technology
- VIT Pune - Vishwakarma Institute of Technology
- YCCE Nagpur - Yeshwantrao Chavan College of Engineering

### CHHATTISGARH

#### EXELLANT

- 1 Bhili Institute of Technology, Durg.

#### VERY GOOD

- 2 Rungta College of Engineering & Technology, Raipur & Durg.
- 3 Shri Shankaracharya Group of Institutions-Faculty of Engineering and Technology, Bilai Very Good
- 4 Bhili Institute of Technology, Raipur

- 5 Chhatrapati Shivaji Institute of Technology
- 6 MMCT
- 7 Shri Shankaracharya Institute of Technology and Management Bilai

#### GOOD

- 8 Chouksey Engineering College, Bilaspur
- 9 Shri Shankaracharya Engineering College Bilai
- 10 Christian College of Engineering and Technology, Bilai
- 11 Disha Institute of Management And

- Technology, Raipur
- 12 JK Institute of Engineering, Bilaspur
  - 13 Kirodimal Institute of Technology, Raigarh
  - 14 Kruti Institute of Technology & Engineering, Raipur
  - 15 Lakmi Chand Institute of Technology, Bilaspur
  - 16 Central College of Engineering and Management, Raipur
  - 17 Chhattisgarh Institute of Technology, Rajnandgaon
  - 18 Chhattisgarh Institute of Management and Technology, Bhilai
  - 19 Columbia Institute of Engineering and Technology, Raipur
  - 20 Raipur Institute of Technology, Raipur

**UPCOMING**

- Parthivi College of Engineering and Management, Bhilai
- Shri Rawatpura Sarkar Institute of Technology, Raipur
- Shri Shankarcharya Institute of Professional Management and Technology, Raipur

**MADHYA PRADESH**

**EXELLANT**

1. LNCT Bhopal - Lakshmi Narain College of Technology

# MAT EXAM PATTERN 2022

AT Exam Pattern 2022 for September exam will have three testing modes and it offers more chances to improve your score in choosing the preferred modes of two exams. September MAT 2022 will be conducted as Paper Based MAT and Computer based test at test centres as well as Remote Proctored Internet Based Test (IBT) MAT which you may take from your home.

There are two PBT and two CBT MAT exams, while there is more than a week-long IBT MAT testing window. MAT exam dates are from September 11 to Sept 25, 2022 for different MAT testing modes. AIMA has also introduced Remote Proctored Internet Based Mode (IBT). Candidates can appear in the IBT-MAT from the convenience of their home instead of going to an exam centre.

The IBT MAT is scheduled in morning and evening time slots, while CBT and PBT MAT will be held in a single session on each of the two dates at different test centres

## MAT 2022 September Exam: Testing Modes and Schedule

Following three modes of September MAT exam will be held on different dates as below :

### 1. MAT Testing Mode-1

#### 1.1 MAT Sep 2022 Computer Based Test-1 (CBT-1): Exam on Sep 11

- Registration start Date: June 10, 2022
- Last Date for Registration: September 6, 2022
- Admit Card Release: Sep 8, 2022
- CBT MAT Exam Date 2022: Sep 11, 2022

#### 1.2 MAT 2022 Computer Based Test-2 (PBT-2): Exam

#### on Sep 25

- Registration start Date: June 10, 2022
- Last Date for Registration: Sep 20, 2022
- Admit Card Release: Sep 22, 2022
- CBT MAT Exam Date 2022: Sept 25, 2022

### 2. MAT Testing Mode-2

#### 2.1 MAT 2022 Paper Based Test-1 (PBT-1): Exam on Sep 11

- Registration start Date: June 10, 2022
- Last Date for Registration: Sep 6, 2022

- Registration start Date: June 10, 2022
- Last Date for Registration: Sep 20, 2022
- Admit Card Release: Sep 22, 2022
- PBT MAT Exam Date 2022: September 25, 2022

### 3. MAT Testing Mode-3: MAT 2022 IBT Exam: Long Testing Window

- MAT 2022 IBT Exam dates are revised with more exam slots made available to Sep MAT 2022 aspirants. IBT MAT is scheduled in morning and evening time slots in more than a week-long testing window. The MAT IBT exam dates are from September 15 to 23, 2022. A Detailed Schedule with all important dates for AIMA MAT Sep 2022 Internet Based Mode (IBT Mode) exam will be released by AIMA shortly.

#### MAT 2022 Computer Based Test (CBT) at Test Centers

- AIMA is conducting Sep MAT 2022 in CBT and PBT Mode twice. The candidates can apply and appear in CBT and PBT mode at test centres for Sep MAT 2022

### Facility to Appear in 1 or 2 MAT 2022 Exams

Following options of MAT exam pattern 2022 are available to choose your preferred testing mode. You can opt for one or two MAT Exams 2022 and select your preferred MAT Sep exam 2022:

1. Remote Proctored Internet Based Test (IBT) or
2. Double Remote Proctored Internet Based Test (IBT) or
3. Paper Based Test (PBT) or
4. Paper Based Test and Remote Proctored Internet Based Test (PBT+IBT) or
5. Double Paper Based Test (PBT) or
6. Computer Based Test (CBT) or
7. Computer Based Test and Remote Proctored Internet Based Test (CBT+IBT) or
8. Paper Based Test and Computer Based Test (PBT+CBT)

- If you are opting for 2 MAT 2022 exams, you will have the benefit of selecting additional 2 Management Institutes for sending your scores in addition to existing option of selecting 5 Management Institutes. It means you can select 7 Management Institutes in total.
- MAT 2022 IBT is the new type of MAT from your home exam

### Important Guidelines and Benefits

You can opt for two MAT 2022 Sep tests by paying an extra fees of Rs.1100/- in addition to Rs.1650/- for one test as per following details:

<b>One MAT Exam 2022 Registration</b>	
For Remote Proctored Internet Based Test (IBT) or Paper Based Test (PBT) or Computer Based Test (CBT)	<b>Rs. 1850/-</b>
<b>Two MAT Exam 2022 Registration</b>	
For 2 Remote Proctored Internet Based Test (IBT) Exams For PBT+IBT For 2 PBT Exams For 2 CBT Exams For PBT+CBT For 2 CBT Exams For CBT+PBT or CBT+IBT	<b>Rs. 2975/-</b>

- If you are opting for one MAT 2022, you can select 5 management institutes where your scores will be sent free for admission

### MAT 2022 Exam Pattern: Same for all Modes

MAT 2022 Exam Pattern is changed to the extent that AIMA has announced to conduct two PBT and two CBT exam in the same month. So, now Sep MAT 2022 exam pattern will be conducted in three modes with more test taking options. The exam consists of 200 MCQ type questions divided in 5 sections. Each MAT 2022 exam pattern consists of time duration of two and half hours for IBT and PBT exams.

AIMA (All India Management Association) has been conducting MAT exam since 1988 for MBA admission four times in one year without any substantial changes in the MAT 2022 exam pattern. Scores of MAT 2022 September exam will be used as admission criteria in B-schools across the country for the MBA/PGDM 2022.

### MAT Exam 2022 Pattern : Highlights

MAT exam 2022 pattern has a moderate difficulty. It is a national level MBA entrance exam. Some of the key highlights of MAT 2022 Sep exam pattern are:

Question related to MAT Exam 2022 Pattern	Answer related to MAT Pattern
<b>MAT Conducting Body</b>	All India Management Association (AIMA)
<b>Total MAT Exams in a Year</b>	Held in February, May, September, December
<b>Number of MBA colleges under MAT Exam</b>	400+
<b>Mode of MAT 2021</b>	CBT, IBT and PBT
<b>Number of MAT exam you can apply for</b>	2
<b>MAT Application Fee</b>	Rs.1850/- for 1 MAT exam; Rs. 2975/- for 2 MAT exams
<b>MAT Full Form</b>	Management Aptitude Test
<b>MAT Score Validity for MBA Admission</b>	One academic session
<b>Total Questions in MAT</b>	200
<b>Sectional Division of MAT Exam 2022</b>	5 Sections with 40 Questions in Each Section
<b>MAT Difficulty Level</b>	Easy to Moderate
<b>Required MAT Percentile for MBA admission in Top Colleges</b>	90+
<b>Importance of Taking MAT 2022 Sep exam</b>	Offers MBA admission opportunity in 2022 & in 2023; also Offers opportunity to improve rank & score
<b>MAT Application process</b>	Online

- Each section in MAT question paper will have 40 questions. Total questions are 200
- All questions are in MCQ format.
- Total exam time duration to solve the MAT question paper is 150 minutes.
- Although, individual time limit for each section has been suggested by AIMA, there is no restriction to move from one section to other freely within overall time limit in the MAT 2022 Sep exam pattern

### **MAT Sep 2022 Exam Pattern: Sectional Composition**

Sectional composition of MAT Sep 2022 Exam Pattern with number of questions in each section and suggested time to attempt the complete section is as follows

### **Key Facts about MAT Exam 2022 Pattern**

MAT is an objective type test with Multiple-Choice Questions (MCQs). Here are the key details about the MAT 2022 Sep exam Pattern:

- MAT Exam pattern 2022 consists of 200 Objective Type Questions (MCQs)
- MAT Questions are of easy to

### **MAT 2022 Exam Pattern: Overall**

- There are 5 sections with equal number of questions in MAT Sep 2022 exam pattern.

Section Name	Number of Questions	Suggested Time to solve (In Minutes)
<b>Language Comprehension</b>	40	30
<b>Intelligence and Critical Reasoning</b>	40	30
<b>Data Analysis and Sufficiency</b>	40	35
<b>Mathematical Skills</b>	40	40
<b>Indian and Global Environment</b>	40	15
<b>Total</b>	200	150

moderate difficulty level

- The 5 test sections in MAT 2022 exam are Language Comprehension, Mathematical skills, Data Analysis and Sufficiency, Intelligence and Critical Reasoning, Indian and Global Environment.

### **MAT 2022 Exam Pattern: How to answer MAT questions?**

- You have to choose the correct answer option out of the multiple choices given below the question
- Mark the correct answer option on the answer sheet if appearing in Paper Based Test
- Click on the correct answer option if appearing in CBT or IBT MAT
- Time duration to complete the MAT exam as per the MAT 2022 September exam pattern is 2 hours 30 minutes
- Each correct answer is awarded +1 Mark
- Each wrong answer is penalized with -0.25 negative mark

### **Difficulty Level in MAT 2022 Exam Pattern**

MAT exam difficulty level is easy to moderate. Past MAT question papers and the MAT exam 2022 pattern reveals that MAT Exam does not throw tough questions.

### **GK Section in MAT: Not Counted for Percentile Calculation**

Score and percentile in MAT exam is awarded on the basis of 4 sections. The MAT score of Indian & Global Environment is separately shown in the MAT score card, but it is not taken into account to calculate the merit or percentile score in the MAT score card.

### **IBT MAT Exam 2022 Pattern: Key Features**

AIMA has introduced "Remotely Proctored Internet Based Test (IBT)" with a longer testing window. It is an online internet based test like other computer based entrance tests with the only difference that the exam is taken from the convenience at home instead of going to a test centre. The AIMA proctor will keep a watch on all activities online during the complete testing session.

- IBT MAT has same number of questions and sections as were there in paper based and computer based MAT
- IBT-MAT pattern has same time duration of 150 minutes, same scoring pattern and percentile calculation process as is applied in PBT and CBT MAT
- For taking the test in IBT mode, instead of going to a test centre candidates could do so from the safe confines and convenience of their homes subject to certain conditions.
- Only the candidates with a computer attached with webcam and internet facilities meeting certain specifications may appear

in IBT exam.

- The sanctity and security of the test is effectively maintained through remote proctoring in dual mode i.e., by employing robust Artificial Intelligence (AI) based tools as also human proctors.
- In order to help candidates to familiarize themselves with this new mode of testing, AIMA has also scheduled mock MAT-IBT sessions
- These IBT mock tests replicate the testing environment and help candidates build familiarity with the same. This ensures that the candidates are adequately prepared for the main test.
- Candidates now have the option to choose any one or more modes of test i.e., IBT, PBT and CBT. However the dates for CBT exams are not announced yet.

### **MAT 2022 Exam Pattern Vs CAT, XAT, NMAT, ATMA MBA Entrance Exams**

MAT exam 2022 pattern is not much different than the other national level MBA entrance exams. Quick comparison of MAT Sep 2022 exam pattern with other National level exams is given below:

### **MAT 2022 Exam Pattern Vs IIMs CAT**

MAT exam pattern 2022 and IIMs CAT exam have many similarities which give the opportunity to the candidates to synchronise their sectional and overall exam preparation. A quick analysis between MAT exam pattern and CAT will bring home the facts:

Component	MAT 2022	IIMs CAT 2021
<b>Total Questions</b>	200	66
<b>Overall Time Limit to Attempt the Exam</b>	2½ hours	2 hours
<b>Question Format</b>	All MCQs	70% questions are MCQs, rest Non-MCQs
<b>Answer Options for MCQs</b>	4	4
<b>Marks Awarded for Each Correct Answer</b>	1	3
<b>Negative Marking</b>	0.25 mark	MCQs with 1/3 negative marking; No negative marking for Non-MCQs
<b>Exam Difficulty Level</b>	Easy to Moderate	Difficult
<b>Number of Sections</b>	5	3
<b>Section-1: Name and Number of Questions</b>	Language Comprehension: 40	Verbal Ability & Reading Comprehension: 24
<b>Section-2: Name and Number of questions</b>	Intelligence & Critical Reasoning: 40	Data Interpretation & Logical Reasoning -20
<b>Section-3: Name and Number of Questions</b>	Data Analysis & Sufficiency: 40	Quantitative Ability-22
<b>Section-4: Name and Number of Questions</b>	Mathematical Skills: 40	Not Applicable
<b>Section-5: Name and Number of Questions</b>	Indian & Global Environment: 40	Not Applicable
<b>Facility to Choose Order of Sections</b>	Yes, any section/question within overall time limit	No, should follow pre defined sectional order
<b>Individual Sectional time limit</b>	No, Candidate to complete the test in 150 minutes	Yes, each section with 40 Minutes time limit
<b>Top MBA colleges accepting exam score</b>	Christ University, NDIM, DSIMS, IPE, IESMCRC, FIIB among 600 MBA colleges	20 IIMs, FMS, MDI, NITIE, SPJIMR, IMI, IMT, IITs, TAPMI, XIMB and hundreds of others

<b>Institute of Mathematical Sciences (IMSc) (Academics)</b>	Chennai
<b>Institute of</b>	Bhubaneswar

<b>Physics (Academics)</b>	
<b>Institute of Rural Management (Civil Service)</b>	Anand
<b>Institute of Secretariat Training and Management (Civil Service)</b>	New Delhi
<b>Institute for Studies in Industrial Development (Civil Service)</b>	New Delhi
<b>International Institute for Population Sciences (Civil Service)</b>	Mumbai
<b>Jawaharlal Institute of Postgraduate Medical Education &amp; Research (Medical)</b>	Pondicherry
<b>Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR) (Civil Service)</b>	Bangalore
<b>King Institute of Preventive Medicine and Research (Medical)</b>	Chennai
<b>Lakshmibai National Institute of Physical Education (LNIFE) (Physical Education)</b>	Gwalior
<b>Malaviya Centre for Peace Research<sup>[14]</sup>(Defence Service)</b>	Varanasi
<b>Marine Engineering and Research Institute (Engineering)</b>	Kolkata
<b>Maulana Abul Kalam Azad Institute of Asian Studies (Civil Service)</b>	Kolkata
<b>Morarji Desai National Institute of Yoga (Allied Healthcare)</b>	New Delhi
<b>National Academy of Agricultural Research Management (Natural</b>	Rajendranagar

<b>Resource)</b>	
<b>National Academy of Agricultural Sciences (Natural Resource)</b>	New Delhi
<b>National Academy of Construction (Architecture )</b>	Hyderabad
<b>National Academy of Customs Excise and Narcotics (NACEN) (Civil Service)</b>	Kolkata, Hindupur
<b>National Academy of Defence Production (Civil Service)</b>	Nagpur
<b>National Botanical Research Institute (NBRI) (Natural Resource)</b>	Lucknow
<b>National Brain Research Centre (NBRC) (Medical)</b>	Manesar
<b>National Centre for Polar and Ocean Research (Natural Resource)</b>	Goa
<b>National Civil Defence College (Defence Service/Civil Service)</b>	Nagpur
<b>National Dairy Research Institute (Natural Resource)</b>	Karnal (Haryana)
<b>National Defence College of India (Defence Service)</b>	Delhi
<b>National Environmental Engineering Research Institute (Natural Resource)</b>	Nagpur
<b>National Forensic Sciences University (NFSU) (Forensic Science)</b>	Gandhinagar, Delhi, Pond a , Agartala
<b>National Institute of Advanced Manufacturing Technology(NIAMT) (Previously NIFFT) (Applied Science)</b>	Ranchi
<b>National Institute for</b>	Hyderabad

<b>Micro, Small and Medium Enterprises (Civil Service)</b>	
<b>National Institute of Agricultural Extension Management (Natural Resource)</b>	Hyderabad
<b>National Institute of Agricultural Marketing (Civil Service/Natural Resource)</b>	Jaipur
<b>National Institute of Animal Welfare (Natural Resource/Civil Service)</b>	
<b>National Institute of Construction Management and Research (Architecture)</b>	Mumbai
<b>National Institute of Design (Design)</b>	Ahmedabad, Bangalore, Hyderabad, Kurukshetra, Jorhat, Bhopal, Vijayawada
<b>National Institute of Disaster Management (Civil Service)</b>	New Delhi
<b>National Institute of Electronics &amp; Information Technology (NIELIT) (Computer Application)</b>	Ajmer, Agartala, Aizawl, Aurangabad, Calicut, Chennai, Chandigarh, Delhi, Gorakhpur, Gangtok, Guwahati, Imphal, Itanagar, Jammu, Kohima, Kolkata, Leh, Lucknow, Patna, Ranchi, Shillong, Srinagar, Tezpur
<b>National Institute of Fashion Technology (Fashion)</b>	Bangalore, Bhopal, Bhubaneswar, Chennai, Gandhinagar, Hyderabad, Jodhpur, Kangra, Kannur, Kolkata, Mumbai, Patna, Raebareilly, Shillong
<b>National Institute of Homoeopathy (Medical)</b>	Kolkata
<b>National Institute of Hydrology (Natural Resource)</b>	Belgaum, Roorkee
<b>National Institute of</b>	Mumbai

<b>and Information Resources (Civil Service)</b>	
<b>National Institute of Science Education and Research (NISER) (Academics)</b>	Bhubaneswar
<b>National Institute of Securities Markets (NISM) (Civil Service/Finance)</b>	Navi Mumbai
<b>National Seed Research and Training Centre<sup>[15]</sup> (Natural Resource)</b>	Varanasi
<b>National Institute Of Technical Teachers Training and Research (Academics)</b>	Bhopal, Chandigarh, Chennai and Kolkata
<b>National Institute of Technology (Engineering)</b>	Agartala, Aizawl, Allahabad, Bhopal, Chümoukedima, Durgapur, Goa, Hamirpur, Imphal, Jaipur, Jalandhar, Jamshedpur, Karaikal, Calicut, Kurukshetra, Nagpur, New Delhi, Patna, Raipur, Sikkim, Rourkela, Shillong, Silchar, Srinagar, Surat, Surathkal, Trichy, Tadepalligudem, Warangal, Yupia
<b>National Institute of Urban Affairs (Civil Service)</b>	New Delhi
<b>National Institute of Water Sports (Physical Education)</b>	Goa
<b>National Museum Institute of the History of Art, Conservation and Museology (NMIHACM) (Civil Service)</b>	New Delhi
<b>National Power Training Institute (Civil Service/Engineering)</b>	Faridabad
<b>National Sugar Institute (Civil Service)</b>	Kanpur

<b>National Tuberculosis Institute (Medical)</b>	Bangalore
<b>National Institute of Homoeopathy (NIH) (Medical)</b>	Kolkata
<b>Netaji Subhas National Institute of Sports (NSNIS) (Physical Education)</b>	Patiala
<b>North Eastern Regional Institute of Science and Technology (NERIST) (Engineering)</b>	Itanagar
<b>Physical Research Laboratory (PRL) (Academics)</b>	Ahmedabad
<b>Punjab Engineering College (PEC) (Engineering)</b>	Chandigarh
<b>Raman Research Institute (RRI)</b>	Bangalore
<b>Rajiv Gandhi National Institute of Intellectual Property Management<sup>[16]</sup>(Civil Service)</b>	Nagpur
<b>Rajiv Gandhi Institute of Petroleum Technology (Civil Service/Engineering/Natural Resource)</b>	Rae Bareli
<b>Saha Institute of Nuclear Physics (Civil Service)</b>	Kolkata
<b>Sanjay Gandhi Postgraduate Institute of Medical Sciences (Medical)</b>	Lucknow
<b>Sant Longowal Institute of Engineering and Technology(SLIET) (Engineering)</b>	Sangrur
<b>Satyajit Ray Film and Television Institute (Entertainment)</b>	Kolkata
<b>S.N. Bose National Centre for Basic</b>	Kolkata

<b>Sciences (SNBNCBS)(Academics)</b>	
<b>School of Planning and Architecture (Architecture)</b>	Vijayawada, Bhopal, Delhi
<b>Sher-i-Kashmir Institute of Medical Sciences (Medical)</b>	Srinagar
<b>State Institute of Public Administration and Rural Development (Civil Service)</b>	Agartala
<b>Tata Institute of Fundamental Research (TIFR) (Civil Service)</b>	Mumbai, Hyderabad
<b>Tata Institute of Social Sciences (Academic)</b>	Mumbai, Hyderabad, Guwahati, Tuljapur
<b>V. V. Giri National Labour Institute(Civil Service)</b>	New Delhi
<b>Variable Energy Cyclotron Center (Natural Resource)</b>	Kolkata

# TOP 100 GOVERNMENT ENGINEERING COLLEGES IN INDIA

Given below is the list of Top 100 Government Engineering Colleges in India 2022 with Ranking.

## List of Top 100 Government Engineering Colleges in India 2022

1. IIT Madras, Chennai
2. IIT Delhi, New Delhi
3. IIT Bombay, Mumbai
4. IIT Kharagpur
5. IIT Kanpur
6. IIT Roorkee
7. IIT Guwahati
8. IIT Hyderabad
9. Anna University, Chennai
10. NIT Tiruchirappalli
11. IIT BHU Varanasi
12. ICT Mumbai
13. IIT Indore
14. Jadavpur University, Kolkata
15. IIT ISM Dhanbad
16. NIT Rourkela
17. IIT Bhubaneswar
18. IEST Shibpur
19. IIT Mandi
20. NIT Karnataka, Surathkal
21. IIT Patna
22. IIT Gandhinagar
23. NIT Warangal
24. Jamia Millia Islamia, New Delhi
25. NIT Calicut
26. IIT Ropar
27. IIST Thiruvananthapuram
28. VNIT Nagpur
29. Delhi Technological University, New Delhi
30. Aligarh Muslim University, Aligarh
31. NIT Kurukshetra
32. MNNIT Allahabad
33. Jawaharlal Nehru Technological University, Hyderabad
34. NIT Durgapur
35. College of Engineering, Pune
36. IIT Jodhpur
37. NIT Silchar
38. MNIT Jaipur
39. Panjab University, Chandigarh
40. IIIT Delhi
41. SVNIT Surat
42. College of Engineering, Visakhapatnam
43. NIT Hamirpur
44. MANIT Bhopal
45. IIIT Bangalore
46. NIT Meghalaya, Shillong
47. Coimbatore Institute of Technology, Coimbatore
48. NIT Agartala
49. NIT Raipur
50. IIITDM Jabalpur

51.	ABV IITM Gwalior	78.	College of Engineering and Technology, Bhubaneswar
52.	IIT Allahabad	79.	College of Engineering, Trivandrum
53.	University College of Engineering, Hyderabad	80.	Government College of Engineering and Technology, Jammu
54.	Dayalbagh Educational Institute, Agra	81.	Guru Nanak Dev Engineering College, Ludhiana
55.	Shri Mata Vaishno Devi University, Katra	82.	Harcourt Butler Technical University, Kanpur
56.	NIT Goa	83.	MBM Engineering College, Jodhpur
57.	Sri Venkateswara University, Tirupati	84.	Madras Institute of Technology, Chennai
58.	Government College of Technology, Coimbatore	85.	National Dairy Research Institute, Karnal
59.	University College of Engineering, Kakinada	86.	NIT Nagaland, Dimapur
60.	VJTI Mumbai	87.	Pondicherry Engineering College, Puducherry
61.	Tamil Nadu Veterinary & Animal Sciences University, Chennai	88.	Punjab Engineering College, Chandigarh
62.	Dr. B. R. Ambedkar NIT Jalandhar	89.	Sant Longowal Institute of Engineering and Technology, Longowal
63.	School of Engineering, Cochin University of Science and Technology, Cochin	90.	University Institute of Engineering and Technology, Kurukshetra University
64.	NIFTEM Sonipat	91.	Alagappa Chettiar College of Engineering and Technology, Karaikudi
65.	The Rashtrasant Tukadoji Maharaj Nagpur University	92.	Alagappa College of Technology, Chennai
66.	Veer Surendra Sai University of Technology, Burla	93.	Bhilai Institute of Technology, Durg
67.	NIT Jamshedpur	94.	Bipin Tripathi Kumaon Institute of Technology, Dwarahat
68.	NIT Patna	95.	Deenbandhu Chhotu Ram University of Science and Technology, Murthal
69.	YMCAUST, Faridabad	96.	Dharmsinh Desai University, Nadiad
70.	G. B. Pant University of Agriculture and Technology, Pantnagar	97.	Dr Ambedkar Institute of Technology for Handicapped, Kanpur
71.	Maharaja Sayajirao University of Baroda	98.	University School of Information Communication and Technology, Delhi
72.	NIT Manipur	99.	College of Technology and Engineering, Maharana Pratap University of Agriculture and Technology, Udaipur
73.	Maulana Abul Kalam Azad University of Technology, Nadia	100.	College of Agricultural Engineering and Technology, Punjab Agricultural University, Ludhiana
74.	Indira Gandhi Delhi Technical University for Women, Delhi		
75.	JNTUA College of Engineering, Anantapur		
76.	IIITDM Kancheepuram		
77.	Annamalai University		

## LIST OF TOP IIT COLLEGES IN INDIA 2018

### LIST OF IIT

- Indian Institute of Technology (IIT) Gandhi Nagar
- Indian Institute of Technology (IIT) Bhubaneswar
- Indian Institute of Technology (IIT) Madras, Chennai
- Indian Institute of Technology (IIT) Guwahati
- Indian Institute of Technology (IIT) Indore
- Indian Institute of Technology (IIT) Kanpur
- Indian Institute of Technology (IIT) Jodhpur
- Indian Institute of Technology (IIT) Kharagpur
- Indian Institute of Technology (IIT) Hyderabad
- Indian Institute of Technology (IIT) Bombay, Mumbai
- Indian Institute of Technology (IIT) Patna
- Indian Institute of Technology (IIT) New Delhi
- Indian Institute of Technology (IIT) Ropar
- Indian Institute of Technology (IIT) Mandi
- Indian Institute of Technology (IIT) Roorkee
- Indian Institute of Technology (Banaras Hindu University) Varanasi
- Indian Institute of Technology (IIT) Jammu
- Indian Institute of Technology (IIT) Palakkad
- Indian Institute of Technology (IIT) Tirupati
- Indian Institute of Technology (IIT) Goa
- Indian Institute of Technology (IIT) Bhilai
- Indian Institute of Technology (IIT) Dharwad
- Indian Institute of Technology (Indian School of Mines) Dhanbad

### LIST OF NITS

- Dr. B.R. Ambedkar National Institute of Technology, Jalandhar, Punjab
- Malaviya National Institute of Technology Jaipur, Rajasthan
- Maulana Azad National Institute of Technology, Bhopal
- Motilal Nehru National Institute of Technology, Allahabad, U.P.
- National Institute of Technology, Mizoram
- National Institute of Technology, Warangal, Telangana
- National Institute of Technology, Yupia, Arunachal Pradesh
- National Institute of Technology, Silchar, Assam
- National Institute of Technology, Patna, Bihar
- National Institute of Technology, Calicut, Kerala
- National Institute of Technology, Raipur
- National Institute of Technology, Delhi
- National Institute of Technology, Goa
- National Institute of Technology, Hamirpur, H.P.
- National Institute of Technology, Kurukshetra, Haryana
- National Institute of Technology, Srinagar, J & K
- National Institute of Technology, Jamshedpur, Jharkhand
- National Institute of Technology, Manipur
- National Institute of Technology, Meghalaya
- National Institute of Technology, Nagaland
- National Institute of Technology, Rourkela, Orissa
- National Institute of Technology, Puducherry
- National Institute of Technology, Surathkal,

- Karnataka
- National Institute of Technology, Sikkim
- National Institute of Technology, Tiruchirapalli, Tamil Nadu
- National Institute of Technology, Agartala, Tripura
- National Institute of Technology, (Garhwal), Uttarkhand
- National Institute of Technology, Durgapur, West Bengal
- Sardar Vallabhbhai National Institute of Technology, Surat, Gujarat
- Visvesvaraya National Institute of Technology, Nagpur, Maharashtra
- National Institute of Technology, Tadepalligudam, AP
- IIM Visakhapatnam, Vishakhapatnam, Andhra Pradesh, iimv.ac.in
- IIM Bodh Gaya, Bodh Gaya, Bihar, iimbg.ac.in
- IIM Amritsar, Amritsar, Punjab, iimamritsar.ac.in
- IIM Sambalpur, Sambalpur, Odisha, iimsambalpur.ac.in
- IIM Sirmaur, Sirmaur, Himachal Pradesh iimsirmaur.ac.in
- IIM Jammu, Jammu, Jammu & Kashmir www.iimj.ac.in

### **LIST OF IIITS**

#### **IIM List: Complete List of IIM Colleges in India**

- IIM A Ahmedabad, Gujarat, www.iima.ac.in
- IIM C Kolkata, West Bengal, iimcal.ac.in
- IIM B Bangalore, Karnataka, iimb.ac.in
- IIM L Lucknow, Uttar Pradesh, iiml.ac.in
- IIM K Kozhikode, Kerala, iimk.ac.in
- IIM I Indore, Madhya Pradesh, iimidr.ac.in
- IIM Shillong, Shillong, Meghalaya, iimshillong.in
- IIM Rohtak, Rohtak, Haryana, iimrohtak.ac.in
- IIM Ranchi, Ranchi, Jharkhand, iimranchi.ac.in
- IIM Raipur, Raipur, Chhattisgarh, iimraipur.ac.in
- IIM Trichy, Tiruchirappalli, Tamil Nadu iimtrichy.ac.in
- IIM Kashipur, Kashipur, Uttarakhand iimkashipur.ac.in
- IIM Udaipur, Udaipur, Rajasthan, iimu.ac.in
- IIM Nagpur, Nagpur, Maharashtra iimnagpur.ac.in
- IIIT Gwalior
- IIIT Allahabad
- IIIT Jabalpur
- IIIT Kancheepuram
- IIIT Sri City, Chittoor
- IIIT Guwahati
- IIIT Vadodara
- IIIT Kota
- IIIT Srirangam
- IIIT Una
- IIIT Sonapat
- IIIT Kalyani
- IIIT Lucknow
- IIIT Dharwad
- IIIT Kurnool
- IIIT Kottayam
- IIIT Manipur
- IIIT Nagpur
- IIIT Pune
- IIIT Ranchi

# GOVERNMENT ENGINEERING COLLEGES (INCLUDING GOVERNMENT-AIDED)

## Kerala

1. College of Engineering, Trivandrum
2. Government Engineering College, Thrissur
3. Thangal Kunju Musaliar College of Engineering, Kollam
4. NSS College of Engineering, Palakkad
5. Mar Athanasius College of Engineering, Kothamangalam
6. Government College of Engineering, Kannur
7. Rajiv Gandhi Institute of Technology, Kottayam
8. Government Engineering College, Trivandrum
9. Government Engineering College, Kozhikode
10. Government Engineering College, Sreekrishnapuram
11. Government Engineering College, Wayanad
12. Government Engineering College, Idukki
13. Government Rajiv Gandhi Institute of technology

## Maharashtra

1. College of Engineering, Pune
2. Government College of Engineering, Aurangabad
3. Government College of Engineering, Karad
4. Government College of Engineering, Amravati
5. Government College of Engineering, Jalgaon
6. Government College of Engineering, Chandrapur
7. Government College of Engineering and Research, Avasari
8. Government College of Engineering, Nagpur

### Govt Aided Engineering Colleges

1. Veermata Jijabai Technological Institute, Mumbai
2. Walchand College of Engineering, Sangli

3. Shri Guru Gobind Singhji Institute of Engineering and Technology, Nanded

4. Sardar Patel College of Engineering, Mumbai

### University Department Institutes

1. Laxminarayan Institute of Technology, Nagpur
2. University Department of Sant Gadge Baba Amravati University, Amravati
3. University Institute of Chemical Technology, North Maharashtra University, Jalgaon
4. University Department of Chemical Technology, Aurangabad, Aurangabad
5. Department of Technology, Shivaji University, Kolhapur, Kolhapur

### University Managed Institutes

1. Dr. Babasaheb Ambedkar Technological University, Lonere, Dist-Raigad
2. Usha Mittal Institute of Technology, Mumbai

### Deemed University (Maharashtra Government funded)

1. Institute of Chemical Technology, Mumbai

## Rajasthan

- Government Engineering College, Bharatpur
- College of Technology & Engineering, Udaipur
- Government Engineering College, Ajmer
- Government Women Engineering College, Ajmer
- Government Engineering College, Jhalawar
- University Engineering College, Kota
- MBM Engineering College, Jodhpur
- Government Engineering College, Bikaner
- Manikya Lal Verma Textile and Engineering College, Bhilwara
- College of Engineering & Technology, Bikaner
- Government Engineering College, Banswara

## Tamil Nadu

- 1 Alagappa Chettiar College of Engineering and Technology
- 2 Government College of Engineering, Bargur
- 3 Government College of Engineering, Salem
- 4 Government College of Engineering, Tirunelveli
- 5 Government College of Technology, Coimbatore
- 6 Thanthai Periyar Government Institute of Technology
- 7 Government College of Engineering, Thanjavur
- 8 Government College of Engineering, Dharmapuri
- 9 Government College of Engineering, Bodinayakanur
- 10 Government College of Engineering, Srirangam

## Gujarat

- A.V.Parekh Technical Institute, - Rajkot
- Avpti Campus Government Engineering College
- Bharuch Government Engineering College
- Bhuj Government Engineering College
- Birla Vishvakarma Maha Vidhyalaya, V.V. Nagar
- Bpti Campus Government Engineering College, Bhavnagar
- Chandkheda Government Engineering College, Gandhinagar
- Government Engg. College, Godhra
- Government Engg. College, Palanpur
- L. D. Engineering College
- Lakhadiraji Engg. College- Morbi
- Lukhdhirji Engineering College
- Patan Government Engineering College
- R.C. Technical Institute, Ahmedabad
- Sec-28 Government Engineering College, Gandhinagar
- Shantilal Shah Engineering College, Bhavnagar
- Shri.K.J.Polytechnic Bharuch
- Sir. Bhavsinhji Polytechnic Institute, Bhavnagar

- Surat Government Engineering College, Surat
- Valsad Government Engineering College, Valsad

## Bihar

1. NIT, Patna
2. IIT, Patna
3. IRIMEE, Jamalpur
4. Central Institute of Plastics Engineering & Technology, Vaishali
5. MIT, Muzaffarpur
6. Bhagalpur College of Engineering, Bhagalpur
7. College of Agricultural Engineering, Rajendra Agricultural University, Samastipur
8. Bihar Institute of Silk & Textiles, Bhagalpur
9. Sanjay Gandhi Institute of Dairy Science & Technology, Patna
10. Darbhanga College of Engineering, Darbhanga
11. Women's Institute of Technology, Darbhanga
12. Nalanda College of Engineering, Chandi
13. Loknayak Jai Prakash Institute of Technology, Chhapra
14. Gaya College of Engineering, Gaya
15. Motihari College of Engineering, Motihari
16. Rastrakavi Ramdhari Singh Dinkar College of Engineering
17. Bakhtiyarpur College of Engineering
18. Shershah College of Engineering, Dehri
19. Katihar College of Engineering, KCE Katihar
20. Sitamarhi Institute of Technology, Sitamarhi

## Uttar Pradesh

1. Bundelkhand Institute of Engineering & Technology, Jhansi
2. Institute of Engineering & Technology, Lucknow
3. Kamla Nehru Institute of Technology, Sultanpur
4. Rajkiya Engineering College, Banda
5. Rajkiya Engineering College, Bijnore
6. Rajkiya Engineering College, Azamgarh
7. Rajkiya Engineering College, Ambedkar Nagar

8. Government Engineering College, Kanoj
9. Government Engineering College, Mainpuri
10. Government Engineering College, Sonbhadra
11. Uttar Pradesh Textile Technology Institute, Kanpur Nagar
12. Dr. Ambedkar Institute of Technology for Handicapped, Kanpur
13. Uttar Pradesh Institute of Design, Noida
3. Univ. instt. of Engineering & Tech- M D University, Rohtak, Haryana.
4. Guru Jambheshwar University of Sc. & Tech, Hisar, Haryana.
5. University Instt. of Engineering. & Tech- KU, Kurukshetra, Haryana.
6. YMCA Institute of Engineering, Faridabad, Haryana.

### **Jammu & Kashmir**

1. Kashmir University - institute of technology
2. Government Engineering College, Jammu
3. College of Engineering, Shri Mata Vaishno Devi University, Katra
4. College of Engineering and Technology, Baba Ghulam Shah Badshah University, Rajouri

### **Himachal Pradesh**

1. Jawhar Lal Nehru Govt. Engineering College Sundernagar
2. Atal Bihari Vajpaee, Govt. Instt. of Engg. & Technology (Degree) Pragatinagar
3. Govt. Rajiv Gandhi Govt. Engineering College Kangra
4. Govt. Engineering College Jeori (Rampur) camp at JNGEC Sundernagar

### **Punjab**

- 1 Amritsar College of Engineering and Technology
- 2 Beant College of Engineering and Technology Gurdaspur
- 3 Guru Nanak Dev Engineering College, Ludhiana
- 4 Shaheed Bhagat Singh State Technical Campus

### **Haryana**

1. Deen Bandhu Chhotu Ram Univ. of Sc.&Tech, Murthal, Haryana.
2. Ch.Devi Lal Mem Engg.College-Paniwala Motta, Sirsa, Haryana.

### **Uttarakhand**

1. Bipin Tripathi Kumaon Institute of Technology, Dwarahat
2. Govt. Institute of Hotel Management, Dehradun
3. State Institute of Hotel Management and Catering Technology & Applied Nutrition(SIHMCT&AN), New Tehri
4. Govt. Institute of Hotel Management, Almora
5. Institute of Co-operative Management, Dehradun
6. Institute of Technology, Gopeshwar
7. Seemant Institute of Technology, Pithoragarh
8. THDC Institute Of Hydropower Engineering & Technology, Bhagrathipuram Tehri
9. Women Institute of Technology, Dehradun
10. Dr. A.P.J Abdul Kalam Institute of Technology, Tanakpur
11. Institute of Technology, Uttarkashi

### **Jharkhand**

1. Birsa Institute of Technology, Sindri
2. University College of Engineering and Technology (UCET), Hazaribagh
3. Government Engineering College, Chaibasa
4. Government Engineering College, Dumka
5. Government Engineering College, Ramgarh

### **West Bengal**

1. Indian Institute of Science Education and Research (IISER)- Kolkata

2. Institute of Jute Technology
3. Jadavpur University
4. Jalpaiguri Government Engineering College
5. Kalyani Government Engineering College
6. Government College of Engineering & Leather Technology
7. Government College of Engineering & Textile Technology
8. Government College of Engineering & Textile Technology
9. Govt. College Of Engineering & Ceramic Technology
10. Aliah University
11. Bengal Engineering and Science University
12. Bengal Institute of Technology and Management
13. Calcutta Institute of Engineering and Management

### **Assam**

1. Assam Engineering College, Guwahati
2. Tejpur University, Tejpur
3. Assam Science and Technology University Guwahati
4. Bineswar Brahma Engineering College Kokrajhar
5. Triguna Sen School of Technology, Assam University Silchar
6. Dibrugarh University, Dibrugarh
7. Jorhat Engineering College Jorhat
8. Gauhati University Institute of Science and Technology Guwahati
9. Jorhat Institute of Science and Technology Jorhat

### **Chhattisgarh**

1. Government Engineering College, Bilaspur
2. Government Engineering College, Jagdalpur
3. Government Engineering College Raipur
4. Institute of Technology, Guru Ghasidas

- University
5. Vishwavidyalaya Engineering College, Sarguja University
6. Institute of Technology, Korba

### **Madhya Pradesh**

- Jabalpur Engineering College, Jabalpur
- Shri Govindram Seksaria Institute of Technology and Science, Indore
- Madhav Institute of Technology and Science, Gwalior
- Samrat Ashok Technological Institute, Vidisha
- Ujjain Engineering College, Ujjain
- Rewa Engineering College, Rewa
- Indira Gandhi Engineering College Sagar
- Engineering College, Nowgong

### **Self-financing**

- Barkatullah University Institute of Technology, Bhopal
- Institute of Engineering and Technology, DAVV, Indore
- Institute of Engineering, Jiwaji University, Gwalior
- Rustamji Institute of Technology, Tekanpur, Gwalior
- University Institute of Technology, RGPV, Bhopal
- School of Engineering and Technology, Vikram University, Ujjain

### **Odisha**

1. Veer Surendra Sai University of Technology
2. College of Engineering & Technology
3. Indira Gandhi Institute of Technology, Sarang
4. Government College of Engineering, Keonjhar
5. Government College of Engineering, Kalahandi
6. Parala Maharaja Engineering College, Berhampur

### **Karnataka**

Tiruchengode - 637 215, Namakkal (Dt), Tamil Nadu.

(Approved by AICTE, New Delhi & Affiliated to Anna University Chennai)  
Accredited By NAAC (A+ Grade) & NBA(UG - CSE, ECE, EEE, IT & MECH)

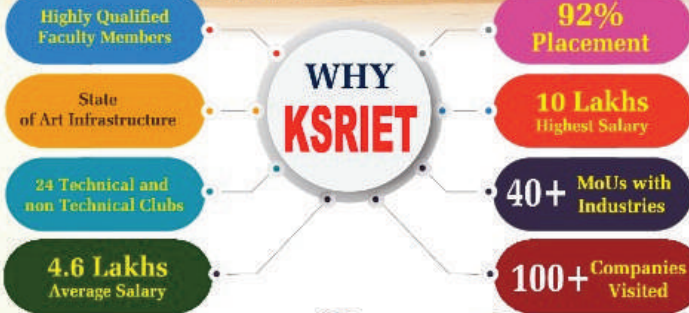

## Courses Offered

### UG Courses

- B.E. Computer Science and Engineering
- B.E. Computer Science and Engineering (Cyber Security)
- B.E. Electrical & Electronics Engineering
- B.E. Electronics & Communication Engineering
- B.Tech. Information Technology
- B.E. Mechanical Engineering
- B.E. Biomedical Engineering

### PG Courses

- M.E Embedded System Technologies
- M.E. CAD / CAM
- M.E. Software Engineering
- M.E. Big Data Analytics

# CUET 2022 EXAM

CUET Exam Date 2022 Out: CUET (Common University Entrance Test) exam is conducted every year by National Testing Agency (NTA) to enrol students into various UG programmes offered at all central universities including DU, JNU, JMI, EFLU and the University of Allahabad. Students aiming to study undergraduate programmes in central universities have to appear in the CUET which is now mandatory. A student's Board marks will have no role in determining his/her admission to a college or a programme. It will be based only on his/her CUET marks, however, board marks could be the minimum eligibility criteria for admission. **The National Testing Agency has officially announced the detailed CUET Exam Date 2022 on 11th July 2022 and as per CUET Exam Schedule, the CBT Exam will start on 15th July 2022 and ends on 10th August 2022.** The complete CUET Exam Schedule has been mentioned in the article.

## CUET 2022 Exam

The National Testing Agency has changed the name of the Central Universities Common Entrance Test (CUCET) to Central Universities Entrance Test (CUET). CUET 2022 will provide a single-window opportunity to students to seek admission in any of the Central Universities (CUs) across the country through Central Universities Entrance Test. This year, Delhi University (DU) has also made the CUET mandatory

for the academic session 2022-23. In this article, we are providing all details about the **CUET 2022 exam like- CUET Full Form, Notification, Exam Dates, Selection Process, CUET Syllabus, Latest Exam Pattern, Previous Year's Question Paper, Eligibility Criteria, List of Colleges etc.**

## CUET 2022 Latest Update

The CUET 2022 UG exam is going to be held on **15th, 16th, 19th, 20th July, 04th, 05th, 06th, 07th, 08th, and 10th August 2022.** The exam will be held in 2 slots daily, Slot 1: 195 minutes (3:15 hours) and Slot 2: 225 minutes (3:45 hours). As mentioned in CUET Exam Date 2022 Notice, CUET (UG) – 2022 has been scheduled for approximately 14,90,000 (Fourteen Lakh and Ninety Thousand) candidates, with approximately 8,10,000 (Eight lakh and ten thousand) candidates in the first slot and approximately 6,80,000 (Six lakh eighty thousand) candidates in the second slot. These candidates have applied for 54,555 unique combinations of subjects across 90

Universities.

## CUET Exam Date 2022 Out

NTA has released a notice regarding the CUET (UG) 2022 exam on 11th July 2022. NTA CUET 2022 online examination is scheduled to be conducted from 15 July 2022 to 20 August 2022 (excluding the days of other undergraduate Examinations) at **different Examination Centres located in 500 cities across India and 10 cities outside India.** This year the NTA will conduct the Central Universities Entrance Test (CUET) in an online mode (CBT). **The official CUET 2022 exam date notice is attached below.**

## CUET 2022 Exam Summary

CUET Exam has been confirmed for this year by NEP and NTA. CUET shall be a qualifying exam for admission to 86 Universities out of which there are 43 Central Universities, 13 State Universities, 12 Deemed Universities and 18 Private Universities. Have a look at the glimpse of the

CUET 2022 - Exam Summary	
Full Exam Name	Central Universities Entrance Test (CUET)
Conducting Body	National Testing Agency (NTA)
Frequency of Conduct	Once a year
Exam Level	University Level
Courses Offered	Undergraduate
Exam Date	15th July to 10th August 2022
Universities	90
Mode of Application	Online
Mode of Exam	Online (Computer-based Test)
Type of questions	Multiple-choice questions
CUET Exam Centers	500 cities across India and 10 Cities Outside-India
Official website	<a href="https://cuet.samarth.ac.in/">https://cuet.samarth.ac.in/</a>

CUET 2022 Exam Summary as tabulated below-

### CUET 2022 Important Dates

The online examination for CUET 2022 UG will be conducted from 15th July to 10th August 2022. All important dates related to CUET 2022 UG exam are given below.

### CUET 2022- Important Dates

#### CUET 2022 Admit Card

CUET 2022 Admit Card will be

August 2022. The CUET Admit Card will consist of the exam centre address, exam timings application number and course applied. CUET hall ticket 2022 along with a valid photo ID is the mandatory document on the day of the examination. Check the complete details for CUET Admit Card from the below link.

### CUET 2022 Notification

University Grants Commission (UGC) has released a detailed information bulletin regarding the CUET 2022

exam. Click on the below link to read out the complete information released by NTA for CUET 2022.

### CUET 2022 Application Form Reopens

CUET 2022 Registration Portal has been reopened for 23rd & 24th June 2022 (11:50 pm) as announced by National Testing Agency. CUET 2022 Registration process is to be conducted on <https://cuet.samarth.ac.in/>. The CUET 2022 application process would comprise steps including registration, application, image upload and payment. The candidates looking forward to admission to undergraduate and postgraduate programmes at several centrally-funded universities must have to submit online applications at the official website <https://cuet.samarth.ac.in/>.

### CUET 2022 Application Fee

CUET 2022 Application Fee can be paid by debit/credit card/net banking or Challan of SBI bank at any branch. Candidates have to pay the application fee either online or offline mode. GST and other taxes will be applicable as prescribed by Govt. of India/ Bank. Check category-wise CUET 2022 Application Fee from the below table.

### How to fill CUET Application Form 2022?

CUET 2022- Important Dates	
Events	CUET 2022 Dates
CUET Application Form Starts	06th April 2022
CUET Application Form Ends	22nd May 2022 (5 pm)
Last Date for payment of fee online	22nd May 2022 (11:50 pm)
Correction Window	25th to 31st May 2022
CUET Online Registration Re-open	23rd & 24th June 2022 (11:50 pm)
Release of <a href="#">CUET Admit Card 2022</a>	12th July 2022
CUET 2022 Exam Date for UG	15th, 16th, 19th, 20th July, 04th, 05th, 06th, 07th, 08th, and 10th August 2022
Provisional CUET answer key 2022	To be announced
Last date for Raising Objections against CUET Answer key	To be announced
Final CUET answer key	To be announced
CUET 2022 Result	To be announced
CUET 2022 merit list	To be announced
Counseling of CUET 2022	To be announced

released on 12th July 2022 for the students who are going to appear for the CUET 2022 Exam which has been scheduled to be held from 15th July to 10th

Category	Payment through online/debit/credit card	Payment through Challan		
	Application Fees*	Application Fee	Bank Commission	Total Fee to be paid
General/OBC	INR 800 for three PUs	Rs. 800	Rs. 50	Rs. 850
SC/ST	INR 350 for three PUs	Rs. 350		Rs. 400
PWD	Exempted from Application Fee			

The candidates have to fill out CUET Application Form 2022 to get registered for the Central Universities Entrance Test (CUET). Follow the below steps to fill CUET 2022 Application Form.

**Step 1** - Visit the official website of the CUET to fill CUET Application Form 2022.

**Step 2** - Click on the 'Apply Online' tab to register for the programme.

**Step 3** - After clicking, candidates will be able to see three programmes options- UG, PG, and RP. Click on the link you wish to apply for.

**Step 4** - Complete the registration process by entering details like program applied for, name, valid e-mail id, mobile number, date of birth, and verification code displayed on the screen.

**Step 5** - Once all details are submitted, the application number and password are generated and are sent to the registered email address and mobile number.

**Step 6** - Use the application number and password to log in and fill up the application form by entering the log-in details like personal, academic qualification and communication address.

**Step 7** - Upload scanned images of a recent passport-sized photograph and signature in prescribed format and dimensions.

**Step 8** - Select the examination centres- In order of preference, select and enter the exam centres.

**Step 9** - On successful online application submission with payment of fees through an automated email and SMS is sent to the registered e-mail ID and mobile number.

### CUET 2022 Eligibility Criteria

Candidates who wish to appear for the CUET 2022 Exam can check the required eligibility criteria set by National Testing Agency for admission to UG (undergraduate) & PG (postgraduate) Courses before they start filling out their application form.

### CUET Education Qualification

The academic qualifications for Undergraduate Courses, Post Graduate Courses and PhD Programmes are different which has been discussed below for each course. Check the CUET Academic Qualification for the course you are going

to opt for.

#### Courses

##### Undergraduate

The student must have scored a minimum of 50% marks in class 12th for General category candidates and 45% marks for SC/ST candidates.

##### Post Graduate

The student must have scored a minimum of 55% (General category) and 50% (SC/ST/OBC/PWD category) in Graduation Degree. In some places, there is a different cut off for the OBC candidate students.

##### PhD Programme

The candidate must have a post-graduate degree in the particular stream with a minimum of 55% marks for general candidates, 50% marks for OBC candidates and 45% marks for SC/ST/PWD candidates.

### CUET Reservation

As CUET is an entrance exam for admissions to UG courses at the Central Universities, which have been established under an Act of the Parliament, each Central University must follow the norms set by the Government of India, with respect to intake and reservation of seats. This section of the CUET Eligibility provides relaxation to the SC/ST, OBC, and PwD category.

Generally, the following break-up is followed:

Category	Reservation
Scheduled Castes (SC)	15%
Scheduled Tribes (ST)	7.5%
Other Backward Classes (Non-Creamy) (OBC)	27%
Persons with Disability (PWD)	5%

### CUET 2022 Exam Pattern

NTA will also conduct the CUET Exam in 13 languages (Tamil, Telugu, Kannada, Malayalam, Marathi, Gujarati, Odia, Bengali, Assamese, Punjabi, English, Hindi and Urdu). Check the revised CUET Exam Pattern 2022 from here.

1. CUET 2022 will be conducted in an online mode this year, earlier, the exam was offline.

- CUET (UG) – 2022 will consist of the following 4 sections namely-
  - Section IA – 13 Languages
  - Section IB – 19 Languages
  - Section II – 27 Domain-specific Subjects
  - Section III – General Test
- The question paper will be MCQ type only and there will be a total of 175 questions out of which 140 questions are to be attempted.
- A Candidate can choose a maximum of any 3 languages from Section IA and Section IB together.
- Section II consists of 27 Subjects, out of which a candidate may choose a maximum of 6 Subjects.

## CUET UG/Integrated Courses Syllabus

### English Language

- Comprehension Passages- To test their understanding of a passage and its central theme, meanings of words used therein, etc
- Fundamentals of grammar- incorrect sentences, filling blanks in sentences with appropriate words,
- Vocabulary- synonyms, antonyms

### Numerical Ability

- Areas like arithmetic
- Number system
- Basics of algebra

- Modern maths

### General Awareness and Current Affairs

- Static general knowledge
- Current Affairs (national & international current affairs)

### Logical & Analytical Reasoning

- Syllogisms
- Logical sequences
- Analogies

- Series
- Directions
- Clocks & calendars
- Seating Arrangements
- Puzzles

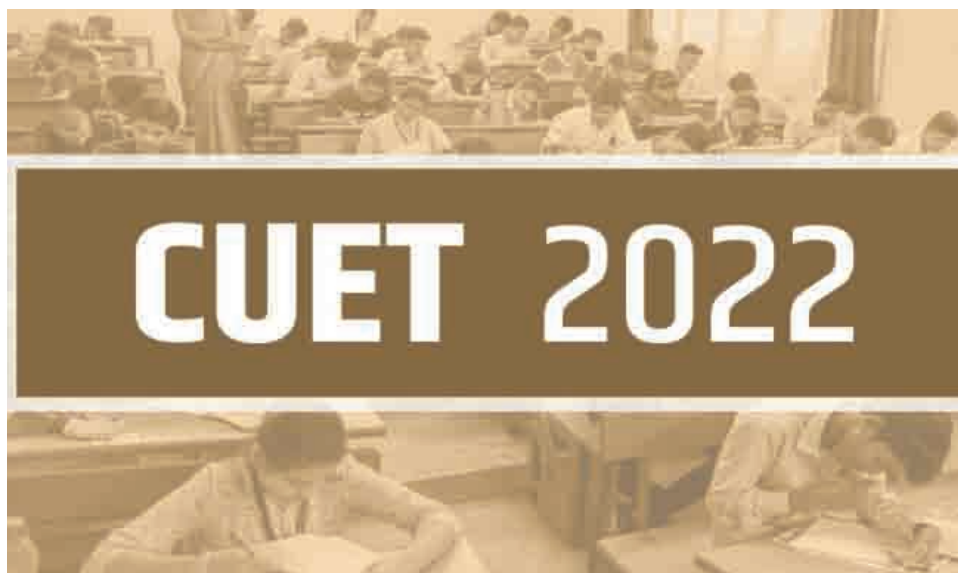

CUET Exam Pattern 2022				
Sections	Subjects/ Tests	No. of Questions	To be Attempted	Duration
Section IA	13 Languages	50	40	45 minutes for each language
Section IB	19 Languages			
Section II	27 Domain-specific Subjects	50	40	45 minutes for each subject
Section III	General Test	75	60	60 minutes

**Section IA Languages (13):** Tamil, Telugu, Kannada, Malayalam, Marathi, Gujarati, Odiya, Bengali, Assamese, Punjabi, English, Hindi and Urdu

**Section IB Languages (19):** French, Spanish, German, Nepali, Persian, Italian, Arabic, Sindhi, Kashmiri, Konkani, Bodo, Dogri, Maithili, Manipuri, Santhali, Tibetan, Japanese, Russian, Chinese.

## CUET 2022 Syllabus

The syllabus for the Central Universities Common Entrance Test (CUET) will consist of various topics from the related previous academic syllabus. The CUET Syllabus 2022 for UG courses will be from the 11th and 12th academic syllabus and for PG courses, the syllabus will be from the academic syllabus of the related undergraduate syllabus.

# WHAT ARE CENTRAL UNIVERSITIES ?

Central universities are universities founded by an act of parliament and are under the jurisdiction of the Ministry of Education’s Department of Higher Education. Because these universities are founded, controlled and managed by central government through Ministry of Education, these universities have been classified as Centre (Union

Government).

## How Many Central Universities are there in India?

In India, 54 central universities have been established, the oldest of which being Allahabad University, which was founded in 1887. The Central Tribal University of Andhra Pradesh is the newest of the bunch, having only been established in 2019. With the exception of Goa, at least one central university has been founded in each of India’s three states/union territories.

## LIST OF CENTRAL UNIVERSITIES IN INDIA

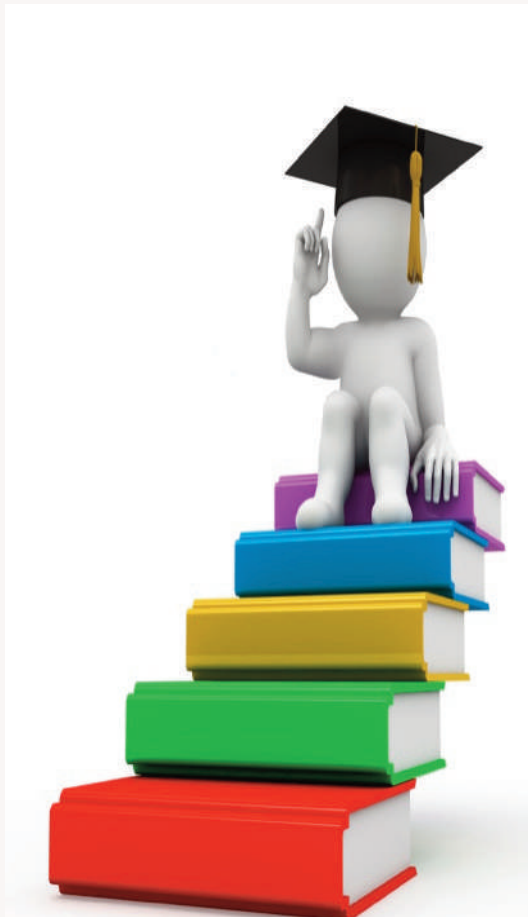

Here is a comprehensive list of all the central universities in India along with their location and year of establishment-

S.No.	University	State/Union Territory (Location)	Year of Est.
1	Aligarh Muslim University	Uttar Pradesh (Aligarh)	1920
2	Assam University	Assam (Silchar)	1994
3	Babasaheb Bhimrao Ambedkar University	Uttar Pradesh (Lucknow)	1996
4	Banaras Hindu University	Uttar Pradesh (Varanasi)	1916
5	Central Agricultural University	Manipur (Imphal)	1993
6	Central University of Gujarat	Gujarat (Gandhinagar)	2009
7	Central University of Haryana	Haryana (Mahendragarh)	2009
8	Central University of Himachal Pradesh	Himachal Pradesh (Dharamshala)	2009
9	Central University of Jammu	Jammu & Kashmir (Jammu)	2011
10	Central University of Jharkhand	Jharkhand (Ranchi)	2009
11	Central University of Karnataka	Karnataka (Gulbarga)	2009
12	Central University of Kashmir	Jammu & Kashmir (Srinagar)	2009
13	Central University of Kerala	Kerala (Kasaragod)	2009
14	Central University of Orissa	Odisha (Koraput)	2009
15	Central University of Punjab*	Punjab (Bhatinda)	2009
16	Central University of Rajasthan*	Rajasthan (Ajmer)	2009
17	Central University of South Bihar	Bihar (Gaya)	2009
18	Central University of Tamil Nadu*	Tamil Nadu (Tiruvarur)	2009
19	Dr. Hari Singh Gour University	Madhya Pradesh (Sagar)	1946 (2009)+

20	Dr. Rajendra Prasad Central Agriculture University	Bihar (Pusa, Samastipur)	1905 (2016)+
21	English and Foreign Languages University	Telangana (Hyderabad)	1958 (2007)+
22	Guru Ghasidas Vishwavidyalaya	Chhattisgarh (Bilaspur)	1983 (2009)+
23	Hemwati Nandan Bahuguna Garhwal University	Uttarakhand (Srinagar)	1973 (2009)+
24	Indian Maritime University	Tamil Nadu (Chennai)	2008
25	Indira Gandhi National Open University	Delhi (New Delhi)	1985
26	Indira Gandhi National Tribal University	Madhya Pradesh (Amarkantak)	2007
27	Jamia Millia Islamia	Delhi (New Delhi)	1920 (1988)+
28	Jawaharlal Nehru University	Delhi (New Delhi)	1969
29	Mahatma Gandhi Antarrashtriya Hindi Vishwavidyalaya	Maharashtra (Wardha)	1997
30	Mahatma Gandhi Central University	Bihar (Motihari)	2016
31	Manipur University	Manipur (Imphal)	1985 (2005)+
32	Maulana Azad National Urdu University	Telangana (Hyderabad)	1998
33	Mizoram University	Mizoram (Aizawl)	2000
34	Nagaland University	Nagaland (Lumami)	1994
35	Nalanda University	Bihar (Rajgir, Nalanda)	2010
36	National Sports University	Manipur (Imphal)	2018
37	North Eastern Hill University	Meghalaya (Shillong)	1973
38	Pondicherry University	Puducherry (Pondicherry)	1985
39	Rajiv Gandhi National Aviation University	Uttar Pradesh (Raebareilly)	2013
40	Rajiv Gandhi University	Arunachal Pradesh (Itanagar)	1985 (2007)+
41	Rani Lakshmi Bai Central Agricultural University	Uttar Pradesh (Jhansi)	2014
42	Sikkim University	Sikkim (Gangtok)	2007
43	South Asian University^	Delhi (New Delhi)	2010
44	Tezpur University	Assam (Tezpur)	1994
45	Tripura University	Tripura (Agartala)	1987
46	University of Allahabad	Uttar Pradesh (Allahabad)	1887
47	University of Delhi	Delhi (New Delhi)	1922
48	University of Hyderabad	Telangana (Hyderabad)	1974
49	Visva Bharati University	West Bengal (Shantiniketan)	1921
50	Central University of Andhra Pradesh	Andhra Pradesh	2018
51	Central Tribal University of Andhra Pradesh	Andhra Pradesh	2019
52	The National Sanskrit University	Tirupati	1956
53	The Central Sanskrit University	New Delhi	1970
54	Shri Lal Bahadur Shastri National Sanskrit University	New Delhi	1962

# UNIVERSITIES BY STATE

Of the State of India there are state universities in all states except Arunachal Pradesh, Meghalaya, Mizoram and Nagaland. The state with the most state universities in India is West Bengal with 35 universities. Of the union territories, there are state universities only in Chandigarh, Delhi, Jammu and Kashmir and Ladakh.

State universities in India by state

State	Fit under Section 12 (B)?		Total Universities
	Yes	No	
Andhra Pradesh	16	9	25
Assam	7	10	17
Bihar	10	8	18
Chandigarh	1	0	1
Chhattisgarh	5	11	16
Delhi	7	3	10
Goa	1	0	1

FOR UG AND PG COURSES

AMITY  
UNIVERSITY  
— GWALIOR —

# FAST FORWARD YOUR SUCCESS WITH **TOP PLACEMENTS**

## The Amity Edge

- **Upto 100% Scholarship** available
- **Flexible Credit System**
- **5-week Study Abroad Program**
- **6000+** Distinguished Faculty & Scientists
- Faculty have filed **1650 Patents** and published **15,000 research papers**
- **200+ Student start-ups** incubated by campus incubator
- **1,20,000 Alumni** across the world
- **300 programmes** covering 60 disciplines
- **300 Research projects** funded by government undertaken

## OUR ESTEEMED RECRUITERS

Amity University Gwalior, Maharajpura, Gwalior (Opp. Airport)

Tel.: 83-499-94630/31/32, 99-937-23655, 98-267-59724, 0751-2496025 | [amity.edu/Gwalior](http://amity.edu/Gwalior)

# K S R INSTITUTE FOR ENGINEERING AND TECHNOLOGY

Tiruchengode - 637 215, Namakkal (Dt), Tamil Nadu.

(Approved by AICTE, New Delhi & Affiliated to Anna University Chennai)  
Accredited By NAAC (A+ Grade) & NBA(UG - CSE, ECE, EEE, IT & MECH)

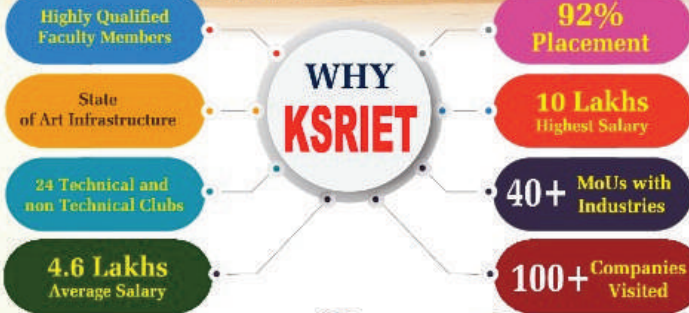

## Courses Offered

### UG Courses

- B.E. Computer Science and Engineering
- B.E. Computer Science and Engineering (Cyber Security)
- B.E. Electrical & Electronics Engineering
- B.E. Electronics & Communication Engineering
- B.Tech. Information Technology
- B.E. Mechanical Engineering
- B.E. Biomedical Engineering

### PG Courses

- M.E Embedded System Technologies
- M.E. CAD / CAM
- M.E. Software Engineering
- M.E. Big Data Analytics

## Our Prestigious Recruiters

## MILESTONES OF KSRIET

**NBA**  
NATIONAL BOARD OF ACCREDITATION  
UG programmes  
MECH, EEE, ECE, CSE, IT  
are Accredited by NBA.

Biomedical Research  
Lucknow

## COURSES OFFERED

### MEDICAL

- M.B.B.S
- M.D & M.S
- Fellowships and PDCC  
Register on [www.eimcindia.org](http://www.eimcindia.org)

### NURSING

#### CERTIFICATE COURSE

- Infection Prevention and Control

#### DIPLOMA

- Auxiliary Nursing & Midwifery (A.N.M. 2 Yrs)
- General Nursing & Midwifery (G.N.M. 3 Yrs)

#### BACHELOR OF SCIENCE (B.Sc.)

- Bachelor of Nursing (B.Sc. 4 Yrs)
- Post Basic Bachelor of Science in Nursing (P.B.B.Sc. 2 Yrs)

#### MASTER OF SCIENCE (M.Sc.)

- Medical Surgical Nursing
- Child Health Nursing (Paediatrics)
- Obstetrics and Gynaecology Nursing
- Mental Health Nursing (Psychiatric)
- Community Health Nursing

### LIBERAL ART & SCIENCES

- B.Sc. / B.A. Multidisciplinary Liberal Education

### MANAGEMENT

- Master in Hospital Administration (MHA)

### SCIENCES

#### BACHELOR OF SCIENCE (B.Sc.)

- Food and Nutrition
- Biotechnology

#### MASTER OF SCIENCE (M.Sc.)

- Clinical Psychology
- Food and Nutrition
- Biotechnology
- Medical Physiology
- Medical Biochemistry
- Medical Microbiology
- Medical Pharmacology
- Medical Anatomy

### COMPUTER SCIENCE

- Bachelor in Computer Application (B.C.A. 3 Yrs)

### MEDICAL & ALLIED SCIENCES

#### DIPLOMA

- C.T. Scan
- M.R.I. Technician
- Cardiology Technician
- Lab Technician
- OT Technician
- Dialysis Technician
- X-Ray Technician
- Optometry
